3.3.2 Number of workshops/seminars conducted on Research methodology, Intellectual Property Rights (IPR), entrepreneurship, skill development during the last five years (10)

Year	Name of the workshop/ seminar	Number of Participants	Date From – To
2021-22	Tips and tricks Around Patent	60	30.10.21
2021-22	CRISPR: Principles and Application by Vowels	20	25.10.2021 - 29.10.2021
2021-22	Workshop on Vermicomposting	65	30.11.2021
2021-22	Expert Lecture on “GENOMICS AND CAREER OPPORTUNITIES” by Dr. Sudha Narayan Rao, CEO & Founder, Genotypic Technology Private Limited, Bangalore	33	18.11.2021
2021-22	Skill Development Program at Medauxin - Microbial Identification, DNA Barcoding and Sequencing	12	18.10.2021 - 22.10.2021
2021-22	Skill Development Program at Criyagen Pvt. Ltd, MODULE -Microbial based techniques	11	27.12.2021 - 31.12.2021
2021-22	Skill Developmental Program at Azyme Biosciences Pvt. Ltd. MODULE - Analytical Techniques	15	3.1.2022 - 7.1.2022
2021-22		15	10.1.2022 - 14.1.2022
2021-22	Skill Development Program at Stellixir Biotech Pvt. Ltd. MODULE - Animal Cell culture Techniques	9	3/05/2022 - 7/5/2022
2021-22	IPR Workshop on Intellectual Property Rights: Claim Construction	18	30.4.2022
2021-22	Research Workshop to Merck (India) Pvt. Ltd., with Research Scholars, PG Students	25	8.04.2022
2021-22	Hands-on workshop on Introduction to Toxicology: Insights and Understanding	30	30.5.2022 - 3.6.2022
2021-22	CAREER ORIENTATION TALK ON “FRONTIERS IN MOLECULAR BIOLOGY & BIOTECHNOLOGY”	75	26.5.2022
2021-22	Recent Trends in English Language Teaching	100	22/6/2020-26/6/2021
2021-22	Literature and Humanity	1000	24th May to 28th May 2021
2021-22	'Eshanya ' - Cultural Extravaganza Skill development Program	200	26th November 2022
2021-22	7 Day Faculty Development Program on Advanced Research Methodology, organized by School of Arts	200	1st August -7th August 2022
2021-22	Interdisciplinary Conference on Narratives and Identities, Traditions and Innovations	100	30th and 31st August 2021
2021-22	5th International Conference on Advanced Research in Mechanical , Materials and Manufacturing Engineering	90	9-07-2021 to 10-7-2021
2021-22	Webinar on "Second Law of Thermodynamics and its Role in Energy systems, Environment and sustainability	40	09-07-2021
2021-22	Webinar on "Climbing up the sustainable Science/ Engineering Ladder"	39	10-07-2021
2021-22	Webinar on "Utilizing 3D printing technology for advance medical field"	35	10-07-2021
2021-22	Technical Talk on "Airless Tyre Integrated Approach"	38	21-07-2021
2021-22	Technical Talk on " Lessons from the life of a Mountainer"	50	24-07-2021
2021-22	Webinar on " Application of six sigma in collaboration with IT in CRO and Health Care Industry"	40	24-07-2021

Year	Name of the workshop/ seminar	Number of Participants	Date From – To
2021-22	Webinar on "Research persepective and challenges in Solar Energy"	50	27-07-2021
2021-22	Expert talk on " Feasibility of 3D printing assited casting for customised medical metallic implant"	44	29-07-2021
2021-22	webinar on " Current Development & Challenges in Aero Engines Maintenance /Diagnostics/ Prognostics	50	30-07-2021
2021-22	5 Days Workshop on " Virtual Reality for Mechanical Engineers"	38	2-08-2021 to 06-08-2021
2021-22	Technical Talk on "Smart Manufacturing leading Towards Sustainability"	40	10-08-2021
2021-22	Technical talk on " Concept of High Entropy Alloy"	45	17-08-2021
2021-22	FDP on IoT: Application in Mechanical Engineering	35	23-08-2021 to 27-08-2021
2021-22	Technical talk on " Introduction to Hydrogen Energy"	40	07-09-2021
2021-22	Technical Talk on " Characterization of Metal Matrix Nano Composites"	32	28-09-2021
2021-22	One and Two dimensional NMR Specroscopy	110	10TH JULY 2021
2021-22	"Electrode Materials for Advanced Li and post Li-ion batteries"	96	28th AUG 2021
2021-22	Making right choice is using the wisdom of the heart"	80	8th SEP 2021
2021-22	"Scanning Probe Microscopy: STM & AFM	90	15th NOV 2021
2021-22	"Commutator for CSIR NET Exam	90	24TH DEC 2021
2021-22	"Introduction to Cheminformatics Tools-SAS,SAAS, SSB	80	25th JAN 2022
2021-22	Optically Stimulated Luminescence and Application	103	7th March 2022
2021-22	Fenton Reactions: From Classical to Advancements	100	29th March 2022
2021-22	Hand on Workshop Data Mining with R Programming	100	01-06-2022
2021-22	Technical Talk on "Cyber Security and Data Protection"	45	25-02-2022
2021-22	Webinar on "Entrepreneur Mindset through Project Based Learning"	230	03-09-2022
2021-22	Orientation Programme "SPARK"	180	14-03-2022
2021-22	Webinar on "Getting Started with Bug Bounty"	78	18-03-2022
2021-22	Technical Talk on "Overview of Offensive and Defensive Cyber Security"	45	23-03-2022
2021-22	SODACODE 2022 Hackers bootcamp	237	04-07-2022
2021-22	SDP on Python Program	209	9-04-2022 to 13-04-2022
2021-22	Alumni Talk on " Road Map forSuccess in Placement"	154	25-04-2022
2021-22	Hands-on Workshop on "Internet of Things"	58	26-04-2022
2021-22	Hands on Workshop on "Android App Development"	120	07-05-2022
2021-22	SDP "Cyber Security and Ethical Hacking Level-2"	123	09-05-2022 to 13-05-2022.
2021-22	IoT Boot Camp- B.Sc(H)	54	16-05-2022 to 20-05-2022
2021-22	IoT Boot Camp- MSc. (DS)	55	23-05-2022 to 27-05-2022
2021-22	Expert Lecture on "Future on Artificial Intelligence"	143	06-02-2022
2021-22	Expert Lecture "Recent Investigations in Machine Learning and Edge Computing"	234	06-04-2022
2021-22	Expert Lecture on "Strategies for Innovation and Creativity"	145	06-12-2022
2021-22	Expert Lecture Deep Learning in Medical Imaging: Challenges and State-of-the-Art Solutions	195	06-03-2022

Year	Name of the workshop/ seminar	Number of Participants	Date From – To
2021-22	Expert Lecture Latest Trends in Agile Development	59	23/6/2022
2021-22	Expert Lecture Cloud Security	100	30/6/2022
2021-22	Expert Lecture on “Efficiency and Reliability via Artificial Intelligence”	232	30/6/2022
2021-22	Expert Lecture on “What not to be there in research paper.”	132	22/6/2022
2021-22	Expert Talk on Intellectual Property Rights – Patent Specification Drafting	109	17-06-2022
2021-22	Sir M. Vivesvaraya Institute of Technology Bio Incubation Center Visit	17	07th April 2021
2021-22	A Session on Design Patent Filing	15	08th April 2021
2021-22	Webinar on the Importance of Intellectual Property Rights for Make in India	50	12th April 2021
2021-22	Webinar on Patent Filing Procedure	50	12th April 2021
2021-22	Essay Writing Competition	77	15th to 22nd April 2021
2021-22	Learn the Nitty-Gritties of Entrepreneurship, with Entrepreneurship & Business Canvas Version 2	40	16th to 18th April 2021
2021-22	Webinar on Patents in Civil Engineering	35	19th April 2021
2021-22	Webinar on Filing Softwares Patents	50	19th April 2021
2021-22	Webinar on Patent Awareness and Filing Procedure	202	22nd April 2021
2021-22	Poster Presentation on IPR	48	23rd April 2021
2021-22	Aspiring entrepreneurs ahoy!! Know the art of surviving and thriving and nurture the leaders in you in our upcoming Webinar	22	24th April 2021
2021-22	Webinar on Intellectual Property Rights (IPR) Cognizance in Research and Innovation	102	24th April 2021
2021-22	Learn to Build products that people want! Join the Pre-sales Workshop	45	26th, 29th & 30th April 2021
2021-22	Founder's Talk-2021, College to Startup!! A roadmap to your first college Startup	41	1st May 2021
2021-22	International 2 Part Lecture Series Design Thinking and Complexity	92	04th & 11th May 2021
2021-22	Session on Company Registration in India-Overview & Procedures	36	21st May 2021
2021-22	Webinar on 72% of Entrepreneurs are directly or Indirectly affected by Mental health issues!	34	29th May 2021
2021-22	Webinar on Innovation and Entrepreneurship	76	12th June 2021
2021-22	One Day Brainstorming Workshop on Innovation and Creative Thinking	142	12th June 2021
2021-22	Invited Talk on Product Design Cycle	70	12th June 2021
2021-22	Webinar on Product Development Life Cycle	141	03rd July 2021
2021-22	Industry Expert Talk on "Startup Opportunities for Students	86	10th July 2021
2021-22	International Webinar on Technology Commercialization: Taking your Research to Real world	202	12th July 2021
2021-22	Awareness on Intellectual Property Rights	23	23rd September 2021
2021-22	Risk Assessment of Product Innovation & Development	319	24th September 2021
2021-22	Brainstorming & Sustaining an Organizational Culture of Innovation	273	24th September 2021
2021-22	Role of Innovation in Risk	247	28th September 2021
2021-22	Think Before you leap into Entrepreneurship	252	04th October 2021
2021-22	Innovation Business Model & Entrepreneurship	247	05th October 2021

Year	Name of the workshop/ seminar	Number of Participants	Date From – To
2021-22	Startup Opportunities in India, Do's & Don'ts	157	07th October 2021
2021-22	"My Story Motivational Session by Successful Entrepreneur/Startup Founder (Mr. Pramod Kalyani, CEO Kalsoft Solutions Pvt Ltd)	152	11th November 2021
2021-22	"My Story Motivational Session by Successful Entrepreneur/Startup Founder (Mr. Satyanarayana A R, Entrepreneur & Co-Founder, Embright Infotech Pvt Ltd)	27	12th November 2021
2021-22	Workshop on Entrepreneurship & Innovation as Career Opportunity	231	16th November 2021
2021-22	Pitching Event for Ideas Scouted & Linkage with Innovation Ambassadors for Mentorship Support on Design Thinking	151	30th November 2021
2021-22	Session on Pitching Event for PoCs developed & linkage with Innovation Ambassadors for mentorship support."	26	10th,11th, 13th January 2022
2021-22	Session on “Developing Online Repository of Start-ups Developed/incubated and Way forward plan “	76	10th January 2022
2021-22	e-Symposium on Building Innovation and Entrepreneurial Ecosystem in Educational Institutions Day 1	46	11th January 2022
2021-22	e-Symposium on Building Innovation and Entrepreneurial Ecosystem in Educational Institutions Day 2	51	12th January 2022
2021-22	A Session on Achieving Problem-Solution Fit & Product-Market Fit	15	25th January 2022
2021-22	A Workshop on Entrepreneurship Skill, Attitude and Behavior Development	127	27th January 2022
2021-22	A Session on Entrepreneurship Skill: Team Building and Leadership	52	27th January 2022
2021-22	A Session on Essential Of Innovation and Entrepreneurship	196	28th January 2022
2021-22	A Session on Essential Networking Skills for Innovators	96	02nd February 2022
2021-22	Workshop on the Art of Design Thinking	26	3rd February to 4th February 2022
2021-22	A Session on Challenges in Entrepreneurship	66	03rd February 2022
2021-22	A Expert Talk on Process of Innovation Development & Technology Readiness Level (TRL) along with Commercialization of Lab Technologies & Tech-Transfer	46	04th February 2022
2021-22	A Session on Sparking Innovation and Creativity	196	08th February 2022
2021-22	A Workshop on Design Thinking, Critical Thinking and Innovation Design	36	08th February 2022
2021-22	A Session on Govt. Schemes for Entrepreneurship	66	18th February 2022
2021-22	A Field/Exposure Visit to the Pre-Incubation Units of REVA for FABLAB	37	28th February 2022
2021-22	Session on Women Empowerment – Talk on Women Entrepreneurs	19	03rd February 2022
2021-22	Field Visit to BSF, Awareness about Cyber Security, Signalling & Transmission in Data Communication	34	04th March 2022
2021-22	Report National Level Awareness Program 2022 on Entrepreneurship and Development for Young Minds	73	05th March 2022
2021-22	National Science Day	200	09th March 2022
2021-22	A Session on Rural Entrepreneurship	48	10th March 2022
2021-22	Orientation on Pre Incubation Program	26	10th March 2022
2021-22	A Session on What you got, Founder	29	14th March 2022
2021-22	“Ideathon 3.0”	231	16th March 2022

Year	Name of the workshop/ seminar	Number of Participants	Date From – To
2021-22	Presentation of Business Plan/ Prototype Developed & Linkage with Innovation Ambassadors for Mentorship Support	36	16th March 2022

University Industry Interaction Centre in association with School of Applied Sciences (Biotechnology), REVA University

Organized workshop on

“Tips and tricks Around Patent”

About the event	<p>University Industry Interaction Centre in association with School of Applied Sciences (Biotechnology) organized workshop on “Tips and Tricks Around patent on 30th October 2021. The session was organized for Faculty members of Department of Biotechnology, School of Applied Sciences and Final year M.Sc Biotechnology students.</p> <p>The resource person for the workshop was Dr. Sarasija Padmanabhan DL-Tutor World Intellectual Property Organisation Advisory Member PIC, KSCST IISc Campus, Bengaluru .The session threw light on basic aspects of patenting to patent filing procedure, prior art search procedure and associated data base and sites. The session was highly interactive where resource person made the participants solve the case studies. The outcome of the workshop was comprehensive understanding of patent and the associated aspects. The event was coordinated by Prof. Renuka Madhu, IPR Coordinator, School of Applied Sciences.</p>
Organized By	University Industry Interaction Centre in association with School of Applied Sciences (Biotechnology), REVA University
Coordinators	Prof. Renuka Madhu, IPR Coordinator, School of Applied Sciences, REVA University
Date	30.10.21
Targeted Audience	Faculty members, Department of Biotechnology and III Sem MSc Biotechnology students
No. of Participants	60

We would like to thank our Honorable Chancellor **Dr. P. Shyama Raju** Sir for providing all facility and supporting to organize such events. We also thank Pro Vice Chancellor **Dr. M. Dhanamjaya**, Registrar Dr. Ramesh and Prof. B.R. Shilpa, Deputy Director - School of Applied Sciences for providing all the facilities, support and encouragement towards organizing the sessions. We also thank to Dr. Kiran Kumari Patil, Director, University Industry Interaction Center, for the involvement and being the driving force in taking up and organizing the Program.

We thank the coordinator and all the staff members involved for the successful conduction of the session.

REPORT ON 5 DAYS FACULTY DEVELOPMENT PROGRAM on CRISPR: Principles and Application

Department of Biotechnology, School of Applied Sciences

Date: 25th to 29th October, 2021

Time: 3.00pm to 5.00pm

The Department of Biotechnology, School of Applied Sciences organized a five day Faculty Development program on CRISPR: Principles and Application from 25th to 29th October, 2021. 18 faculty members from the Department of Biotechnology actively participated in the event. Dr. Gokul Kesavan, Program Director, Vowels Advanced School of Learning & Research was the resource person for the FDP. Dr. Kesavan highlighted the importance of the advancements in genome editing technologies in the recent decade. He deliberated regarding the preciseness, user friendliness and powerfulness of CRISPR/Cas9 genome editing technology and also its potential in transforming biological research thereby exhibiting beneficial effects on human health, environmental sustainability and food security.

Dr. Kesavan further focused CRISPR/Cas9 as the next step of evolution in terms of analyzing and editing the genetic information of animals, humans, plants, and microbes. He also threw a light on the simplicity of the CRISPR/Cas9 platform in comparison to the earlier existing tools, which has led to its rapid adoption and wide array of its applications. Dr. Kesavan concluded the FDP with the impact of genome editing in sustainable development, environmental management, food security and find applications in the development of affordable diagnostics and therapeutics for various diseases.

Dr. Gokul Kesavan was very interactive and energetic throughout the five days sessions, which was reflected from his one to one interaction with the faculty members addressing their queries. The interaction was very fruitful and the discussion went on regarding the latest achievements of CRISPR/Cas9 gene editing technology in the production of transgenic tomatoes rich in gamma-aminobutyric acid. The FDP event concluded with the projects designed by faculty members employing various tools of gene editing technology.

Vermicomposting workshop

School: Applied Sciences

Venue: Vermicomposting Unit, REVA University

Date: 30th October

Year: 2021

The Department of Biotechnology, School of Applied Sciences organized one day workshop on waste collection, waste segregation and vermicomposting process. The workshop was conducted in terms to spread awareness about waste segregation and treatment process among students. Students of 3rd semester B.Sc. BBG and 3rd Semester M.Sc. Biotechnology participated in the session. The session began with introduction and briefing about the workshop by Dr. Prabhakar Mishra, providing the insights about waste segregation and efficient and eco-friendly decomposing of the waste through vermicomposting. The session proceeded with students' active participation in waste collection, around the campus and then segregating the dry and wet waste.

Post segregation session, the collected waste was utilized for the commencing the work of vermicomposting. Prior to that the process of vermicomposting, the methodology and mechanism of the process was briefed by Dr. Guruprasad N.M describing the basics of Vermicomposting. Later the student participants utilized the gathered waste and imitated the setup of vermicomposting in the assigned venue under the supervision of Dr. Guruprasad, Dr. Prabhakar, Dr. Hemavathi and Dr. Santharam. Overall, the workshop was beneficial for the students in terms of fetching the practical knowledge of organic and inorganic waste, types of waste suitable for vermicomposting and most important the applicative potential of the vermicomposting in terms of solid waste management.

