4	The course topics were arranged in sequential and connected well
5	The course content addresses the self-learning concepts
6	The learning material, theory/practical sessions were relevant to the course outcomes
7	After the completion of this course, you will be able to solve analyze real-life problems related to this course
8	This course has given you enough understanding to take next level courses

2020-21

Semester-I

Analysis Report

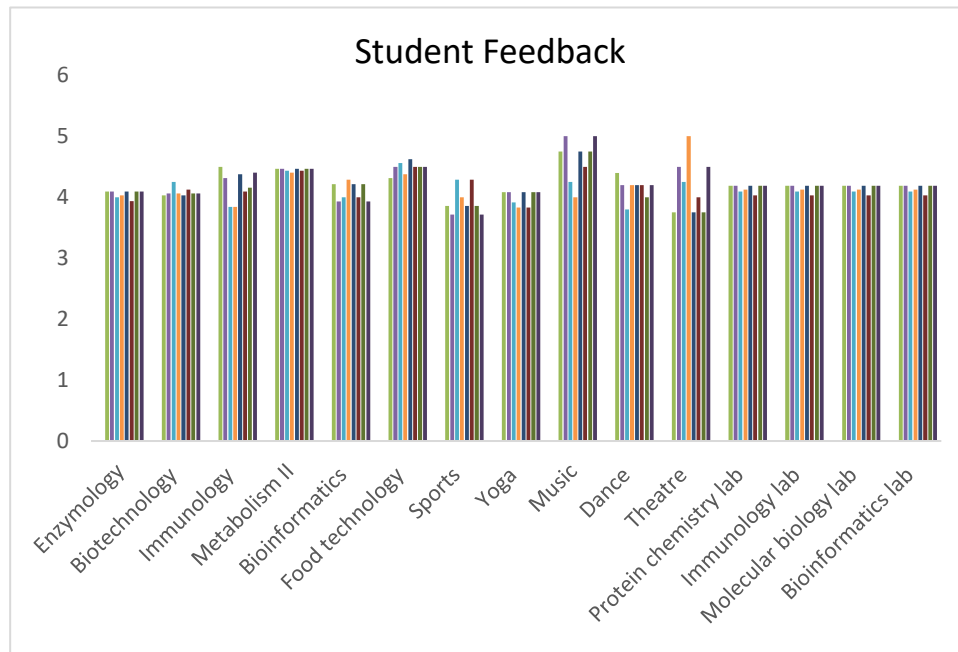

The course content has topics with objective-based with relevant practicals. Students find difficulty in a few topics of the courses like Analytical Techniques, Metabolism due to difficulty in understanding the principle and working mechanism for many analytical instruments without practical knowledge and metabolic pathways for few students. Hence the least score is 3 and the highest score is 5.