REPORT ON GUEST TALK ON “GENOMICS AND CAREER OPPORTUNITIES”**Department of Biotechnology, School of Applied Sciences****Date: 18/11/2021****Time: 10:30am to 12:30pm****Guest: Dr. Sudha Narayana Rao**

CEO and Co-Founder

Genotypic Technology Private Limited, Bangalore

The Department of Biotechnology, REVA School of Applied Sciences organized a guest talk on “Genomics and Career opportunities” on 17th November 2021 at Prof. Junjappa seminar hall. The talk was delivered by Dr. Sudha Narayana Rao, CEO and Co-Director at Genotypic Technologies Pvt. Ltd. and Dithi Omics Pvt Ltd. Dr. Sudha N Rao pioneered genomics as a service in India with the motto "Genomics Simplified" in early 2000.

The event started off by introducing the guest by Dr. Prabhakar Mishra, Assistant Professor, REVA University, School of Applied Sciences. In her talk she emphasized on the basics of genomic techniques and bioinformatics applications in current biological research. The genomic research efforts in operation around the world is the mapping and sequencing of whole genomes. The entire genomes of more than hundred organisms had been completed by early 2002, including the working drafts of the human genome, first published in 2001. The successful completion of the sequencing of these genomes was made possible in part by companies developing and utilizing new technologies and processes to increase the speed and accuracy of mapping and sequencing. This effort has also spawned entire new fields that aim, in various ways, to capitalize on genomics and identify disease-causing genes and new therapeutic strategies. She explained about the Genomic applications in biological research mainly on healthcare industry applications and agricultural industry applications. Infrastructure facility required for genomic technology development, process, analyze and maintenance. Finally, students are actively interacted with Dr. Sudha Narayana Rao. She also mentioned her experience to establish a Genotypic Technology Pvt Ltd and Dithi Omics Pvt Ltd. The talk was informative and interactive. The event ended with vote of thanks.

Skill Development Program at Biozeen, Medauxin and Credora Life Sciences

Skill development program was arranged by Biotechnology Department for the students of 3rd semester, M.Sc. Biotechnology at **Biozeen**, Hennur, **Medauxin and Credora Life Sciences** Bangalore from 18th to 22nd October 2021.

Biozeen is a private firm which manufactures state of the art fermenters & bioreactors and caters to several production houses, industries and research labs across the globe. It was a 5- day program which focused on providing hands-on training to the students in the areas of Downstream Processing (DSP) mainly, chromatography and filtration techniques. 36 students attended the program in batches of two maintaining COVID Protocol. The session was initiated by Dr. Nellaiah, Head, Research and Development and Training on the various bio-analytical techniques that are involved in research and development. The trainers played a great role in imparting knowledge as well skills to the students. The students received hands on in Purification process in downstream. Overall, the program proved to be beneficial in terms of getting a real time scenario of DSP in Industry.

Group of 12 students from third sem M.Sc Biotechnology completed their one week SDP on Molecular Biology technique module form Credora Life science, Bengaluru where the resource person was Mr.Sangam. Modules covered were DNA isolation, Gel Electrophoresis, RNA isolation from leaf and its reverse transcription to get CDNA, Real-time PCR handling, Bioinformatics tools.

12 students completed their one week SDP on Molecular Biology techniques at Medauxin ,Horamavu, Bangalore. The modules covered were Microbial Identification (MID) through RAP technology-DNA Barcoding and Metabarcoding, Sanger Sequencing. It was a great hands on learning experience for the students.

Report on Skill Development Program (SDP)

School: Applied Sciences, Department of Biotechnology

Venue: Criyagen Agri & Biotech Private Limited, Doddballapur, Bangalore

Date: 27/12/2021- 31/12/2021

The Department of Biotechnology, School of Applied Sciences, REVA University has organised a Skill Development Program for first semester MSc. Biotechnology program students at Criyagen Agri & Biotech Private Ltd. Company, Doddballapur, Bangalore, from Dec 27th to Dec 31st. 2021.

Criyagen is a premier biotech company well known for its wide range of biotech products. Criyagen produces a wide range of products to provide comprehensive crop nutrition to enhance agriculture output. Fifteen students from the Master degree program had undergone an intensive training program at the Criyagen. Students got an opportunity to learn about microbiology based techniques used at the Criyagen. In addition to this, they received training on basic soil testing methods and battery of tests done to characterize the soil samples. This will immensely help in choosing appropriate biofertilizers for increasing the crop productivity based on soil nutrients availability and crop requirement.

Students got an opportunity to see the world class research facilities in the company. In addition, they also received hands on training for wide range of experiments executed at the Criyagen company. Students have been trained to use sophisticated analytical instruments such as atomic absorption spectroscopy, flame photometer, Kjeldahl's based nitrogen analyzer, microwave- plasma atomic emission spectrophotometer etc.. Scientists in the facility explained in detail about the various instruments they routinely use. This SDP has helped students to gain immense knowledge in the field of microbiology, and plant biotechnology. This program will go a long way towards improving scientific temperament of the students and in nurturing these young minds to become scientists and entrepreneurs.

List of the students who participated in this SDP

Sl. No.	Name of the Student
1	Janhvi
2	Jyothi Vital Chavan
3	Muskan Chowdhary
4	Aanand
5	Nishikanth
6	Ketaki Range
7	Abhijit Panda
8	Sonali Priyadarshini
9	Alqama Afridi
10	Ruchita vilas Punjal
11	Kolimi Rithuja

Skill Development Program (SDP) at AZYME BIOSCIENCES PVT LTD

M.Sc Microbial Technology, first semester students completed their one week SDP on Biochemical techniques from 18th January to 25th January at Azyme Biosciences Pvt Ltd, Bengaluru. The resource person was Dr. Mahesh who gave good practical exposure on the modules such as Protein isolation, Gel Electrophoresis, PCR amplification, HPLC analysis. It was a very productive session as students gained hands on in various molecular biology tools used in industries.

Report on Skill Development Program (SDP)

School: Applied Sciences, Department of Biotechnology

Venue: Azyme Biosciences Pvt Ltd., Jayanagara, Bangalore

Dates: First batch: 24/02/2022 -2/3/2022; Second Batch: 03/01/2022- 07/01/2022

Third Batch: 10/1/2022 -14/1/2022.

The Department of Biotechnology, School of Applied Sciences, REVA University has organised a Skill Development Program for the MSc. (First semester) Biotechnology program students at Azyme Biosciences Pvt Ltd., Bangalore. Students who have opted for SDP at Azyme Biosciences, are divided in to 3 batches for better hands-on training experience. Each batch had 5 day training session as listed in the below dates: First batch: 24/02/2022 -2/3/2022; Second Batch: 03/01/2022- 07/01/2022; Third Batch: 10/1/2022 -14/1/2022.

Azyme Bioscience Pvt. Ltd., is an ISO 9001-2008 certified Research Laboratory intended to bridge the gap between academics and industry. They have an extensive high end instruments like HPLC, Gas chromatography, ELISA reader, BSL-2 laminar flow. Students are given hands on training on advanced molecular biology techniques such as SDS-PAGE, Western blotting, ELISA, animal cell culture, etc. Students have also been trained on Gel filtration chromatography technique, which is utilized to purify proteins in large scale for further characterization as well as for therapeutic purposes where purity requirements is necessary. Antibodies are very handy tools to detect the specific proteins in the protein samples, as well as for diagnostics purpose. Students have been trained to execute antibody based detection techniques such as Western blotting and ELISA.

During this 5 day SDP, students got an opportunity to get trained at the world class research facilities at the company. Students also got hands on training on very sensitive techniques and high end instrumentation. This training program has benefited students immensely in getting acquainted with advanced molecular biology and protein biology techniques.

Report on Skill Development Program (SDP)

School: Applied Sciences, Department of Biotechnology

Venue: Stellixir Biotech Pvt Ltd, Peenya, Bangalore-58

Date: 03/05/2022 - 07/05/2022

The Department of Biotechnology, School of Applied Sciences, REVA University has organised a Skill Development Program for first semester MSc. Biotechnology program students at Stellixir Biotech Pvt Ltd., Peenya, Bangalore, from May 3rd to May 7th, 2022.

Stellixir Biotech has a world class research facility which includes animal cell culture lab. Stellixir has a good Research and development lab that works on development of biomaterials for wound healing, and screening facility for identification of anticancer compounds. It also has facility for synthesis of nano particles and for extraction of compounds from medicinal plants.

Nine students have opted for Skill development program at Stellixir Biotech. Students got hands on training on animal cell culture techniques. Students got hands on training on subculturing of cell lines, and cell toxicity test- MTT assay. Students also got trained on the the experiments done for the identification of anticancer compounds using cell lines. Stellixir also provided them hands on training on flow cytometry to analyze the DNA quantity of cells. Detailed information about the experiments taught in the SDP training module is listed in the next page table.

Overall, students got a very good hands on training session on cell lines culture, media preparation, various tests done cell lines.

List of the student who have opted for SDP at Stellixir

SRN	Student name
R21SL001	Abhijith Panda
R21SL014	Karthik HR
R21SL017	Malavika
R21SL022	Muskan Chowdhary
R21SL032	Ruchita
R21SL036	Sruthika Mandanna
R21SL039	Sonali Priyadarshini
R21SL045	Alqama Afridi

SDP training module details

DAY 1	
	Introduction to mammalian cell culture techniques and aseptic conditions to be maintained
	Subculture and maintenance of cell lines
	Trypsinization, Cell counting and seeding into 96 well plates
	Lunch break
	Cell viability analysis by Trypan Blue method
	Thawing of cells

DAY 2

Morphological analysis of cells and discussion on different contaminations occur during the cell culture

Anti-cancer drug preparation methods for cytotoxicity

Lunch break

Drug treatment and incubation of cells

Introduction to flow cytometry

DAY 3

Morphological analysis of cells treated with anti-cancer drugs

Preparation of MTT reagent and incubate the drug treated cells with MTT reagent for 2 hrs.

Seeding of cells for Flow cytometry-based apoptosis marker expression study

Lunch break

ELISA and Analysis of MTT assay results

DAY 4

Morphological analysis of cells and discussion on MTT assay results

Preparation of anti-cancer drug dilutions

Addition of drugs to the cells and incubation.

Lunch break

Cryopreservation of cells

DAY 5

Morphological analysis of cells treated with anti-cancer drugs

Cells fixation and permeabilization studies

Incubation of cells with Annexin V/PI to study the apoptosis and necrosis.

Lunch break

Analysis of apoptosis and necrosis by flow cytometry

Photos taken during SDP at Stellixir

Report on organized workshop on “Intellectual Property Rights: Claim Construction”

School: Biotechnology, SoAS

Venue: REVA University

Date: 30/4/ 2022

Department of Biotechnology, School of Applied Sciences organized workshop on “**Intellectual Property Rights: Claim Construction**” on 30th April 2022. The session was organized for Faculty members of Biotechnology Department, School of Applied Sciences and Research Scholars.

The resource person for the workshop was Dr. Sarasija Padmanabhan DL-Tutor World Intellectual Property Organization Advisory Member PIC, KSCST IISc Campus, Bengaluru . The session took the participants through basics of patenting, patent laws in India, patent filing procedure, prior art search procedure etc. An elaborate account of claim construction was shared with the audience. Hands-on sessions were also conducted for claim construction to give a better clarity on construction of independent and dependent claims with preamble, transition and elements in the body of the claims. The session was highly interactive where resource person made the participants solve the case studies. The outcome of the workshop was comprehensive understanding of patent filing and claim constructing in drafting a patent. A detailed account of various aspects of patent draft right from the title to the complete specification was also explained by the speaker. The speaker also shared her perspective on how the department can progress in IPR domain by training faculty members to take up patent agent examination. The event was coordinated by Prof. Renuka Madhu, IPR Coordinator, School of Applied Sciences.

A Research workshop organized to Merck (India) Pvt. Ltd

Department of Biotechnology, School of Applied Sciences, REVA University had organized an industrial visit on **08th April 2022** to the **Merck (India) Pvt. Ltd**, located in Industrial Area, Anekal Taluk, Bangalore 560010, Karnataka, India for the students for Research scholars and post graduate students.

Prof. Shilpa B.R, Dr. Senthil, Dr. Manjula K.R. and Prof. Renuka Madhu accompanied the research scholars and students.

Ms. Kritika at Merck (India) Pvt. Ltd and gave a clear introduction and explained their vision and mission. Merck was incorporated in India as E. Merck India Private Limited in 1967. It is a pharmaceutical company growing to become a science and technology business spanning all the sectors of Healthcare, Life Science and Electronics.

Merck was founded in 1668 at Darmstadt, Germany, by Friedrich Jacob Merck. We've been around for 350 years, and the founding family continues to be our majority owners. Merck, a leading science and technology company, operates across healthcare, life science and electronics. Around 57,000 employees work to make a positive difference to millions of people's lives every day by creating more joyful and sustainable ways to live. Scientific exploration and responsible entrepreneurship have been key to Merck's technological and scientific advances. This is how Merck has thrived since its founding in 1668. The founding family remains the majority owner of the publicly listed company. Merck holds the global rights to the "Merck" name and brand. The only exceptions are the United States and Canada, where the business sectors operate as EMD Serono in healthcare, Millipore Sigma in life science, and EMD in electronics.

Ms. Kritika, Dr. Senthil, and Dr. Pradeep addressed the students on the techniques which were involved in performing q-PCR technique and got an opportunity of hands-on experience by them they work on Healthcare, Life science and Electronics the specialized techniques like molecular markers, DNA fingerprinting, Marker Assisted Selection, Cell culture Techniques, Recombinant DNA technology, immune blotting techniques and Nanodrop technology, tissue culture. They also shed light on the various branches of Life sciences and Healthcare science.

Later, the students were taken for the field visit around the widespread Merck (India) Pvt. Ltd and were given an insight on the process of Healthcare, Life science and Electronics the specialized techniques like molecular markers, DNA fingerprinting, Marker Assisted Selection, Cell culture Techniques. They also spoke about how qPCR is very important techniques in designing the instrumentation parts.

Main aim of this visit was to provide an exposure to Research scholars and post graduate students a hands-on experience on q-PCR technique.

Report on Toxicology Workshop

WORKSHOP TITLE: Introduction to Toxicology- Insights and Understanding

WORKSHOP DATE: 30th May to 3rd June 2022

VENUE: Biotechnology Lab and Microbiology Lab, Department of Biotechnology, School of Applied Sciences, REVA University

FACULTIES IN-CHARGE:

1. Dr. Prabhakar Mishra

Associate Professor, Department of Biotechnology, School of Applied Sciences
REVA University

2. Dr. Santosh Anand

Associate Professor, Department of Biotechnology, School of Applied Sciences
REVA University

3. Dr. Ramya M

Associate Professor, Department of Biotechnology, School of Applied Sciences
REVA University

4. Dr. Yuvashree M

Assistant Professor, Department of Biotechnology, School of Applied Sciences,
REVA University

Department of Biotechnology, School of Applied Sciences, REVA University, organized a five-day workshop on Introduction to Toxicology- insights and understanding in association with Himedia Laboratories Pvt. Ltd, Bengaluru from 30.5.2022-03.06.2022. Toxicology is known as the “Science of Safety” since it can predict the beneficial or harmful nature of a chemical and it’s now emerging as a prominent field in the domain of applied sciences. Hence this workshop is an exemplary for the young minds to understand toxicology, the technical aspects of genotoxicity, cytotoxicity, and the diverse concepts related to toxicology in life sciences. The highlight of this 5-day workshop was that the participants were given hands-on experience and training on various assays and experiments on toxicology. 2nd and 3rd year

students of undergraduate (any life science background) and post-graduate from any life science background was the eligibility criteria to be a part of this workshop. A total of 29 students participated in the workshop which included both internal and external students. There were 10 participants from Garden City University, 1 from JSS, Mysore and about 18 students from REVA University.

Day-1: (30th May 2022)

The 5-day toxicology workshop was inaugurated by our honourable Registrar Dr. N. Ramesh sir followed by the guest lecture from Dr. Gopumadhavan, General Manager, Toxicology, Himalaya wellness Company. He briefed the participants about the history, definition of toxicology, the types and classification of toxins. He gave an insight about the various protocols and guidelines to be followed during toxicology studies. Later, Dr. Santhosh Anand and Dr. Yuvashree M elucidated the participants on some of the basics of toxicology and related concepts. Post lunch, the participants were taken around the labs and were given an insight on the advanced lab equipments that are used in toxicology experiments.

Day-2: (31st May 2022)

The day-2 of the workshop commenced with extraction of protein from animal tissue and for this earthworm were used as sample. This was followed by estimation of protein using Bradford's assay. Post lunch, the participants performed estimation of catalase activity, lipid peroxidation assay and DPPH assay. All the experiments were carried out under the guidance of the coordinators and faculty in-charge (Dr. Santosh Anand, Dr. Yuvashree M and Dr. Prabhakar Mishra).

Day-3: (1st June 2022)

On day-3, the participants performed DNA extraction from various samples like bacterial, plant and animal cells followed by agarose gel electrophoresis to analyse the extracted DNA under the guidance of the coordinators and faculty in-charge (Dr. Ramya M). Also, we had 2 experts- Mr. Santhakumar and Mr. Sunil Kumar from Himedia laboratories Pvt. Ltd. Bengaluru who demonstrated and trained the participants, how to use PCR for DNA amplification and explained the requirements, protocol, applications and types of PCR.

Day-4: (2nd June 2022)

On day 4, the participants performed experiments based on cytotoxicity like the MTT assay, Trypan Blue staining and estimation of catalase enzyme activity through zymogram. Also, native-PAGE and SDS-PAGE was demonstrated to the participants and were made to learn and understand the differences and applications under the guidance of the coordinators and faculty in-charge (Dr. Yuvashree M and Dr. Prabhakar Mishra).

Day-5: (3rd June 2022)

The last day of the workshop had experiments based on genotoxicity like analysis of mitotic index through *Allium cepa* and two-lane electrophoresis under the guidance of the coordinators and faculty in-charge (Dr. Ramya M). The valedictory was held at around 3pm, where in the participants were awarded with certificate for the completion of the workshop and few participants came up and shared their experience about the workshop. The workshop sessions were simple and easy to understand. Hands on Training was indeed a great experience to all the participants. Finally, the 5-day toxicology workshop came to an end at 4:30pm.

Handwritten signatures of the coordinators, including 'Ramya' and 'Prabhakar Mishra'.

REPORT ON CAREER ORIENTATION TALK ON “FRONTIERS IN MOLECULAR BIOLOGY & BIOTECHNOLOGY”

Department of Biotechnology, School of Applied Sciences

Date: 26.05.2022

Time: 10.30 am to 11.30 am

The Department of Biotechnology, School of Applied Sciences organized a Career orientation talk entitled “What do I intend to do with what I learnt” on 26/05/2022. The resource person for the talk was Dr. B V Ravikumar, Chairman and Managing Director, XCyton Diagnostics Ltd., Bengaluru, who holds more than three decades of experience and expertise in diagnostic kits development. The talk was conducted offline in APJ Hall, SoAS block. 75 postgraduate students from Biotechnology, Microbial technology and Bioinformatics attended the session.

The session started with a brief introduction of the resource person by Dr. Guruprasad N M followed by welcoming the guest. Dr. Ravikumar started his talk deliberating on various job and entrepreneurial opportunities in life science domain. Later he enlightened the students with several skill enhancement strategies highlighting plethora of skills what a company necessitates for the selection process.

Dr. Ravikumar interacted individually with each student to know the extent of scientific temper that the present generation students are possessing and later he insisted the students to have a professional and scientific attitude in the field of life sciences. He also gave a glimpse of various pharmaceutical, food processing, beverages, bioinformatics, clinical research, and marketing sectors where a student can opt for placements after the completion of their course. The overall session was highly interactive and students received innumerable take home messages from Dr. Ravikumar’s splendid talk.

School of Arts and Humanities

Faculty Development Programme on " Recent Trends in English Language Teaching "

The School of Arts and Humanities had organized a five-day FDP on **"Recent Trends in English Language Teaching"** from 22th June to 26th June 2020 in Microsoft Teams through virtual learning. Delegates attending FDP were faculty from different Universities and colleges throughout India and the in-house faculty members of REVA University.

The first day session began on 22nd June, which was delegated by Dr. RAJASEKARAN V, Professor School of Social Science, Vellore Institute of Technology, Chennai, who focused on the importance and **future of English Language Teaching**. The relation and correlation between objectives and outcomes were discussed.

The second day session was on 23rd June, which was delegated by Dr. ANITHA DEVI V, Associate Professor, School of Social Science, Vellore Institute of Technology, Vellore, who focused on **Online Teaching Strategies for the ESL Classroom**. The lecture covered the need for quality in education and various strategies on virtual learning was discussed.

The third day session was on 24th June, which was delegated by Dr. K. Suneetha Reddy, Professor & HoD, Department of English Sri Venkateshwara College of Engineering for Woman, Tirupati. The session focused on **Breaking the Culture of Silence- Developing Presentation Skills**. The session covered innovative insights on presentation skills and speaking skills.

The fourth day session was on 25th June, was delegated by Dr. Newlin Rajkumar, Assistant Professor Department of Computer Science and Engineering, Anna University Regional Centre, Coimbatore. Focused again on **Bridging Gap between Campus and Corporate Communication**. The prerequisites for bridging the gap and implementation of communication skills was covered in subsequent session

covering teaching, learning, assessment. Application of Bloom's taxonomy to facilitate measurement of level of learning in cognitive, affective and psychomotor domain was explained. The importance, purpose and components of rubrics were made to understand.

The Fifth-day session was on 26th June, which was delegated by Dr. Tiakaba Jamir, Assistant Professor Department of Basic Science & Humanities, CMR Institute of Technology, Bangalore. The session focused on **ELT and Soft Skills - A Blended Approach**. The session covered innovative insights on presentation skills and soft skills.

Feedback from participants had been taken. All the participants had expressed that the 5 days FDP was very effective and helpful for them. E certificates were distributed to all the participants and a certificate of Appreciation was sent to the Resource persons.

ABOUT REVA UNIVERSITY

REVA University has been established under the REVA University Act, 2012. The University is located in Bengaluru on a sprawling green campus, spread over 45 acres of land, built with state-of-the-art infrastructure creating an environment conducive to higher learning and research. The founder of REVA University believe in the motto 'Knowledge is Power'. Driven with a philanthropic vision and a missionary zeal, the campus is built to transform students into outstanding citizens. The University prides itself in contributing to the holistic development of every student. The University currently offers 33 Undergraduate Programmes, 24 full-time Postgraduate Programmes, 2 part-time Postgraduate Programmes, Ph.D. Programmes in various disciplines and several Certificate / Diploma and Postgraduate Diploma Programmes in Engineering, Architecture, Science and Technology, Commerce, Management Studies, Law, Arts & Humanities, and Performing Arts. The programmes offered by REVA University are well planned and designed based on in-depth analysis and research with emphasis on knowledge assimilation, practical applications, hands-on training, global and industrial relevance, and social significance.

ABOUT THE SCHOOL

The School of Arts and Humanities at REVA University, one of the most sought after schools, has out a niche for itself by building a prominent academic record. The School offers Undergraduate, Postgraduate, and Ph.D. programs to scholars from all over the world, initiating in them the continuous urge to delve into the vast arena of creative and critical thinking. The programs of study offered foster cultural, social and political understanding and hone the creative abilities of the scholars. Here, students not only develop knowledge in their area of specialization but also acquire practical skills useful for their future careers. We take great pride in our students who have been performing exceedingly well in the field of academics and co-curricular activities and have been bringing laurels to the University every year. We are at a wonderful phase when the domain of Arts and Humanities all over the world is taking very meaningful and innovative turns. With various new career opportunities and specializations coming to the forefront, young enthusiasts have the boon of limitless career choices. We, at REVA University, deem it fit to channelize the potential of the young minds towards newer horizons. With the expertise of the highly qualified and committed teaching faculty of the School, we continuously strive to provide the best practical knowledge to our students.

This academic year, keeping in mind our trend, our goals are set very high. Focusing primarily on Research and Development, the School will initiate every scholar under our wings to take a step forward in their specialized areas by engaging in collaborative and individual research projects. Research collaboration with other prestigious organizations is also in the pipeline. Many external subject specialists from the teaching fraternity as well as industry will bring in their expertise to our scholars, providing them with current scenarios of the entire world.

ABOUT THE PROGRAM

The English language teaching tradition has been subject to tremendous change, especially throughout the twentieth century. Perhaps more than any other discipline, this tradition has been practiced, in various adaptations, in language classrooms all around the world for centuries. Technological innovations are part of education and English language teaching. Embodied learning is based on the idea that learning is not just about remembering. It involves using the mind and the body, collaborating, discussing, and exploring. Learners need to be emotionally, intellectually, physically, and socially engaged. Thus, we can see that the manageable stockpile of research of just a few decades ago has given place to a systematic storehouse of information. In our esteemed University, the changing winds and shifting sands of time and research are turning the desert into a longed-for oasis. This program aims at deliberations and discussions on the recent trends in the arena of English Language Teaching.

Last date for Registration: 21st June, 2020

E-certificates will be provided

The School of Arts, Humanities and Social Sciences in collaboration with the Indian Society for the Promotion of English Language and Literature (iSPELL) conducted **5-day Faculty Development Program**. The FDP titled “**Literature and Humanity**” was scheduled from **24th to 28th May 2021**. The FDP witnessed an overwhelming response from all over the country and there were registrations from abroad too. 1600 participants had registered for the first FDP. E-certificates were provided to all resource persons, chairpersons, and registered participants. The event was successful in meeting the objectives of promoting the study of literature and language and facilitating research in various related fields of Arts and Humanities.

The details of the FDP are given below:

5-Day FDP on “Literature and Humanity” – 24.5.2021 – 28.5.2021

ESHANYA - A Cultural Extravaganza

[Back](#)

On behalf of REVA University students of all schools from **India's Northeast** region, it is our pleasure to invite you to **ESHANYA - A Cultural Extravaganza**, showcasing the culture and tradition of the states popularly termed as 'Seven Sisters and One Brother' on Saturday, **26th November 2022 at 10:30 A.M.** in the **Ampitheatre at CV Raman Block**.

ESHANYA, meaning 'Northeast', will exhibit the various forms of songs, dances and attires of the region while celebrating India's unique 'Unity in Diversity'. REVA University has given a platform to these students to come together and as much as the event is an expression of their native culture, it is equally demonstrative of their belongingness to their alma mater, and their love for Bengaluru which has accepted them with open arms.

We invite everyone to be a part of the event and support the initiative of the students.

10 YEARS OF UNIVERSITY RECOGNITION 2012-2022

About the Conference

The 2-day International Interdisciplinary Conference on "Narratives, Self and Identities : Traditions and Innovations" will be held on 30th and 31st August, 2021 virtually on MS Teams platform. The conference focuses on the multidisciplinary and interdisciplinary area of narrative studies. Narratives are analysed in different disciplines and various disciplines borrow concepts and methodologies from each other. The conference aims to explore the inter-connected areas of memory, self, and identity and their relationship with collective (public) and individual (private/personal) narratives. The conference would also focus on the various aspects of Ideology, Memory, Myth, Situation, Audience, Nation, etc. to discuss the construction of narratives in various contexts – Social, Psychological, Political, Historical, and many more.

Call for Papers

Original and unpublished research papers are invited for presentation in the multi-disciplinary areas related to the conference theme on the following topics (but not restricted to):

- Gender Narratives
- Popular Culture in New Media/ Literature
- Construction of Narratives and OTT Platforms
- Visual Narratives
- The Narrative Art and Cinema
- Digital Humanities and the role of Narratives
- Cross Cultural Narratives and Globalisation
- Cyber Culture, Cyber Activism, Online Movements
- Subaltern Narratives
- Indigenous/Folk/Oral Narratives
- Crime and Thriller Narratives
- War, Violence and Trauma Narratives
- Tourism and Travel Narratives
- Political Narratives
- English Language Teaching – Recent Trends and Developments
- Mental Health across Life-span
- Human Cognition
- Society, Culture and Psyche
- Positive Psychology
- New Age Psychotherapy
- Organisation, Work and Leisure
- Consumer Behaviour
- Pandemic / Post-Pandemic Narratives

Registration Details

Paper Presenters (Teachers/ Research Scholars/ Students) : INR 500
Participants (non paper presenters) : INR 100

Use the link given below to register for the event and pay the registration fees:
<https://bit.ly/35B68qF>

- E-Certificate of presentation/ participation will be given to all those who register.
- In case of co-authored papers, all authors must register individually by paying the registration fees. E-Certificate of presentation will be given to all the authors separately.
- Registration fees includes participating and listening to all the sessions; e-certificate; and electronic copy of Conference Proceedings with ISBN.

Important Dates

Submission of Full Paper	: 20th July, 2021
Notification of Acceptance	: 25th July, 2021
Last Date of Registration and payment of fees	: 1st August, 2021
*Submission of abstract separately is not required.	

Guidelines

The conference paper, not exceeding 3000 words, should be submitted as per the latest MLA / APA specifications in MS Word document as an email attachment only. Further, the paper should contain the full name/s of the author/s, designation, institutional affiliation, email ID and contact number. A maximum number of three co-authors per paper will be allowed. All the submitted papers will be sent for peer review and plagiarism check and the author/s will be notified the outcome of the review process. Papers should be mailed only to revaisspellconf2021@reva.edu.in within 20th July, 2021. Papers sent to any other email IDs and after the last date will not be accepted.

All accepted papers for presentation will be published in a Conference Proceedings with ISBN and electronic copy of the same will be given to all the authors. Selected papers will be published in UGC CARE List/ Scopus/ Web of Science journal with extra publication charges.

ABOUT USM, MALAYSIA

Established as the second university in the country in 1969, Universiti Sains Malaysia (USM) was first known as Universiti Pulau Pinang. In 1971.

USM offers courses ranging from Natural Sciences, Applied Sciences, Medical and Health Sciences, Pharmaceutical Sciences to Building Science and Technology, Social Sciences, Humanities, and Education.

ABOUT THE SCHOOL

The school of Mechanical Engineering, REVA University is headed by dedicated and Experienced Professor of Mechanical Engineering and is supported by well qualified faculty members. The school has state of the art classrooms and well equipped laboratories. The school offers B.Tech & M.Tech Program's. It also has Research Program's leading to Doctoral degree. The curriculum of both graduate and post graduate degree programs have been designed to meet the present and future mechanical engineers. It attempts to bridge the gap between academia and industry

The School of Mechanical Engineering, USM Malaysia was inception in 1989. Over a short period of 30 years, today the School of Mechanical Engineering is among the best engineering School in Malaysia and also recognized globally for its academic programs and research activities. This rapid progress is a testimony of our commitment to high quality education and research that are current and relevant to the challenges faced by the society and the industry.

SCOPE

The conference will have plenary lectures followed by parallel sessions. Plenary lectures will be delivered by eminent personalities of repute to introduce the theme of the conference. Conference is to provide a platform to Researchers, Young aspiring Engineers, Academicians & PG students, to present their research findings of their respective domains of knowledge and share ideas and views. The papers are invited for the following listed areas.

- Design Engineering, CAD, CAM & CAE
- Rapid Prototyping & Reverse Engineering
- Virtual Reality/Alternate fuels
- Thermal Engineering
- Energy Engineering
- Metallurgy & Materials Science
- Composites, Mechatronics
- Industrial Engineering & Management
- Product Design & Development
- Tool Design, Nano & Smart Materials
- Aeronautical & Automobile Engineering
- Ingot Metallurgy

REGISTRATION FORM

5th International Conference on
"Advanced Research In Mechanical, Materials And
Manufacturing Engineering (icamme-2021)"
9th -10th July, 2021

Yelahanka, Bengaluru, Karnataka - 560064

School of Mechanical Engineering

Report of Webinar on “Second Law of Thermodynamics and its Role in Energy Systems, Environment and Sustainability”

Schools: Mechanical Engineering

Venue: online through Microsoft Teams

Date: 09/07/2021

Year: 2020-21

Description of the Webinar:

School of Mechanical Engineering, REVA University, Bengaluru, in association with **UOIT, Canada**, organized a Webinar on “**Second Law of Thermodynamics and its Role in Energy Systems, Environment and Sustainability**” on 09th July 2021 from 4.00 pm to 5.00 pm through MS team.

Highlights of the webinar:

- The energy demand is growing worldwide and this has to be met in a sustainable and environment friendly approach.
- Natural gas and coal based combined cycle power generation and integrated energy systems are receiving attention due to higher energy conversion efficiencies and reduced pollutant emissions

Objectives:

- There is also growing interest to utilize biomass and solar energy with natural gas and coal in advanced hybrid combined cycle power generation systems to reduce greenhouse gas emissions.
- The second law of thermodynamics is receiving lot of attention for thermal and power generation systems analysis and to improve their performance.

- The exergy analysis and its role in the design and performance improvement of combined cycle power generation systems will be discussed.

Outcomes:

- Understanding of the basics of energy conservation and energy utilization.
- Acquired Knowledge can utilized for Student ,Faculty members

Resource Person:

Dr. Bale V. Reddy

Professor, University of Ontario Institute of Technology (UOIT)
Canada

School of Mechanical Engineering

Report of Webinar on “Climbing up the Sustainable Science/Engineering Ladder”

Schools: Mechanical Engineering

Venue: online through Microsoft Teams

Date: 10/07/2021

Year: 2020-21

Description of the Webinar:

School of Mechanical Engineering, REVA University, Bengaluru, in association with Dr Satish Kailash, Professor, Mechanical Engineering, **IISc, Bangalore**, organized a Webinar on “**Climbing up the Sustainable Science/Engineering Ladder**” on 10th July 2021 from 9.00 am to 10.00 am through MS team.

Highlights of the webinar:

- Insight given about sustainable of engineering materials
- Latest Alloys developed for aerospace applications

Objectives:

- To understand the superalloys and properties and characterization.
- To understand the materials behavior of heat treatment
- Characterization of XTD and SEM

Outcomes:

- Understanding of the basics of aerospace alloys and superalloys.
- Acquired Knowledge can utilized for Student ,Faculty members

Resource Person:

Dr. Satish V. Kailas

Professor, Indian Institute of Science

Video Link:

Coordinator

Dr Jegadeeswaran N

Prof. Madhu B P

Prof. Varunkumar Reddy

Prof. Venkatesh B K

No. of participants participated: 75

School of Mechanical Engineering

Report of Webinar on “Utilizing 3D printing technology for advance medical field”

Schools: Mechanical Engineering

Venue: online through Microsoft Teams

Date: 10/07/2021

Year: 2020-21

Description of the Webinar:

School of Mechanical Engineering, REVA University, Bengaluru, in association with **USM, Malaysia**, organized a Webinar on “**Utilizing 3D printing technology for advance medical field.**” on 09th July 2021 from 4.00 pm to 5.00 pm through MS team.

Highlights of the webinar:

- His research expertise include Rapid Prototyping/3D printing and their application to product development and medical field.
- He also works on synthesis of single phase NiTi alloys for creating novel structures for application in engineering and medical field

Objectives:

- Aerospace application and development of ankle foot orthosis for rehabilitation treatment.
- 3D printing and also NiTi alloys and the applications

Outcomes:

- Understanding of the basics of 3D printing.
- Acquired Knowledge can utilized for Student ,Faculty members

Resource Person:

Dr. Jamaluddin Abdullah

Professor, Universiti Sains Malaysia

**Technical Talk Report on topic
“Airless Tyre An Integrated Approach”**

School: Mechanical Engineering

Venue: M.S Teams (Online)

Date: 21/07/2021 at 7.00 PM to 8.00 PM

Year: 2020-21

Description of the Event:

The School of Mechanical Engineering organized a Technical talk on “**Airless Tyre An Integrated Approach**” on 21/07/2021 for faculty members of Mechanical Engineering.. The resource person was **Prof Srinivas S , Assistant Professor , School of Mechanical Engineering, REVA University, Bengaluru.**

About The Program:

The program aimed at introducing the concept of Airless tyre to faculty members of mechanical school. It involved interaction and participation from the faculty members. There were activities planned to get an experience on the concept.

Objectives:

- ✓ To Introduce and better the design of airless tyre in a cost effective manner
- ✓ To predict the nature of stress, deformation and strain induced during the application

Outcomes:

At the end of the session, faculty members will be able to:

Get the overview of the new age modern tyres which are having less maintenance

To develop flexible tyres which can restore shape once load is removed

About the Resource Person:

He is presently working as **Assistant Professor , School of Mechanical Engineering, REVA University, Bengaluru**. He is having a total of 05years of industry experience in the field of Design and development of air filters, fuel filters and conveyor systems. Has 6 years of teaching experience for Engineering (both Conventional and CBCS based). He has published more than 6 Papers in reputed International and National journals. He has published one copyright and one national paper to his credit. His areas of interest are Machine Design, Theory of Machines, Engineering Mechanics, Fracture and fatigue life of mechanical components

FEEDBACK FORM -
PROF SRINIVAS S(1-1)

We would like to thank our Honorable Chancellor Dr. P. Shyama Raju Sir for providing all facilities and support to organize such Events. We thank Vice Chancellor, Pro VC and Registrar sir for the support extended.

We further thank our beloved Director Dr.K.S.Narayana Swamy sir and Asst Director, Dr.Mahesh L sir, School of Mechanical for their kind guidance.

We also thank all the faculty members of our school for their active participation.

Technical Talk Report on

Lessons from the Life of a Mountaineer

School: Mechanical Engineering

Venue: Zoom Link (Online)

Date: 24/07/2021 at 10.00AM to 11.00 PM

Year: 2020-21

Description of the Event:

The School of Mechanical Engineering organized a Technical talk on “**Lesson from the Life of a Mountaineer**” on 24/07/2021 for faculty and PU students.. The resource person was **Prof Rajesh KR** , Assistant Professor, School of Mechanical Engineering, REVA University, Bengaluru.

About The Program:

On May 10, 1996, five mountaineers from two teams perished while climbing Mount Everest. Is there anything business leaders can learn from the tragedy?

This multi-lens analysis of the Everest case provides a framework for understanding, diagnosing, and preventing serious failures in many types of organizations. However, it also has important implications for how leaders can shape and direct the processes through which their organizations make and implement high-stakes decisions. The Everest analysis suggests that leaders must pay close attention to how they balance competing pressures in their organizations, and how their words and actions shape the perceptions and beliefs of organization members. In addition, the case provides insight regarding how firms approach learning from past failures.

Objectives:

This multi-lens analysis of the Everest case provides a framework for understanding, diagnosing, and preventing serious failures in many types of organizations. However, it also has important implications for how leaders can shape and direct the processes through which their organizations make and implement high-stakes decisions. The Everest analysis suggests that leaders must pay close attention to how they balance competing pressures in their organizations, and how their words and actions shape the perceptions and beliefs of organization members. In addition, the case provides insight regarding how firms approach learning from past failures.

Outcomes:

At the end of the session, students will be able to:

1. Do Failure Analysis
2. Develop Leadership qualities
3. Balance act between over confidence and under confident people
4. Effective Management of work

About the Resource Person:

He is presently working as **Assistant Professor , School of Mechanical Engineering**, REVA University, Bengaluru. He is having a total of 08 years of teaching experience for Engineering (both Conventional and CBCS based) and 13 years of Industry experience in various level of organization.

“Application of Six Sigma in Collaboration with IT in CRO and Health Care industry”

24/07/2021 from 5:00 PM to 6 PM through MS teams

School: Mechanical Engineering

Venue: online through MS teams

Date: 24 July 2021

Academic Year: 2020-2021

Description of Event:

The School of Mechanical Engineering had organized a webinar for Faculty and students Mechanical Engineering, REVA University on **“Application of Six Sigma in Collaboration with IT in CRO and Health Care industry”** on, 24th July 2021 between 5.00P.M to 6.30P.M .Around 50 faculty and students have participated in the webinar and got benefited with this webinar .**Prof.N.Naga Suresh Babu**, Assistant Professor, School of Mechanical Engineering, REVA University has introduced the Resource person **Dr Mallikarjun Koripdu** to the participants of the webinar.

Webinar focused on the following key points:

1. Introduction Six sigma
2. Types of Six sigma methodologies
3. Introduction to Clinical trails
4. Application of LSS to clinical Research trails
5. Use of AI, ML and Data analytics in CRO
6. Role of Mechanical Engineers in Health Industry

Following are the outcomes achieved with this webinar

Students can able to

1. Learn Six sigma fundamentals and methodology
2. Apply LSS concepts in CRO applications
3. Identify AI,ML and data analytic techniques
4. Apply job in Health care industry

Screenshots of the Webinar

What information do you need before you take a medicine?

- List 2-3 medications that you have taken
- What symptoms were they treating?

Write down 3 things that you would want to know about a medicine that you were about to take.

Questions to ask before taking a medicine:

- How often should I take it?
- What is the dose?
- What are the side effects?
- Are there any side effects?
- Is it safe?
- Will it cure me?
- Will it make me better?
- Is it toxic?
- Does it work?
- Is it poisonous?
- Should I take it with food/water?
- How much should I take?

New Drug Development | Life Cycle

Approximately US \$ 2 Billion

In-vitro/ In-vivo (animal) Testing: 5-6 years, 3-4 years

Preclinical Drug Development: 1-6 years

Clinical Drug Development: 5-6 years

Marketed Drugs: 3-4 years

10,000 molecules to 1 approved drug

12-14 years

00:15:52 01:00:19

Webinar Report on Research Perspectives and challenges in Solar Energy Storage

School: Mechanical Engineering

Venue: M.S.Teams (Online)

Date: 27/07/2021

Year: 2020-2021

Brief Introduction to Resource Person:

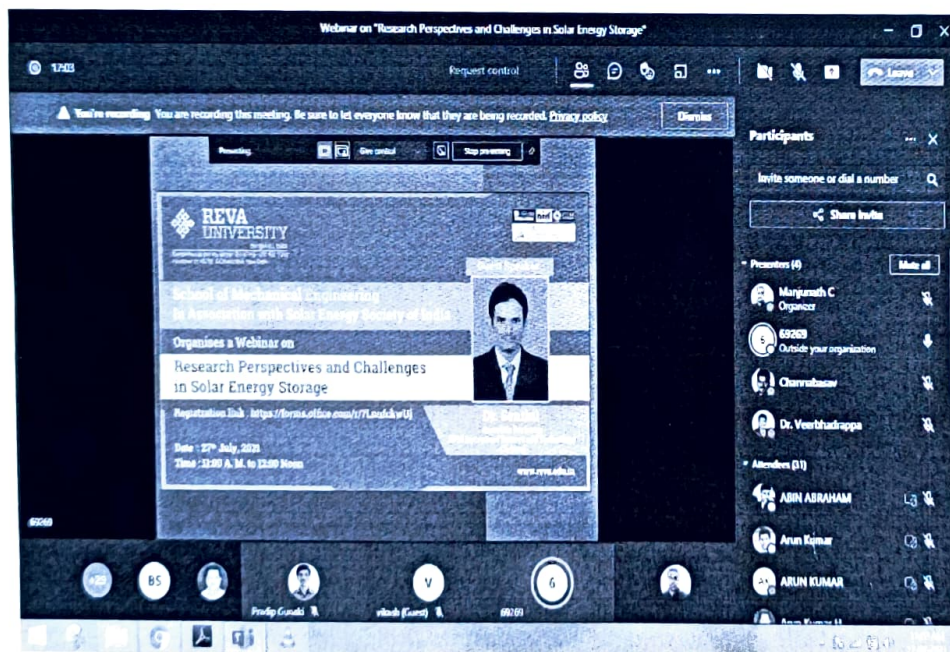

R. Senthil

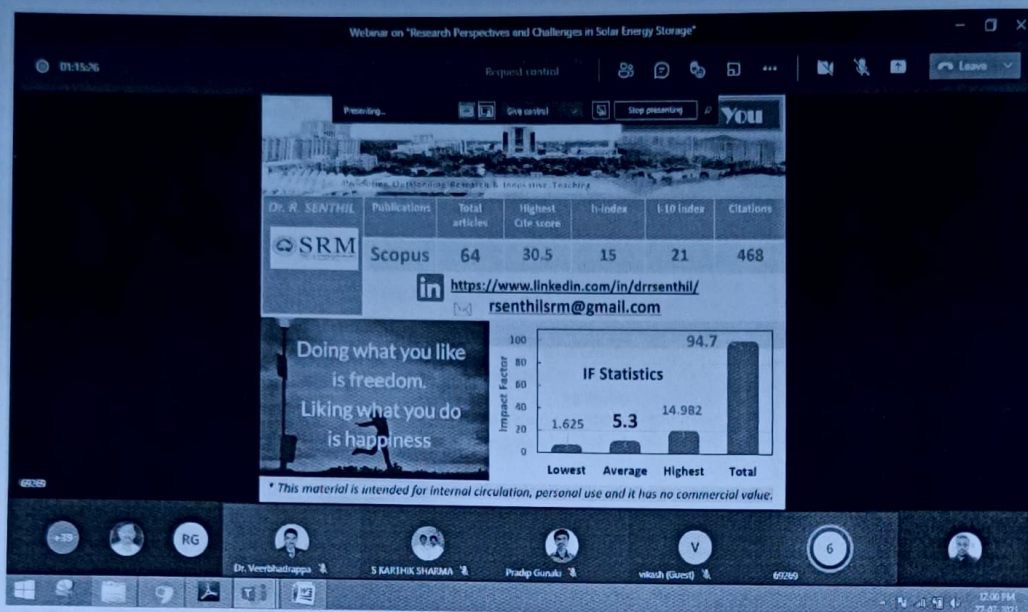

is working as Associate Professor at SRM Institute of Science and Technology, Kattankulathur Campus, Chennai, since 2005. He obtained B.E from the University of Madras (1997), M.E from Anna University (2000), and Ph.D. from SRM University (2017). He is interested in renewable energy and sustainable development. He has more than two decades of experience in teaching and research. He is a member of ISES, SESI, IEEE, FIE, and ISTE. He authored 62 articles in peer-reviewed and indexed journals indexed in Scopus with a Scopus h-index of 15 & i10 index of 21 with 465 citations. He presented 48 conferences in the national and international level. He has two international patent grants and two Indian published patents.

He has experience in the installation and maintenance of 100 kW Solar PV plant. He delivered 20 plus Expert Talks on Solar Energy Research, Thermal Energy Storage, and Project-based teaching. He acted as Editorial Board Member of two indexed conference series. He won eight National and International awards/recognitions on research and teaching fields. He is an active journal reviewer in 30+ reputed journals (Elsevier, Springer, Wiley, IEEE and Taylor and Francis).

Expert Technical talk on
“Feasibility of 3D Printing Assisted Casting for
Customised Medical Metallic Implant”

School: Mechanical Engineering

Venue: M.S.Teams (Online)

Date: 29/07/2021

Year: 2020-2021

Brief Introduction to Resource Person:

Dr. AbhaykumarMadhusudanKuthe is presently Professor (Higher Administrative Grade) in MechanicalEngineering Department at VisvesvarayaNational Institute oftechnology(VNIT)NagpurMaharashtra.Dr. Abhay began his career in 1986 after Bachelor of Engineering (Mechanical)from Govt. Engineering College Amravati India by joining HindustanAeronautics Limited (HAL) Nashik. He obtained his M.Tech from IIT Roorkeeand joined Birla Consultancy Services (BICS) as Senior Software Engineer. Heleft BICSandjoinedVNITin1993.He earned his PhD in 2001. His research work is focusedin the area ofRapidprototyping(RP). Using Computer aided design (CAD) as base andspecializedtechniques of RP, he dedicated his efforts in harnessing thistechnology for practical use.

Brief details about the Webinar:

The capabilities of Rapidprototyping (RP) equipment were extensivelyexploited to make custom build metallic implant that were implanted in humanbodies by surgeons in several complicated medical cases including some casesof cancer. The technology was also effectively used in engineering industry todevelop zero defect pattern making and casting.

Webinar on
Current Development & Challenges in Aero Engines
Maintenance / Diagnostics / Prognostics
Under the association of Tribology Society of India

School: Mechanical Engineering

Venue: M.S.Teams (Online)

Date: 30/07/2021

Year: 2020-2021

Brief Introduction to Resource Person:

The resource person is **Mr. Vidyasagar Kotha**, MS (UK), AMRAeS, Aerospace Researcher & Engineer (Retired Defence Personnel-IAF).

He was working in **Indian Air Force** (2005 – 2018) for Bay Maintenance Activities of **Rolls Royce (RR)** Adour 871- 07 aero engine fitted in Hawk MK132 aircraft & also acquired expertise on Module Change Workshop and uninstalled test run of Adour 871-07 Rolls Royce Aero Engines on Pre and Post Snag Rectification, Schedule Servicing and Modifications. Overseen the stripping (disassembly) & buildup of Adour 871- 07 Rolls Royce Aero Engines before & after Test Run. Managed the Test Run of Adour 871- 07 Rolls Royce Aero Engine before stripping & after buildup (assembly). Accountable for Technical Correspondence (Technical Report Writing & Communication) concerning Service Bulletins & Procedures, Technical Orders, Procurement of Spare Parts, modules, consumables, etc., Serviceability and production of Aero Engines with the higher formations. He has completed his education in MSc Aerospace Propulsion - Cranfield University, Cranfield, UK, MS Manufacturing Management - BITS, Pilani, Rajasthan, India, BS Engineering Technology - BITS, Pilani, Rajasthan, India, DPE Propulsion Engineering - Engineering, Mechanical Training Institute (MTI), Air Force Station Tambaram, Chennai, TN, India, DME Mechanical Engineering- Govt. Polytechnic College, Anantapur, AP, India

- To discuss gas turbine faults

School of Mechanical Engineering
5 Days Workshop
On
“Virtual Reality for Mechanical Engineers”

Schools: Mechanical Engineering

Venue: Virtual Mode (Microsoft Teams)

Date: 02-08-2021 to 06-08-2021

Year: 2021-22

Description of Event:

The School of Mechanical Engineering has organized 5days Workshop on “**Virtual Reality for Mechanical Engineers**” for the benefit faculty members, research scholars and students.

The FDP was inaugurated by **Dr. K S Narayanaswamy**, Director, School of Mechanical Engineering, REVA University, chief guest Mr **Ashoka Reddy**, Founder Younce Reality Private Limited , graced the function.

The FDP began with welcome speech by Prof Vinod R, Assistant Professor, School of Mechanical Engineering, REVA University followed by address from **Dr.K.S.Narayanaswamy**, Director & Professor, School of Mechanical Engineering, REVA University, briefed about the FDP. The inaugural function of the FDP was address by chief guest **Mr. Ashoka Reddy** ,enlightened the audience by describing the importance of industrial need, academic support to the industry, product related technology , system engineering approach, artificial intelligence, virtual and augmented reality.

The Inauguration function was end by Vote of Thanks by Dr. C D Hampali, Professor, School of Mechanical Engineering.

More than 50 participants participated from various colleges and universities had participated in the FDP.

ABOUT THE FDP:

One of the big market trends for the last 5-6 years has been a focus on VR, AR and Mixed Reality devices and applications. VR has been a topic in technology circles for decades and gained more prominence. AR uses a **real-world setting** while VR is completely virtual. AR users can control their presence in the real world; VR users are controlled by the system. VR requires a headset device, but AR can be accessed

with a smartphone. AR enhances both the virtual and real world while VR only enhances a fictional reality.

Resources persons :

Mr Ashoka Reddy is a CEO, of Younce Reality Private Limited, Bangalore graduated from NMAM Institute of Technology, Nitte, his technical expertise are in the field of developing VR, AR, MR, / 3D and 2D games for Android, iOS and Web Platforms.

He has published many Journals and an active researcher in this field.

Workshop focused on the following key points:

- Demonstrate an understanding of techniques, processes, technologies and equipment used in immersive virtual reality;
- Show critical awareness of historical and theoretical contexts relevant to immersive virtual reality;
- Apply critical, analytical and self-reflective practice; and
- Identify and develop personal topics for individual research in immersive virtual reality
- Future Job Opportunities

Following are the outcomes achieved with this Expert talk

1. Understanding of the basics of the VR and AR as a designer tool and for Project based learning
2. Acquired Knowledge can be utilized for Student development program , research in AR/VR

**Technical Talk Report on topic
“Smart Manufacturing Leading Towards Sustainability”**

School: Mechanical Engineering

Venue: M.S Teams (Online)

Date: 10/08/2021 at 7.00 PM to 8.00 PM

Year: 2021-22

Description of the Event:

The School of Mechanical Engineering organized a Technical talk on **“Smart Manufacturing Leading Towards Sustainability”** on 10/08/2021 for faculty members of Mechanical Engineering.. The resource person was **Prof Pradip Gunaki , Assistant Professor, School of Mechanical Engineering, REVA University, Bengaluru.**

About The Program:

The program aimed at introducing the recent trends in Manufacturing domain using advanced technologies to produce sustainable products with minimum time with maximum efficiency.

Objectives:

- ✓ To introduce the concept of smart manufacturing to produce sustainable products to all the faculties

Outcomes:

At the end of the session, faculty members will be able to:

Apply the concept of

1. Lean Tools
2. Kaizen
3. Automation

About the Resource Person:

He is presently working as **Assistant Professor** , **School of Mechanical Engineering**, REVA University, Bengaluru. He is having a total of 9.5 years of teaching experience for Engineering. He is also the coordinator for Skill Development Programmes in the school of Mechanical Engineering. His areas of interest are Manufacturing Systems Engineering, Material Science & Metallurgy etc.

FEEDBACK FORM -
Pradip Gunaki(1-9).xls

We would like to thank our Honorable Chancellor Dr. P. Shyama Raju Sir for providing all facilities and support to organize such Events. We thank Vice Chancellor, Pro VC and Registrar sir for the support extended.

We further thank our beloved Director Dr.K.S. Narayanaswamy sir and School Academic Head, Dr.Mahesh L sir, School of Mechanical for their kind guidance.

We also thank all the faculty members of our school for their active participation.

**Technical Talk Report on topic
“Concept of High Entropy Alloy”**

School: Mechanical Engineering

Venue: M.S Teams (Online)

Date: 17/08/2021

Time : 7.00 PM to 8.00 PM

Year: 2020-21

Description of the Event:

The School of Mechanical Engineering organized a Technical talk on “**Concept of High Entropy Alloy**” on 17/08/2021 for faculty members of Mechanical Engineering.. The resource person was **Dr. Jagadeesh Babu S M , Associate Professor, School of Mechanical Engineering, REVA University, Bengaluru.**

About the Program:

The program aimed at introducing the ‘concept of high entropy alloy’ to the faculty members of mechanical school. The session comprising an interaction and participation from the faculty members.

Objectives:

- ✓ To introduce the concept of high entropy alloy to all the faculties

Outcomes:

At the end of the session, faculty members will be able to:

1. Define the term 'high entropy alloy'
2. Get acquainted about the importance of 'high entropy alloy' because of their excellent properties
3. Motivated towards adopting this concept in designing the new materials in blending with artificial intelligence

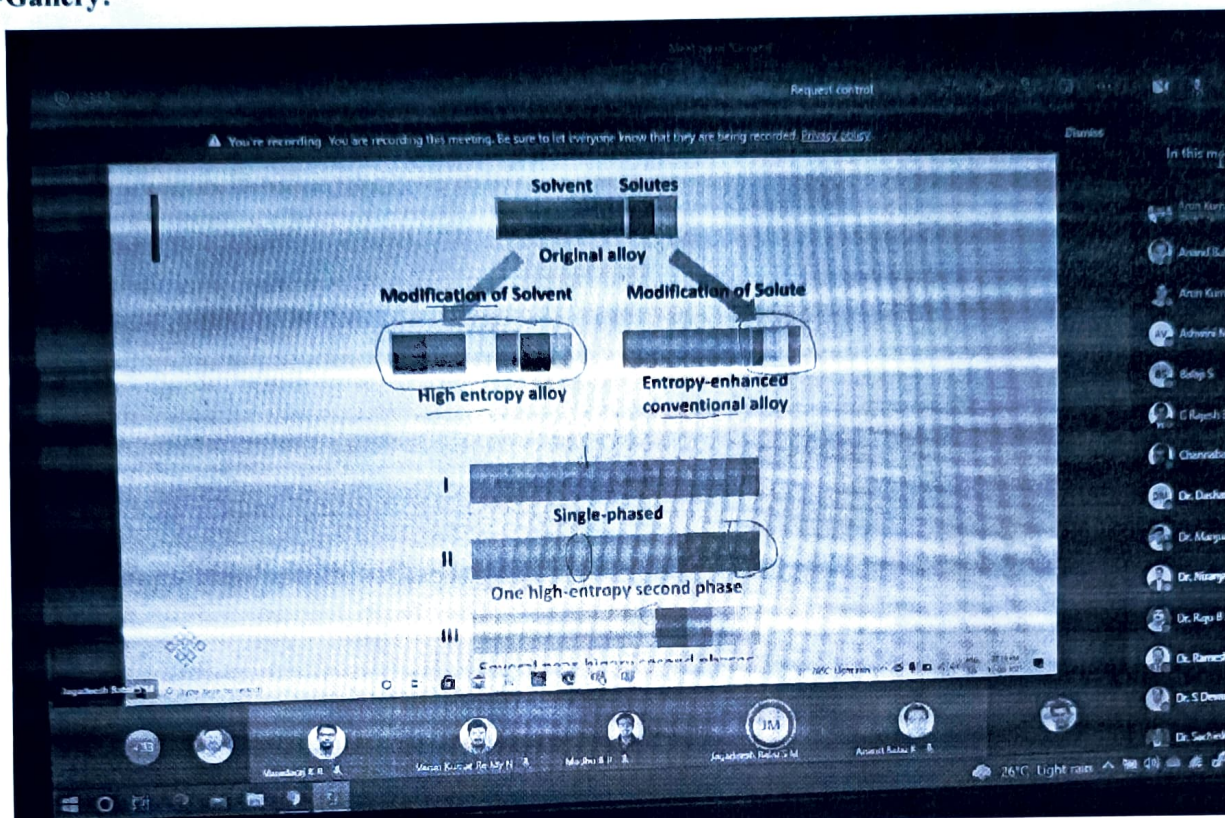

About the Resource Person:

Dr. Jagadeesh Babu S M, currently working as a **Associate Professor, School of Mechanical Engineering, REVA University**. He obtained his bachelor of engineering (B.E) in Mechanical Engineering from **University Visvesvaraya College of Engineering (UVCE)**, Master of Technology (M.Tech.) in Materials Engineering from **National Institute of Technology Karnataka (NITK) Surathkal**. He pursued his doctoral degree (Ph.D.) in the area of microstructure-mechanical property relationship from **Indian Institute of Technology (IIT) Bombay**. During his Ph.D. he has published several technical papers in reputed journals and conferences in the area of his expertise. His areas of interests are Superplasticity, Mechanical Testing, Microstructure, Heat treatment, Materials Characterization and Texture. Further, he is acting as **Principal Investigator (PI)** for the project entitled "An Investigation to analyze the effect of deformation mechanisms on mechanical properties of Ultrafine/nano Grained ($\alpha+\beta$) Titanium Alloys Under Quasi-Static and Dynamic Loading Conditions at Ambient Temperature" approved and sanctioned by **Science and Engineering Research Board (SERB)** for the research grant of 26 lacs.

Schedule

- 23rd August- Introduction to IoT devices and technology Applications of IoT
- 24th August- IoT architecture, How to build and IoT product, IoT boards
- 25th August- IoT applications pertaining to Mechanical industry
- 26th & 27th August- Demo of IoT application reading sensor info, publishing to cloud, controlling actuator (LED) from cloud through mobile app

Lab / Demo

- Hands on (Demonstration) with IoT controllers
- MQTT Basics : Establishing MQTT clients as Publisher / subscriber and connect to the broker to exchange messages
- Using MQTT Protocol send and receive data from Eclipse cloud server.
- Use your IoT end device as one of the client and mobile app / desktop version of MQTT client as another client
- Using HTTP protocol send data to cloud server
- Visualize the data in mobile app

Technical Talk Report on topic “Introduction to Hydrogen Energy”

University for teaching and non
School: Mechanical Engineering

Venue: M.S Teams (Online)

Date: 07/09/2021 at 7.00 PM to 8.00 PM

Year: 2021-22

Description of the Event:

The School of Mechanical Engineering organized a Technical talk on **“Introduction to Hydrogen Energy”** on 07/09/2021 for faculty members of Mechanical Engineering.. The resource person was **Prof Channabasav , Assistant Professor, School of Mechanical Engineering, REVA University, Bengaluru.**

About The Program:

Program aimed to introduce importance of hydrogen energy in present scenario, production and utilization of it. Hydrogen storage and transportation in effective manner and utilization of hydrogen energy in present industry. It involved interaction and participation from the faculty members. There were activities planned to get an experience on the concept.

Objectives:

- ✓ To introduce the importance of the hydrogen energy as future renewable energy resource

Outcomes:

At the end of the session, faculty members will be able to:

1. Understand the how the hydrogen can be used as renewable fuel.
2. Gain technical knowledge on the hydrogen production technology.
3. Importance of storage and transportation techniques of hydrogen.
4. Understand Effective utilization of hydrogen in present industries.

About the Resource Person:

He is presently working as **Assistant Professor , School of Mechanical Engineering**, REVA University, Bengaluru. He is having a total of 06 years of teaching experience for Engineering (both Conventional and CBCS based). He is also the coordinator for placements in the school of Mechanical Engineering. He has published more than 6 Papers in reputed International and National journals. His areas of interest are biofuels, IC engine, computational fluid dynamics and Heat transfer

Technical Talk Report on topic
“Characterization of Metal Matrix Nano Composites”

School: Mechanical Engineering

Venue: M.S Teams (Online)

Date: 28/09/2021 at 7.00 PM to 8.00 PM

Year: 2021-22

Description of the Event:

The School of Mechanical Engineering organized a Technical talk on **“Characterization of Metal Matrix Nano Composites”** on 28/09/2021 for faculty members of Mechanical Engineering. The resource person was **Dr Manjunatha L H , Professor, School of Mechanical Engineering**, REVA University, Bengaluru.

About The Program:

The program aimed at introducing the concept of characterization of Metal Matrix Nano Composites of highly effective people to the faculty members of mechanical school. It involved interaction and participation from the faculty members. There were activities planned to get an experience on the concept.

Objectives:

- ✓ To introduce the concept of characterization of Metal Matrix Nano Composites all the faculties

Outcomes:

At the end of the session, faculty members will be able to:

Apply the concept of characterization of Metal Matrix Nano Composites

1. Composite Materials
2. Metal Matrix Composites
3. Nano Composites
4. Characterization

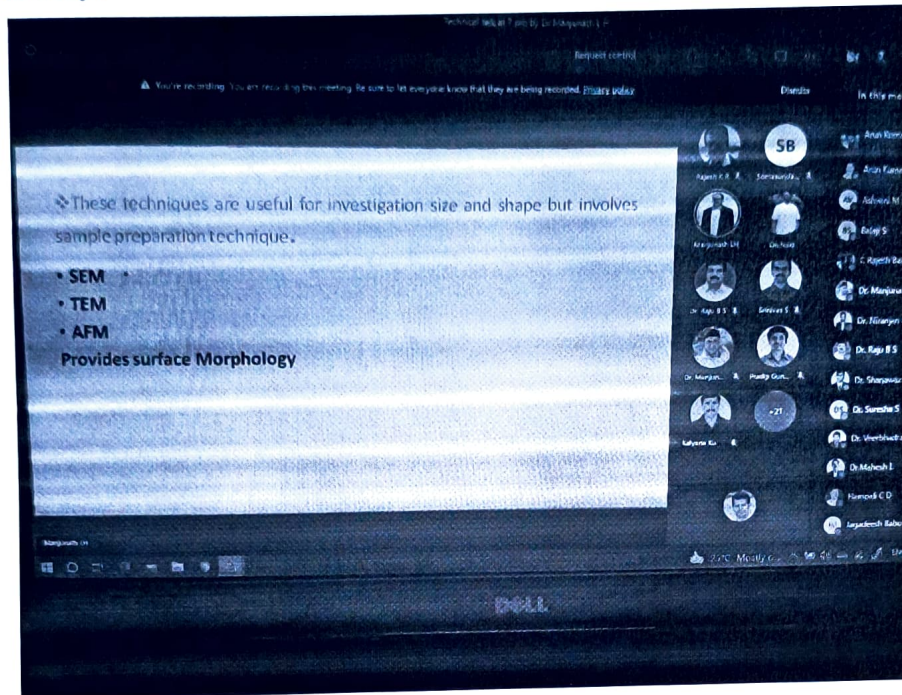

About the Resource Person:

He is presently working as **Professor , School of Mechanical Engineering**, REVA University, Bengaluru. He is having a total of 21 years of teaching experience and 6 Years of Industrial Experience. He has published more than 66 Papers in reputed International and National journals He has publishes 6 patents. He has guided 3 Ph.D students and guiding 4 Ph.D in VTU and REVA University. His areas of interest are Composite Materials, Vibration Analysis and Powder Metallurgy etc.

School of Applied Sciences

WEBINAR REPORT

Department of Chemistry, School of Applied Sciences, REVA University, Bangalore, organized 25th Virtualwebinar entitled “**One and Two dimensional NMR Spectroscopy**” on **10th July 2021, from 05:00 PM -06:00 PM.**

Resource Person:

Dr. N. Suryaprakash

Professor

NMR Research centre

Indian Institute of Science

Bengaluru

Organizers:

Prof. Mamatha Mohan

Assistant Professor, Department of Chemistry,

SoAS, REVA University, Bangalore

Dr..N.Suryaprakash is renowned NMR scientist working as a professor at NMR Research centre Indian institute of science Bangalore. Hedelivered a talk on “**One and Two dimensional NMR Spectroscopy**” for graduation and post graduation students, research scholars, faculty. Students are inspired by talk and he motivated the students to learn the basics related to NMR. Sir was very keen to interact with students and advised to organise one more talk to explore the area of NMR.

Highlights of the talk

- Introduction to various terminologies related to NMR spectroscopy
- Guided the students refer the various textbooks to know the vast subject of NMR.
- Explained various examples of simple molecules how to interpret NMR data.
- Advised the organizers to arrange one more talk on NMR since one hour is not sufficient to learn about NMR.
- Described experimental and theoretical studies of paramagnetic relaxation of nucleus spins.
- Explained the use of stray field available with all NMR magnets to obtain images.

The Webinar was attended by all UG and PG students, research scholars and faculty of chemistry REVA University and other places. A total of 130 participants attended the live webinar and the feedback given by the participants was appreciated.

We would like to thank, organizers and faculty of chemistry department. We also thank Assistant Director, Department Chemistry, Deputy director, and management for constant support and encouragement towards academic activities of the school.

Regards

Department of Chemistry, SoAs

Webinar talk on

“Electrode Materials for Advanced Li and post Li-ion batteries”

Organized by

**Dept. of Chemistry, School of Applied Sciences in association with UIIC Cell
REVA University, Bangalore-560064**

Organizer: Dr. S. Shivakumara

Date: 28/8/2021

Time: 11.30 am-12.30 pm

Resource Person:

Dr. Tirupathi Rao Penki
Senior Research Fellow
Bar-Ilan University-Ramat Gan,
Israel-5290002.

Dear Sir/Madam,

Dr. Tirupathi Rao Penki is a Senior Research Fellow at Bar-Ilan University-Ramat Gan, Israel-5290002. He has been published more than 60 articles related to materials for energy storage applications in peer-reviewed journals.

As a part of the knowledge-sharing program for the benefit of students and faculty members. We, the Dept. of Chemistry, School of Applied Sciences, REVA University, Bengaluru, are organized a 26th virtual webinar entitled “Electrode Materials for Advanced Li and post Li-ion batteries” on 28th August 2021 from 11.30 AM to 12.30 PM through MS teams. There are more than 55 participants from within University and out of University were attended. The webinar talks covered the following concepts.

- Invention of batteries
- Working principles of different types of batteries.
- Materials used in commercially available Li-ion batteries.
- Capacity and cycling performance of different types of cathode materials using in commercially available Li-ion batteries.
- Effects of solvents used to increase the stability of Li-ion batteries.
- Post-Li-ion batteries.

The participants have actively involved in the question and answer sessions and gained knowledge of rechargeable batteries.

WEBINAR REPORT

Department of Chemistry, School of Applied Sciences, REVA University, Bangalore, from students club organized a Virtualwebinar entitled“**Making right choice is using the wisdom of the heart**” on 8th September 2021.

Resource Person:

Mr.Sarathy

Chairman of National institution for quality and reliability

Bangalore and Heart fullness trainer

Organizers:

Prof. Mamatha Mohan

Assistant Professor, Department of Chemistry,
SoAS, REVA University, Bangalore

Mr.Sarathy obtained his Mechanical engineering from NITK Suratkal and serve in amanufacturing industry for 35 years in different capacities. He is passionate engineer in tool engineering and business process. He is also engaged in educating budding engineers in these areas.In his tenure he travelled to Europe, US, Japan, Israel and China served as on the boards of Kennametal shared services private limited and extrude Hone India pvt.ltd. He delivered invited talks on various colleges on cutting tool engineering and lean manufacturing. Practices heartfulness meditation and himself a heartfull trainer. Currently, serving as the honorary chairman of national institution for quality and reliability, Bangalore.

Highlights of the talk

- Sir congratulated on the account of teachers day all the teachers for their role in present situation. Also appreciated the effort of REVA family members for getting the award.
- Introduction to what is meditation.
- Guided the students regarding the decision taking and the role of heart.
- Impact of peer’s pressure, parents, friends Influence on decision.

- How scientifically brain and neurons functions in different emotions.

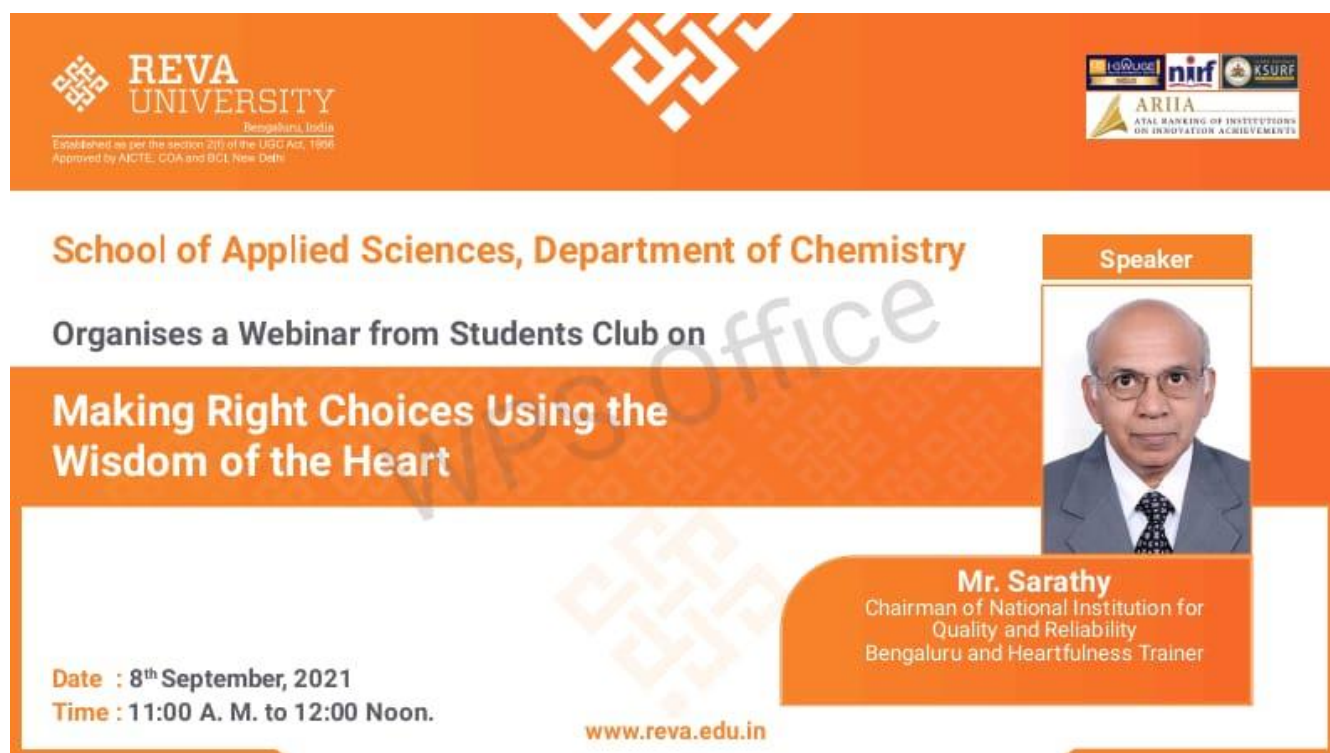

The Webinar was attended by all UG and PG students, research scholars and faculty of chemistry REVA University and other places. A total of 80+ participants attended the live webinar and the feedback given by the participants was appreciated.

We would like to thank, organizers and faculty of chemistry department. We also thank Assistant Director, Department Chemistry, Deputy director, and management for constant support and encouragement towards academic activities of the school.

WEBINAR REPORT

Department of Chemistry, School of Applied Sciences, REVA University, Bangalore, **organized Virtual webinar entitled "Scanning Probe Microscopy: STM & AFM" for PG students' 'c 15th NOV 2021 from 12.00 PM to 1.00 PM.**

Resource Person

Dr. Bharat Kumar
Assistant Professor, School of Physical Sciences,
Central University of Karnataka
Kadaganchi, Gulbarga.
Email: bharat@cuk.ac.in

Organizer:

Prof. Shwetha K R
Assistant Professor,
Department of Chemistry, SoAS,
REVA University, Bangalore

Dr Bharat Kumar has obtained PhD. from Raman Research Institute, Bangalore in 2010. He received DST-INSPIRE Faculty fellowship in 2013 from Indian Institute of Technology Kanpur. He was a Post-doctoral fellow at Department of Physics and Astronomy, University of South Carolina, USA. He has published more than 15 articles in peer reviewed journals and completed two DST projects. He is currently working on effect of anticancer drug Combretastatin and related molecules on the electrical properties of the lipid films under VGST Project.

Highlights of the talk

- Introduction to characterization techniques
- Basic Principles and instrumentation of SPM
- Limitations of STM
- Differences between Atomic Force Microscopy and Scanning Electron Microscopy : applications

We would like to thank, organizers and faculty of chemistry department. We also thank Assistant Director, Department Chemistry, Deputy Director, and management for constant support and encouragement towards academic activities of the school.

Comparison with other microscopes

- **AFM versus STM:** STM is generally applicable only to conducting/semiconducting samples while AFM is applied to both conductors and insulators. STM is more sensitive than AFM as in STM the tunneling current varies as an exponential power and in AFM the force varies as inverse of tip sample distance.
- **AFM versus SEM:** Compared with Scanning Electron Microscope, AFM provides extraordinary topographic contrast direct height measurements and unobscured views of surface features (no coating is necessary).
- **AFM versus Optical Microscope:** Compared with Optical Interferometric Microscope (optical profiles), the AFM provides unambiguous measurement of step heights, independent of reflectivity differences between materials. Imaging in AFM is not limited by the optical diffraction.

Angular Momentum Operators

$$\vec{L} = \begin{vmatrix} \hat{i} & \hat{j} & \hat{k} \\ x & y & z \\ p_x & p_y & p_z \end{vmatrix} = (yp_z - zp_y)\hat{i} + (zp_x - xp_z)\hat{j} + (xp_y - yp_x)\hat{k} \\ = L_x\hat{i} + L_y\hat{j} + L_z\hat{k}.$$

$$L_x = y\hat{p}_z - z\hat{p}_y, \quad L_y = z\hat{p}_x - x\hat{p}_z, \quad L_z = x\hat{p}_y - y\hat{p}_x.$$

Commutator Algebra

$$\underline{[A, A] = 0}$$

$$\underline{[A, B] = -[B, A]}$$

$$\underline{[A, c] = 0}, \quad \text{for any scalar } c,$$

$$\underline{[A, cB] = c[A, B]}, \quad \text{for any scalar } c,$$

$$\underline{[A + B, C] = [A, C] + [B, C]}$$

$$\underline{[A, BC] = [A, B]C + B[A, C]}$$

$$[A, [B, C]] + [B, [C, A]] + [C, [A, B]] = 0$$

$$\begin{aligned} [L_x, L_y] &= \mathcal{Y} [p_z, Z] p_x + [\mathcal{Y}, Z] p_z p_x + Z \mathcal{Y} [p_z, p_x] + Z [\mathcal{Y}, p_x] p_z \\ &\quad + Z [p_y, \mathcal{X}] p_z + [Z, \mathcal{X}] p_y p_z + \mathcal{X} Z [p_y, p_z] + \mathcal{X} [Z, p_z] p_y \\ &\quad + Z [p_x, Z] p_y + [Z, Z] p_x p_y + Z Z [p_x, p_y] + Z [Z, p_y] p_x \\ &\quad + \mathcal{X} [p_z, \mathcal{Y}] p_z + [\mathcal{X}, \mathcal{Y}] p_z p_z + \mathcal{Y} \mathcal{X} [p_z, p_z] + \mathcal{Y} [\mathcal{X}, p_z] p_z \\ &= \mathcal{Y} [p_z, Z] p_x + \mathcal{X} [Z, p_z] p_y \\ &= \mathcal{Y} (-i\hbar) p_x + \mathcal{X} (i\hbar) p_y \\ &= i\hbar (\mathcal{X} p_y - \mathcal{Y} p_x) \\ &= i\hbar L_z. \end{aligned}$$

Name	Observable Symbol	Operator Symbol	Operation
Position (in 1D)	x	\hat{X}	Multiply by x
Position (in 3D)	\vec{r}	\hat{R}	Multiply by \vec{r}
Momentum (in 1D)	p_x	\hat{P}_x	$-i\hbar \frac{d}{dx}$
Momentum (in 3D)	\vec{p}	\hat{P}	$-i\hbar \left[\hat{i} \frac{d}{dx} + \hat{j} \frac{d}{dy} + \hat{k} \frac{d}{dz} \right]$
Kinetic Energy (in 1D)	T_x	\hat{T}_x	$\frac{-\hbar^2}{2m} \frac{d^2}{dx^2}$
			$\frac{-\hbar^2}{2m} \left[\frac{d^2}{dx^2} + \frac{d^2}{dy^2} + \frac{d^2}{dz^2} \right]$
Kinetic Energy (in 3D)	T	\hat{T}	Which can be simplified to $\frac{-\hbar^2}{2m} \nabla^2$

Q7. If L_x , L_y and L_z are respectively the x , y and z components of angular momentum operator L . The commutator $[L_x L_y, L_z]$ is equal to

(a) $i\hbar(L_x^2 + L_y^2)$ (b) $2i\hbar L_z$ (c) $i\hbar(L_x^2 - L_y^2)$ (d) 0

Ans: (c)

Solution: $[L_x L_y, L_z] = L_x [L_y L_z] + [L_x, L_z] L_y = i\hbar(L_x^2 - L_y^2)$

WEBINAR REPORT

Department of Chemistry, School of Applied Sciences, REVA University, Bangalore, **organized “Virtual webinar entitled "Introduction to Cheminformatics Tools-SAS,SAAS, SSBI” on January 25th 2022 from 09:00 AM to 10.00 PM** as a part of the knowledge sharing program for the benefit of students.

Resource person: Prof. Prashantha C N

Assistant Professor

Department of Biotechnology

School of Applied Sciences

REVA University

Email: prashantha.cn@reva.edu.in

Mobile:- 9844158444

Website: Bioinformatics@REVA ([google.com](https://www.google.com))

Personal Website: [PrashanthLab](#) | [REVA University](#) ([google.com](https://www.google.com))

Organizer:

Dr. Nagendra G

Assistant Professor,

Department of Chemistry, SoAS,

REVA University, Bangalore.

Prashantha C N, Assistant Professor, Department of Biotechnology, School of Applied Science. He also an Entrepreneur and established new ventures in 6 Oct, 2008, known as ***Scientific Bio-Minds- A Bioinformatics research, training and consultancy*** service organization. The company is successfully running with more than 500 clients in all over India, Singapore, Malaysia, and Germany. He has trained more than 6000 students all over India and abroad with various bioinformatics programs such as NGS data analysis, Microarray data analysis, Drug Discovery, Biostatistical analysis, and Bioprogramming techniques.

He is expert in the field of Bioinformatics, Genomics, Proteomics, insilico drug discovery, biostatistics, and bioprogramming such as C, C++, Perl, Python, JAVA, ORACLE, RUBY and Swift.

He also establishes a private limited company based on biotechnology in 28th march, 2017 name ***Clovergen Life Science Pvt Ltd*** and is incubated in ***University of Agricultural Science***, Dharwad. The Incubation facility is provided from the KBITS, Government of Karnataka with the common instrumentation facility in the year 2017. Currently the company is targeting the agricultural genomic services within India.

He is a cofounder to the company “***DNA research and Diagnostics Laboratory***” a molecular genomic company providing molecular diagnostics services targeting different genetic disease.

He also providing research assistance to many research scholars from various institutes and universities scholars and have published more than 80 publications. Currently, he is providing research assistant to 24 research scholars.

He is the consultant to IITs (Delhi, Bombay, Kharagpur, Chennai, and Kanpur), GKVK, ICRISAT-Hyderabad, IICT, CCMB, CSIR-National Chemical Laboratory, and NCBS.

He has invited as a resource person to various institutes in India with more than 150 colleges in India. He got honorary with Priyanka kharge, Minister to KBITS, Government of Karnataka in 2016 as Emerging entrepreneur in the year 2016.

He also provides academic and corporate training to many academic students and professional employees. He is offering certificate, short term and diploma courses in collaboration with REVA University and Scientific Bio-Minds.

Highlights of the talk

- Introduction to **Cheminformatics Tools**.
- Computer representation of chemical structures
- Connection tables and linear notations, smile notation, atomic connectivity values
- Structure activity similarity, Software as a service and Self service business intelligence soft wares and their utilization and application
- On hand demonstration of RS studio, cyverse
- SAAS for drug delivery
- Docking and mind the bite soft ware applications

The lecture was attended by all PG students, research scholars and faculty of chemistry REVA University and other places. A total of 80 participants attended the live webinar and the feedback given by the participants was appreciated.

We would like to thank, organizers and faculty of chemistry department. We also thank Assistant Director, Department Chemistry, Deputy Director, and management for constant support and encouragement towards academic activities of the school.

Regards,

Dr. Nagendra G, Assistant Professor,

Department of Chemistry, SoAs

REVA University, Bangalore.

Chemoinformatics

- Chemoinformatics is concerned with the application of computational methods to tackle chemical problems, with particular emphasis on the manipulation of chemical structural information.
- Chem(o)informatics is a generic term that encompasses the design, creation, organization, management, retrieval, analysis, dissemination, visualization and use of chemical information.

SAS: Structure-activity similarity Statistical Analysis Software

- The SAS Programming involves first creating/reading the data sets into the memory and then doing the analysis on this data.
- The life sciences industry is at a crossroads. In many ways, the industry's future looks bright. The technological and scientific advances gained in the last several years enable the pursuit of innovative drug treatments and breakthrough medical discoveries that can save lives and enhance quality of life.
- But while the potential rewards are great, so are the accompanying challenges. As a result, there is increased pressure on life sciences organizations to:
 - Develop a robust pipeline while controlling costs.
 - Quickly deliver therapies to market, while complying with ever-tightening regulations.
 - Ensure patient safety while meeting shareholder expectations.
 - Optimize efficiency and productivity, and document research integrity across the life sciences value chain.

The key to accomplishing all this lies in your ability to access relevant, accurate information that you can use to make informed business decisions with confidence. SAS® Drug Development is the answer.

SaaS Platform For Drug Discovery

Our SaaS platform has been developed by Mind the Byte to break through the most important technological and economic barriers of computational design for companies and research centers.

Determine the mode of action Biological profile of drugs Off-targets linked to adverse effects Find alternative therapeutic uses

SaaS is considered to be part of cloud computing, along with infrastructure as a service (IaaS), platform as a service (PaaS), desktop as a service (DaaS), managed software as a service (MSaaS), mobile backend as a service (MBaaS), datacenter as a service (DCaaS), integration platform as a service (iPaaS), and information technology management as a service (ITMaas).

School of Applied Sciences

WEBINAR REPORT

Department of Chemistry, School of Applied Sciences, REVA University, Bangalore, **organized 31st Virtual webinar entitled "Optically Stimulated Luminescence and Application" on March 7th 2022 from 11:0 AM to 12:0 PM** as a part of the knowledge sharing program for the benefit of students.

Resource person: **Dr. K.R. NAGABHUSHANA**

Professor-Visiting, Post Graduate Program in Inter Disciplinary Health Science
Rua Carvalho de Mendonca, 144, Encruzilhada
Federal University of Sao Paulo, Santos, Brazil.
Email: nagabhushana.nkr@gmail.com

Organizer:

Prof. Mubeena A

Assistant Professor,
Department of Chemistry, SoAS,
REVA University, Bangalore.

Dr. K.R. NAGABHUSHANA has obtained PhD. From Bangalore University in 2004. He worked as junior research fellow (UGC) and CSIR-Senior research fellow during PhD.

Ph.D in Physics (2009) from Bangalore University & Inter University Accelerator Centre, New Delhi
Doctor of Science (D.Sc) in Condensed Matter **Physics** (2021) - Federal University of Sao Paulo, Brazil.
Professional experience: 18 Years (Academic and Research). Awarded Young Scientist travel Grant for Foreign visit by Dept. of Science and Technology, Govt of India, Visited Singapore, Poland, Duabi for academic and research activities. Former Member, Executive council, Luminescence Society of India. He has published **54 publications** in peer reviewed journals, he has **foreign collaborations with** Rowan University, NJ, USA, University so on, also he is a **Reviewers for so many Journals such as** Materials Science and Engineering B: Advanced materials, Luminescence: Chemical & Biological Luminescence, so on and currently working Professor-Visiting, Post Graduate Program in Inter Disciplinary Health Science Rua Carvalho de Mendonca, 144, Encruzilhada, Federal University of Sao Paulo, Santos, Brazil.

Highlights of the talk

- Introduction to Luminescence phosphorescence fluorescence and energy band diagrams.
- Photo ionization cross section OSL Process CW-OSL, LM-OSL, P-OSL, and applications of OSL.
- Applications of OSL technique in dosimetry.

- Realistic model of the OSL Process.

The lecture was attended by all PG students, research scholars and faculty of chemistry REVA University and other places. A total of 103 participants attended the live webinar and the feedback given by the participants was appreciated.

We would like to thank, organizers and faculty of chemistry department. We also thank Assistant Director, Department Chemistry, Deputy Director, and management for constant support and encouragement towards academic activities of the school.

Zinc sulfide (ZnS), a natural phosphor.

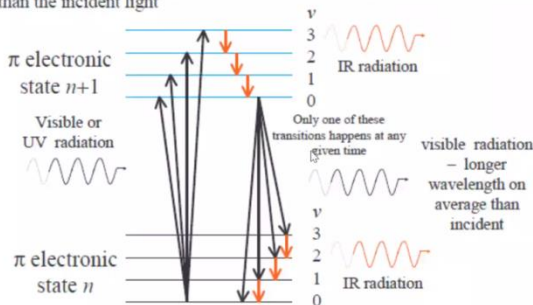

Left, in room light. under UV light. UV light is off

UNIFESP
25 ANOS

Nagabhush...: materials. So here is an example. We have the zinc sulfide.
Nagabhush...: Uh when it is kept in the open

Fluorescence

- Property of some atoms or molecules to absorb light at a particular wavelength and then emit light at a longer wavelength (lower frequency) than the incident light

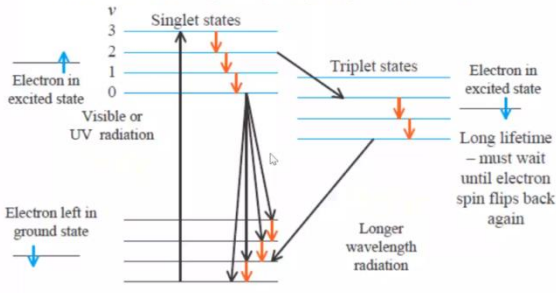

UNIFESP
25 ANOS

Nagabhush...: referred us.
Nagabhush...: Flor essence and you can see

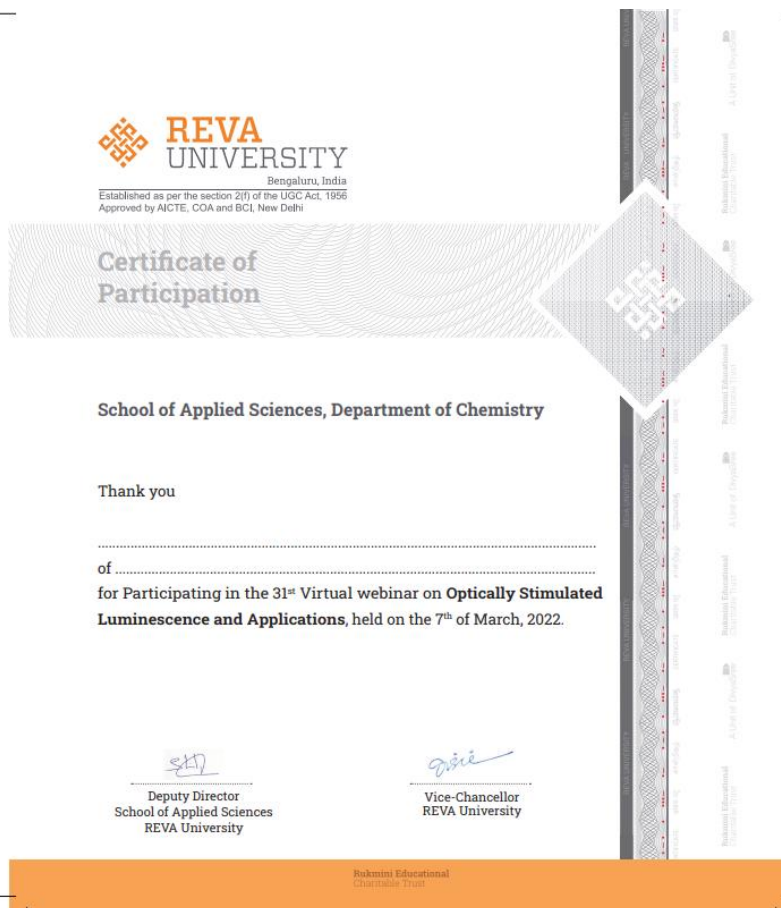

Phosphorescence

- The situation where no spin flip occurs, the molecule is in a *singlet state*
- When the electron undergoes a spin-flip, a *triplet state* is created

UNIFESP
25 ANOS

Nagabhush...: There are no.
Nagabhush...: Singlet to singlet emission that

Phosphors

- Materials exhibit Luminescence properties – phosphors

What is Luminescence?

- Light that is not generated by high temperatures
- Occurs at low temperatures

UNIFESP 25 ANOS

So and also the jellyfish's that exhibit the luminescence, the

REPORT ON 32ND WEBINAR

Department of Chemistry, School of Applied Sciences, REVA University, Bangalore, organized 32nd webinar on “**Fenton Reactions: From Classical to Advancements**” on 29th March 2022 from 9:00 - 10:00 AM through MS teams.

Resource Person:

Dr. Girish Kumar S, PhD.,
Associate Professor,
CMR University,
Bengaluru.

Dr. Girish Kumar has obtained the Ph.D degree (2012) from Department of Chemistry, Bangalore University, Bangalore and completed his post-doctoral studies (D. S. Kothari Post-Doctoral Fellowship August 2012 – August 2015) under the supervision of Prof. K. S. R. Koteswara Rao at Department of Physics, Indian Institute of Science, Bangalore. Also, he has served as Instructor for Undergraduate Research Programme (Chemistry Discipline) at Indian Institute of Science, Bangalore, INDIA. At present he is working as Associate Professor at Department of Chemistry, CMR University.

He has been active in the interdisciplinary area of scientific research relating to photocatalysis and photovoltaics associated with materials chemistry and physics since 2006. The research during the Ph.D regime (2006-2012) was focused on the advanced oxidation processes like semiconductor photocatalysis and photo-Fenton process for the wastewater purification. The study on the phase transition among the titania polymorphs using wet chemical approaches and sensitization of titania with size tunable quantum dots are his other interests. Till date, he has published 44 research articles that have more than 5900 citations with an h-index 28. He is also holding the position of Associate Editor for ‘Chemical Papers-SPRINGER’ and ‘Applied Surface Science Advances- ELSEVIER’ along with potential member in the Reviewer Panel Committee, RSC Advances. He has been recognized as ‘Top 2% world scientist’ by the survey conducted by ‘Stanford University, USA (2019 and 2021) and ‘Top 1% reviewer’ by the Publons (2018 and 2019). He has reviewed more than 1300 research manuscripts across the spectrum of

more than 100 national/international journals and recognized as 'Outstanding Reviewer' by many international peer reviewed journals.

He is currently working on advancing the Fenton reactions through exploring iron particles or iron-copper particles and also on the synthesis of pyridine based organic compounds using inorganic nanomaterials. Also, semiconductor photocatalysis and phase transition among titania polymorphs are his other research interests.

The main highlights of his talk include.

- Impotence of Fenton reagents.
- Role of Fenton reagent, its properties, and mechanistic aspects.
- Discussed the advancement in Fenton reactions.
- Explained about applications and further development of Fenton reagent.

This talk was very informative especially for those who are working in the area of photocatalysis. Almost all MSc chemistry students, research scholars and faculty of REVA University, researchers from various parts of India and abroad have attended through MS teams. More than 100 members have been registered and participated in the webinar.

On behalf of REVA family, we would like to thank the guest speaker, Dr. Girish Kumar S, Associate Professor, CMR University, Bengaluru for delivering research expert talk.

We would like to thank our Honorable Chancellor **Dr. P. Shyama Raju Sir** for providing all facility, support and encouragement to organize such events. We also thank to our Vice-Chancellor and Registrar. We extend thanks to our Deputy Director, School of Applied Sciences **Prof. Shilpa** for encouragement towards academic activities of the school.

Thank you.

Event Report on hands on session on “Data Mining with R Programming”, 6th Jan 2022

The School of CSA conducted a hands on training session for the students of I MSc Data Science who have Data Mining course with practical component. The program started by welcoming the resource person Dr. Kavitha R, Post-Doctoral Researcher, University of Mysore, Mysuru. The resource person and the participants joined online due to pandemic situation and the link for the same is provided below:

https://teams.microsoft.com/l/meetup-join/19%3ameeting_MzlkOTA1NWUtYzI1My00OTZmLWI5ZGUtODk5NmVjNDY2ZDdi%40thread.v2/0?context=%7b%22Tid%22%3a%22474565c1-bca4-4295-a2f5-b0c7dbf2591c%22%2c%22Oid%22%3a%2270be0524-e07b-48b5-bfb2-dc19fe96e031%22%7d

The Branding of this event is done with the e-banner as such :

The event is scheduled on 6th Jan 22 at 10.45 am – 12.45 p.m. All the students and faculty members attended the session.

No. of students targeted: 60

No. of students registered and attended the workshop: 60

Resource Person Profile:

Dr. Kavitha R

Post Doctoral Researcher,
Dept. of Studies in Computer Science,
University of Mysore,
Mysuru.

E-Mail : kavitha.rajamanii@gmail.com

Mobile : +91-9591704008

Qualification: MCA., MPhil., PGDHET., PhD

Experience: 19 Years

Qualifying Exam: UGC-NET (2015) and KSET (2017) in Computer Science and Applications

Additional Qualification:

Proficiency Course in “Data Mining” from IISc (Indian Institute of Sciences, Bangalore) and obtained Outstanding Grade, Completed ‘Machine Learning Masters’ course from iNeuron.

Research area of specialization: Machine Learning, Data Science, Pattern Recognition

Google Scholar Citation: 54, h-index: 4, i-10 index: 3, g-index: 7

Patent: Published (System for User Interface Design using Artificial Intelligence and Methods Thereof) on 16.07.2021

Conferences organized: 3

International Exposure (Conference Presentation): 3 – Singapore, Malaysia, Thailand

Academic Memberships: GSTF (Singapore), IDES, UACEE, IACSIT, AIRCC, CSTA

Invited Talks; 14 (Conference, Workshop, Seminar, FDP)

Journal Publications: 16 (Scopus: 5, UGC-indexed: 4)

Conference Presentation: International: 18 (Springer: 2, IEEE: 5, Elsevier: 1) National: 8

Additional Responsibilities: IQAC Coordinator, Research Coordinator, BoS, BoE, SIG, Research Mentor.

Technical talk on “Cyber Security and Data Protection”

Name	Technical Talk on “Cyber Security and Data Protection”
Audience	School of CSA –Students of First year BSc Cyber Security and I MCA Students.
Date	25 th February, 2022
Timing	2:00 P.M to 3:00 P.M.
Number of audience participated	136
Venue	Justice Hegde Seminar hall
Resource person:	Mr. Kirubasekar Prabakaran, Architect Network and IS infrastructure Security Officer, Groupe Randstad France
Event organizing Body	School of Computer Science and Applications, REVA University
Event organizer	Dr. S Senthil & Prof. Deepa B G

School of CSA had organized a Technical Talk on “Cyber Security and Data Protection“ on 25th February 2022.

Mr. Kirubasekar Prabakaran, Architect Network and IS infrastructure Security Officer, Groupe Randstad France is the Resource Person.

The session was conducted at Justice Hegde seminar hall, from 2:00 P.M to 3:00 P.M for First year BSc Cybersecurity and I MCA students.

Dr. S Senthil, Director, School of Computer Science and Applications introduced the resource person to the audience.

Mr. Kirubasekar Prabakaran, Architect Network and IS infrastructure Security Officer, discussed about:

- Importance of Cyber Security.

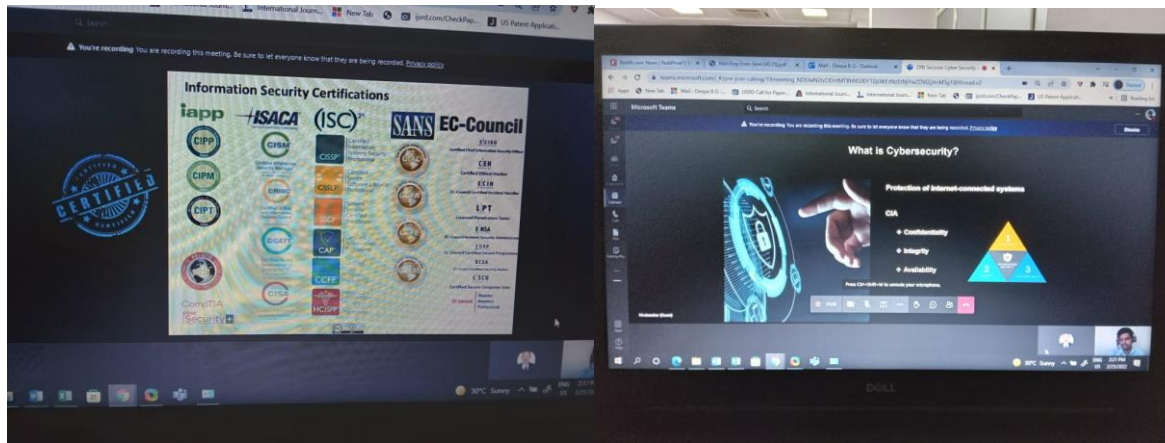

- Cyber Attacks
- Vulnerabilities in the websites.
- Scope of Cyber Security.
- Job opportunities in Cyber Security fields.
- Cyber Security certifications.
- Different job roles in the Cyber Security.
- Research scope in Cyber Security.

Technical Talk on “Entrepreneur Mindset through Project Based Learning”

Name	Entrepreneur Mindset through Project Based Learning
Audience	VI, IV MCA, IV MSc, VI BSc(H) and VIII BSc(R)
Date	09 th March, 2022
Timing	06:00 PM
Number of audiences participated	220
Venue	MS Teams
Resource persons:	Ms. Latha Raj , Business Consultant and Global Technical Eminence Leader, IBM, Bengaluru.
Event organizing Body	School of Computer Science & Applications, REVA University
Event organizer	Dr.Sasikala

Project-based learning is an instructional method designed to provide students the opportunity to advance knowledge and skills through engaging projects set around challenges and problems they may face in the real world.

A technical talk on “Entrepreneur Mindset through Project Based Learning” was organized to educate the students of MCA, MSc and BSc through virtual mode on 09.03.2022 at 06.00PM.

Through this talk by Ms.Latha Raj, students are enlightened to prepare themselves to become an entrepreneur. The students were more interactive by asking questions and received innovative answers from the speaker.

She listed some of the following businesses which are based on project based learning

- Find my Food
- Auction System
- Campus Recruitment System
- Web application for mapping wildlife sanctuaries / National Parks / Bird Sanctuaries with requisite travel information useful for tourists.
- On Road Vehicle breakdown Assistance
- Applications for farmers
- Crime Mapping

Audience	I MCA
Date	14 th March, 2022
Timing	09:30 to 011:00 AM
Number of audiences participated	180
Venue	Kalpana Chawla Seminar Hall, CV Raman Block, REVA University
Resource persons:	Mr. Harsha , Support Engineering Manager, Microsoft Corporation, Hyderabad.
Event organizing Body	School of Computer Science & Applications, REVA University
Event organizer	Prof. Vidya.S

The motivational speech “SPARK” was organized to motivate IMCA students in Kalpana Chawla Seminar Hall, CV Raman Black, REVA University, on 14.03.2022 at 9.30AM.

The session was started with motivational speech by Dr.B.Dhananjaya, Vice Chancellor, REVA University and followed by introduction of the resource person Mr.Harsha by Dr.S.Senthil, Director, School of Computer Science and Applications. The resource person handled an interactive session about the careers in information Technology.

During the session Mr.Harsha explained the importance of acquiring the skills which is required to get the jobs in the reputed organizations. He delivered the concepts of software engineering using AGILE methodologies.

He enlightened the students to do the certification courses on the following domains

- Networks
- Cloud
- Digital Security
- Microsoft products
- Programming Languages

Getting started with Bug Bounty

Name	Getting started with Bug Bounty
Audience	Registered members of CSA Cybersecurity Club
Date	18 th March, 2022
Timing	4:00 P.M to 5:00 PM
Number of audience participated	50
Venue	MS-Teams
Resource person:	Mr.Anil Tom, Information Security consultant and Bug Bounty Hunter.
Event organizing Body	School of Computer Science and Applications, REVA University
Event organizer	Prof. Deepa B G

Bug bounties are prizes offered in exchange for discovering cybersecurity flaws and are an increasingly popular way for organisations to crowdsource penetration testing.

Mr.Anil Tom, Information Security consultant and Bug Bounty Hunter ,Saudi Arabia was the resource person.

The session was conducted virtually through MS-Teams from 4:00 P.M to 5:00 P.M for Cybersecurity Club Members.

Link of the event:

An Overview of Offensive and Defensive Cyber Security

Name	An Overview of Offensive and Defensive Cyber Security
Audience	IV BCA
Date	22 nd March, 2022
Timing	10:00 AM
Number of audiences participated	200
Venue	Justice Hegde Seminar Hall, Swami Vivekananda Block, REVA University
Resource persons:	Mr. Mohammed Zeeshan A, Network Operations Associate, Accenture, Bangalore.
Event organizing Body	School of Computer Science & Applications, REVA University
Event organizer	Prof. Sneha

A technical talk on “An Overview of Offensive and Defensive Cyber Security” was organized to introduce the basic concepts of cyberspace and its applications to IV BCA students in Justice Hegde Seminar Hall, SV Black, REVA University, on 22.03.2022 at 10.00AM.

Mr.Zeeshan, started the challenges and learning opportunities of cyberspace and the different approaches to protect the data using conventional methods. He explained the importance of cyber security in this data era, its applications and career opportunities.

He highlighted the following concepts to the students during the session.

Three track of Cybersecurity

Offensive track: Deploys a proactive approach to security through the use of ethical hacking

Defensive Track: Uses a reactive approach to security that focuses on prevention, detection, and response to attacks.

General Track: builds a comprehensive strategy from select offensive and defensive tactics

SODACODE 2022 Hackers Boot Camp

Name	SODACODE 2022 Hackers Boot Camp	
Audience	School of CSA – I MCA (A, B, C sections) & I MSc (DS).	
Date	7 th Apr 2022	
Timing	9 a.m to 4.30 p.m	
Number of audience participated	225	
Venue	4 th Floor and Admin Block Lab	
Resource person:	Mr. Sanil Kumar D Chief Architect Huawei Technologies India Pvt. Limited TOC Member, Architecture Workgroup Lead SODA Foundation	Mr. Shiva Kumar Director Huawei Technologies India SODA Foundation
	Mr. Sushatha Kumar Lead Architect Huawei Technologies India SODA Foundation	Mr. Pravin Ranjan Senior System Architect Huawei Technologies India SODA Foundation
Event Organised by	Mrs. Sneha N Alumni , Clubs and Forums Vertical Head School of Computer Science and Applications REVA University.	

To encourage to students for external industry hackathons and problems statements , School of CSA in association with SODA Foundation conducted Boot Camp on 7th April with four indutry experts. The Students explored github and providing solutions through pull request to the solutions.

SODACODE 2022 – The Data and Storage Hackathon was our first coding event scheduled for developers from all levels, ranging from beginner to advanced. It was composed of the Hackathon (March 1 – April 30) and Demo Days (May 25 – 26).

SODACODE maintainers helped students have an overall understanding of the basics of open source, its importance for career, how to join and contribute to SODACODE projects along with hands-on sessions. The main ojectives of this activity were to help students to get familiar with

the participating projects, to help them start to make their first open-source contributions as college students, to get dedicated help from community members and project leaders.

SODACODE 2022 Hackers Boot Camp

Date : 7th April, 2022

Time : 9:00 A.M. to 4.30 P.M.

Venue : Kuvempu Auditorium

www.reva.edu.in

SODACODE2022 Hackers' Bootcamp 02 the second hands-on and in person workshop on how to contribute to the various participating projects in SODACODE2022. This developer bootcamp is being organised by SODA Foundation in association with REVA University, Bengaluru.

Benefits for students by attending SODACODE2022

From minor bug fixing to complex issues, and new feature development for SODA Projects, participants will get to connect, network, and increase the visibility through working with experts in the industry.

- Amazing Prizes
- Contribution badges and certifications
- Connecting with industry experts
- Hands on experience and mentorship

About SODACODE2022 Hackers' Bootcamp 2

The SODACODE2022 Hackers' Bootcamp 2 is an interactive event to enable participants to get familiar with the participating projects. This will introduce them to some of the key use cases of the projects with dedicated help from community members and project leaders. Participants will

gain knowledge and hands-on experience on contributing to the open source ecosystem and can use this bootcamp as the first step in their open source journey. Participants will be introduced to testing projects and features, raising and fixing issues, raising pull requests and various best practices and tools required to start their contributions.

An opportunity to meet with the project leaders, maintainers and developers of some of the projects and learn how to set up the development environments is a privilege to the students and encourages them to make their contributions using live examples.

Skill Development Program

Python Programming

Name	Python Programming
Audience	4 th Semester BCA section A/B/C/D
Date	9 th to 13 th April, 2022
Timing	8:30 am to 4:30pm
Number of audience participated	236
Venue	Class Room -414, 401, 415, 416
Resource person:	Mr. Ganesh, Mr.Mayur, Mr.Prajwal, Mr. Manas
Vendor Name:	EDQI
Event organizing Body	School of Computer Science and Applications in Association with UIIC cell, REVA University
SDP coordinator	Prof. Deepa B G

Python is an interpreted, object-oriented, high-level programming language with dynamic semantics developed by Guido van Rossum. It was originally released in 1991. Python is often used to build websites, software, automate tasks, and conduct data analysis. Python is a general-purpose language, meaning it can be used to create a variety of different programs and isn't specialized for any specific problems.

The classes were conducted in the regular classrooms for 5 days and students had appeared for Global examination on the last day of the event. The outcome of the event was students learned how to explain and design Web based applications.

Pictures are attached below taken during the event which clearly shows the activeness of the Trainer and the attentiveness of the Students.

Topics Discussed:

Sl.No	Topic	Session	Description
01	Operations using Data Types and Operators	Day 1 – Session 1	Evaluate expressions to identify the data types Python assigns to variables str, int, float, and bool
			Perform data and data type operations
			Data type conversion, indexing, slicing, construct data structures
			Determine the sequence of execution based on operator precedence
			Assignment, comparison, logical, arithmetic, identity (is), containment (in)
			Select operators to achieve the intended results
02	Flow Control with Decisions and Loops		Assignment, comparison, logical, arithmetic, identity (is), containment (in)
			Construct and analyze code segments that use branching statements if, elif, else, nested and compound conditional expressions
			Construct and analyze code segments that perform iteration while, for, break, continue, pass, nested loops, loops that include compound conditional expressions
03	Input and Output Operations	Day 1 – Session 2	Construct and analyze code segments that perform file input and output operations open, close, read, write, append, check existence, delete, with statement
			Construct and analyze code segments that perform console input and output operations

			Read input from console, print formatted text (string.format() method, f-String method), use command-line arguments
04	Code Documentation and Structure		Document code segments
			Use indentation, white space, comments, and documentation strings; generate documentation by using pydoc
			Construct and analyze code segments that include function definitions
			Call signatures, default values, return, def, pass
			Create your own functions Functions Parameters Variable Arguments Scope of a Function Function Documentations Lambda Functions & Map n Exercise with functions Create a Module Standard Modules
05	Troubleshooting and Error Handling	Day 2 – Session 1	Analyze, detect, and fix code segments that have errors Syntax errors, logic errors, runtime errors

			Analyze and construct code segments that handle exceptions try, except, else, finally, raise
			Perform unit testing unittest, functions and methods
06	Operations using Modules and Tools		Perform basic operations by using built-in modules math, datetime, io, sys, os, os.path, random
			Solve complex computing problems by using built-in modules math, datetime, random
07	OOPS concepts	Day 2 – Session 2 & Day 3 – Session 1	Object Oriented Programming concepts
			Class Objects Polymorphism Encapsulation
			Inheritance
08	Project - 1	Day 3 – Session 2	Project
		Day 4 – Session 1	Graphical User Interface in python Introduction Components and Events An Example GUI

09	GUI in python		The root component Adding a button Entry Widgets Text Widgets Check buttons
10	Connectivity, package & Google colab platform	Day 4 - Session 2	Data base connectivity Import packages Google colab
11	Image concept	Day 5 – Session 1	Working with images in python
12	Project - 2	Day 5 – Session 2	Project

Course Outcome:

Candidates will be able to recognize, write and debug Python code that will logically solve a problem.

Students will be able to acquire knowledge about Operations using Data Types and Operators, Flow Control with Decisions and Loops, Input and Output Operations, Code Documentation and Structure, Troubleshooting and Error Handling, Operations using Modules and Tools, OOPS concepts, GUI and Image concept.

STUDENT REVIEW

NA
Has a good experience

The contents were well taught and would have been better if there was interaction between the students and a teacher.
Good explanation
Good explanation
Boring
We are able to understand what our trainer is teaching ...we learnt many things ABT html and css
Good
Has good experience
Ntg
Good experience
Good learning experience
It was good experience and good teacher
Good
The class are been to fast we was not able to keep up
Good trainer
Idk
His explanation are amazing..... And can understand everything too easily!
Good trainer
The class are been too fast.. we was not able keep up
Good trainer
Great trainer
Sir is explaining us every easily nd interacting with us and making the sessions interesting
Nothing
Session is going good
Interesting session
Good
Good
Was able to easily understand the concepts of html+ css
Good
Nothing
Good
Trainers could be better.
Good
Nothing
Good training
Nothing have to improved

School of Computer Science and Applications

Seminar on “ROADMAP FOR SUCCESS IN PLACEMENTS”

Name	Seminar on “ROADMAP FOR SUCCESS IN PLACEMENTS”
Audience	School of CSA – Students of I MCA (A, B, C sections) & II MSc (DS).
Date	26 Apr 2022 (Monday)
Timing	02.30 P.M to 4.00 P.M
Number of audience participated	190
Venue	Justice K S Hegde Seminar Hall, Swami Vivekanada Block.
Resource person:	Mr. Shreyank B. P, Cognizant Technology Solutions(CTS) Bengaluru.
Event Organised by	Mr. Pinaka Pani. R and Mr. Kusha K. R Training & Placement Vertical Heads School of Computer Science and Applications REVA University.

Objective of the Program:

Placements are very crucial part of students’ life and getting placed in a reputed company is everyone’s dream but only few become successful in fulfilling their dreams. This is mostly due to lack of awareness and proper guidance.

As a potential candidate planning to attend the job interviews is required to understand the expectations of a company from a fresher and how the entire IT recruitment process works. This event is an eye opener for all freshets’ who are going to graduate in the year 2022-23.

About the Resource person:

Resource person, Mr. Shreyank B P is the Alumni of REVA University. He has completed MSc (CS) in the year 2021. Presently is working as a Programmer Analyst at Cognizant Technology Solutions (CTS), Bangalore. He Worked at Accenture as APIGEE developer in the UK project, where has got good learning from a client of Prudential UK company.

Presently working as the APIGEE Developer with C# and NUnit testing in the CTS for US project.

About the Program:

The hiring process usually involves multiple stages, which slightly gets tougher with each step. Lack of knowledge of interviewing skills will negatively impact the chances of you getting hired, even if the student possess the necessary job skills.

Hence, Roadmap to Success in Placements will make students to be equipped with the industry expectations and gives them more confidence during the placement activities. This program also helps students transition smoothly into corporate life. Mr. Shreyank B. P

highlighted on the significance of doing internships in various IT companies. Also suggested the important portals for doing internships and its importance during interviews. Our students actively participated and got cleared their queries during the session. They were equipped with more confidence to gear up for upcoming placements drives. Has given many tips and tricks for clearing placement drives.

Feedback:

Students thoroughly enjoyed the session and feedback from the students was overwhelming. They suggested keeping this kind of useful technical talks in the future.

Please find some photos of the event.

Software coding Club- IoT Workshop

Name	One Day Workshop on “IoT Workshop”
Audience	School of CSA –Students
Date	26 th April 2022
Timing	9:30 A.M to 4:00 P.M
Number of audience participated	30
Venue	421
Resource person:	Mr. Uthej, Mr.Aman, Mr.Javed
Event organizing Body	School of Computer Science and Applications, REVA University
Event organizer	Prof. Sneha N

Objective of the Program:

The main purpose of the workshop was to enhance the skills of the student on IOT . The students gained experience on how to work on IOT and the way cognitive IOT improves the way of interaction with devices at a faster rate. Students learned about the importance of Cognitive IOT and how it can improve the transmission performance through establishing dynamic routing, searching optimal transmission path adaptively and optimizing configuration of each node in the network.

Event organizer	Prof. Sneha N

Objective of the Program

A major share of hand-held devices runs on the Android Operating System - which is open source and customizable. The Android Application Development Workshop provides participants technical training on the concepts and programming methodologies needed to develop applications for mobile devices. Participants will learn to use different android libraries. Instruction is aided with live projects which will allow students to grasp concepts of the complete mobile application development life-cycle.

Course Structure & Topics covered:

- Introduction to Mobile Application Development
- Role of Android in mobile industry
- Introduction to Android SDK and its setup
- Building the Application Framework
- Designing User Interfaces
- Activities, Services, Intents, Broadcast Receivers
- Resources, Menus, Content Providers, Dialogs, Notifications

Director
(Dr. S Senthil)

School of Computer Science and Applications

Skill Development Program

Cyber Security and Ethical Hacking Level-2

Name	SDP on "Cyber Security and Ethical Hacking Level-2"
Audience	2 nd Semester B.Sc(CS) & B.Sc(H)
Date	09-05-2022 to 13-05-2022.
Timing	8:30 am to 4:30pm
Number of audience participated	92
Venue	Justice Hegde Seminar Hall
Resource person:	Mr. Manoj & Mr.Tousif
Event organizing Body	School of Computer Science and Applications in Association with UIIC cell, REVA University
SDP coordinator	Prof. Deepa B G

The objective of the program was to create awareness among the students / faculty about the THREATS & CYBER Security & Importance of Ethical Hacking. Ethical byte Trainers provided greater value to students by providing them not only the most updated courses but also preparing them is taking a certification that empower students in the corporate world. The trainer also taught the best practices and latest techniques to secure data.

OUTCOME: The final step of an ethical hacking is reporting the vulnerabilities. Unlike automatically generated reports from tools that offer generic remediation tips, reports from penetration tests can rank and rate vulnerabilities according to the scale of the risk.

Topics Discussed:

Number of Days	Content
DAY 1	<ol style="list-style-type: none"> 1. Introduction to Advance Ethical Hacking 2. Vulnerabilities Associated with Systems 3. Monitoring and Capturing Data Packets Using Sniffing 4. Web Servers and Threats Associated with It

DAY 2	5. Web Applications and Threats Associated with It 6. Controlling User Session with Authenticated TCP Connection - Session Hijacking 7. Injecting Code in Data Driven Applications: SQL Injection 8. Hacking Mobile Platforms and Threats Associated with It
DAY 3	9. Encrypting and Decrypting the Code – Cryptography and Its Types 10. Evading IDS, Firewalls and Honeypots 11. Wireless Networks and Threats Associated with It 12. CTF (catch the flag) concepts and practices
DAY 4	13. Privilege escalation 14. Advance windows attacks
DAY 5	15. Access Hidden Networks 16. Attacking IoT System

IoT Boot Camp

Name	IoT Boot Camp
Audience	4 th B.Sc(H)
Date	16 th to 20 th May , 2022
Timing	8:30 am to 4:30pm
Number of audience participated	45
Venue	Class Room -425
Resource person:	Mr. Manoj, Mr.Tousif.
Vendor Name:	Ethical Byte
Event organizing Body	School of Computer Science and Applications in Association with UIIC cell, REVA University
SDP coordinator	Prof. Deepa B G

The objective of the program was to upgrade the students' Knowledge in Fundamentals of IoT , its architecture and its application , Arduino & Raspberry pi etc . Trainers provided greater value to students by providing them not only the most updated courses but also preparing them is taking a Global certification that empower students in the corporate world. The trainer also taught the best practices and latest techniques & tricks in coding. Highlight of the programs were self-developed projects. IoT is the important technology to learn as most corporates is looking for the certified candidates.

The classes were conducted in the regular classrooms for 5 days and students had appeared for Global examination on the last day of the event. The outcome of the event was students learned how to explain IoT Architecture, embedded system concepts, connectivity & networks in IoT, use Cup Carbon Simulator, perform data analytics in splunk.

Pictures are attached below taken during the event which clearly shows the activeness of the Trainer and the attentiveness of the Students.

Topics Discussed:

- 01: Introduction to Raspberry pi 3 and 4
- 02: Understanding the Raspberry Pi components
- 03: How to install Raspbian OS on Raspberry Pi 3 and 4
- 04: Introduction to C and Arduino
- 05: How to Set up the Home Screen
- 06: Raspberry Pi Sensors and Module Kits
- 07: Making Files and Navigating the File System
- 08: Introduction to the Shell
- 09: Introduction to Python Programming Language
- 10: How to Connect Raspberry Pi 3 and 4 to External Devices
- 12: How to write File Permissions and Arguments commands
- 13: How to Schedule Tasks to Run at Startup
- 14: Variables and Decision Making
- 15: Connecting sensors to home appliances
- 16: Node MCU Projects

OUTCOME:

IoT has the capability to create public value and the intended public value dimensions have widened from the goal of improved efficiency. There has been a shift in value creation with other goals and outcomes such as effectiveness, transparency and collaboration gaining increased presence.

Session Schedule:

Number of Days	Content
DAY 1	1. Introduction to Raspberry pi 3 and 4 2. Understanding the Raspberry Pi components 3. How to install Raspbian OS on Raspberry Pi 3 and 4
DAY 2	4. Introduction to C and Arduino 5. How to Set up the Home Screen 6. Raspberry Pi Sensors and Module Kits
DAY 3	7. Making Files and Navigating the File System 8. Introduction to the Shell 9. Introduction to Python Programming Language 10. How to Connect Raspberry Pi 3 and 4 to External Devices
DAY 4	11. How to write File Permissions and Arguments commands

	12. How to Schedule Tasks to Run at Startup
DAY 5	13. Variables and Decision Making 14. Connecting sensors to home appliances 15. Node MCU Projects

EXPERT LECTURES FROM INDUSTRY

Level: School level

Title: Cloud Security

Category: Expert Lectures from Industry

Date: 2nd June 2022

No. of Resource Persons: 1

No. of Participants: 450

Organizers: Department of Computer Science & Application

Resource Person: **Dr. VIJAY SRINIVAS AGNEESWARAN**
Machine Learning Research Leader
Microsoft Corporation, Bangalore

The session started with briefing about AI is continuously becoming smarter because of Singularity. Singularity is the exponential increase of intelligence that arises from the moment that Artificial Intelligence is so smart and powerful, that it can improve itself rapidly and becomes smarter than human beings.

- What is Artificial Intelligence and how quickly does AI develop?
- The opportunities of AI at this moment?
- The next big wave: Intelligence Revolution
- New innovations, intelligent virtual coaches and intelligent products.
- New generation of customers: Customer Experience and Customer Service.
- Human-centered Artificial Intelligence

Overall, the lecture was very interesting and beneficial to all the students.

EXPERT LECTURE FROM ACADEMIA

Level: School level

Title: Recent Investigations in Machine Learning and Edge Computing

Category: EXPERT LECTURE FROM ACADEMIA

Date: 2nd June 2022

No. of Resource Persons: 1

No. of Participants: 450

Organizers: Department of Computer Science & Application

Resource Person: Dr. RAJEEV SHOREY

Chief Executive Officer, University of Queensland – IIT Delhi Academy of Research (UQIDAR), New Delhi

The session started with Edge Machine Learning (Edge ML) is one of the most talked-about tech advancements since the Internet of Things (IoT), and for a good reason. With the rise of IoT came an explosion of Smart Devices connected to the Cloud, but the network was not yet ready to support this surge in demand. Cloud networks were congested, and companies overlooked key issues with Cloud computing, such as security. The solution: Edge ML.

So, what is Edge ML anyway? Edge ML is a technique by which Smart Devices can process data locally (either using local servers or at the device-level) using machine and deep learning algorithms, reducing reliance on Cloud networks. The term edge refers to processing that occurs at the device- or local-level (and closest to the components collecting the data) by deep- and machine-learning algorithms.

Overall, the lecture was very interesting and beneficial to all the students.

In today's innovation-driven economy, understanding how to generate great ideas has become an urgent managerial priority. Suddenly, the spotlight has turned on the academics who've studied creativity for decades. How relevant is their research to the practical challenges leaders face?

To connect theory and practice, Harvard Business School professors Amabile and Khairi convened a two-day colloquium of leading creativity scholars and executives from companies such as Google, IDEO, Novartis, Intuit, and E Ink. In this article, the authors present highlights of the research presented and the discussion of its implications.

They pointed out that process management isn't appropriate in all stages of creative work; leaders should apply it thoughtfully and manage the handoff from idea generators to commercializers deftly

Overall, the lecture was very interesting and beneficial to all the students.

A large amount of medical data and the development of more powerful computers has also fostered an interest in this area. An overview of current deep learning methods, starting from the most straightforward concept but accompanied by the mathematical models that are behind the functionality of this type of intelligence. In the first half the fundamental concept of artificial neural networks is introduced, progressively covering convolutional structures, recurrent networks, attention models, up to the current structure known as the Transformer. In Secondly half, all the basic concepts involved in training and other common elements in the design of the architectures are introduced and some of the key elements in modern networks for medical image classification and segmentation. Finally, the perspectives and future expectations of deep learning are discussed.

Overall, the lecture was very interesting and beneficial to all the students.

“Agile working” is one of the most common management terms of the year. Undergoing an Agile transformation seems to be the rule rather than the exception. However, successfully implementing an Agile transformation is still considered quite an impressive feat. Most companies have not been able to fully adapt agile software development and implement it in their projects as a universal and sole approach. This is probably why many researchers argue that the best way to manage a project is through hybrid methods.

Overall, the lecture was very interesting and beneficial to all the students.

Sr. Principal Cyber security Consultant (Cloud & Container)
Standard Chartered Bank, Singapore

The students were provided the information on cloud computing where he told the students about the growing need of computers in our day to day life so the computing resources that we need also go up. For companies like Google and Microsoft, harnessing the resources as and when they need it is not a problem. But when it comes to smaller enterprises, affordability becomes a huge factor. With the huge infrastructure come problems like machines failure, hard drive crashes, software bugs, etc. This might be a big headache for such a community. Cloud Computing offers a solution to this situation.

He explained what the cloud computing exactly mean in real life. A cloud is a virtualized server pool which can provide the different computing resources of their clients. Users of this system need only be concerned with the computing service being asked for. The underlying details of how it is achieved are hidden from the user. The data and the services provided reside in massively scalable data centers and can be ubiquitously accessed from any connected device all over the world.

Overall, the lecture was very interesting and beneficial to all the students.

Title: Efficiency and Reliability Via Artificial Intelligence

Category: Expert Lectures From Industry

Date: 3rd June 2022

No. of Resource Persons: 1

No. of Participants: 300

Organizers: Department of Computer Science & Application

Resource Person: Dr. MAYUKH DAS
Senior Research Scientist, Microsoft Research India
Bangalore

In the session, Mr. Mayukh started by introducing IT industry analysts concur that the market size for AI technology will experience strong growth over the next three years. Most of the firms we surveyed expected to increase spending on AI in the coming three years, a finding echoed in other recent surveys. For example, 75 percent of the 203 executives queried in an Economist Intelligence Unit survey said AI would be “actively implemented” in their firms within three years (3 percent said it had already happened).

Expectations of how large this growth will be vary widely. Our survey documented relatively modest growth projections—only one-fifth of firms expected to increase expenditure by more than 10 percent. Industry analysts’ forecasts of the compound annual growth rate ranged from just under 20 percent to nearly 63 percent, including both adoption by additional companies and increased spending within companies.²⁶ The actual growth rate may need to be toward the upper end of that range to meet the expectations of investors piling into the industry.

Overall, the lecture was very interesting and beneficial to all the students.

In this expert talk is open to all faculty members/students/ research scholars. The main objective of this programme is to cover the key elements of writing good research papers in reputed journals in real world research problems of different fields.

Some of the key topics that covered in the talk are:

- Writing for International Journals: Language, style and accuracy.
- Selecting a journal for your manuscript.
- Peer review and you.
- Publishing ethics.
- Plagiarism, citations, opens access: The buzzwords of publishing.
- Predatory journals and publishers and how to spot them.

Overall, the lecture was very interesting and beneficial to all the students.

INTRODUCTION: -

As per intellectual property right geographical indication is considered as the most prominent part as it defines goods within a geographical region. When we talk about geographical indication its priority, quality and other features which are linked to the location of origin. As per the latest survey which was held in September 2019, total number of 361 registry were made in India for geographical indication, the starter of the same held in the financial year 2004-05 under the act which is known as geographical indications of goods (registration & protection) 1999 which came into effect from September 2003.¹

When we talk about geographical indication and Indian agriculture, there is utmost development from last few decades in food productions and which witnesses the tremendous availability of the food whether its stocked or imported, exported from the country. India had made huge impact when we say agriculture adjustment or values and quality of food provided to below poverty line (BPL) category or to other weaker sections of the society. Sometimes difficulties and hardships are on the pin point like price hike due to bad weather conditions of

Organized

International 2 Part Lecture series Design Thinking and Complexity

About Event	<p>University Industry Interaction Center & Institutions Innovation Council, REVA University in association with School of Architecture organized Webinar on Innovation and Entrepreneurship on 4th May 2021 & 11th may 2021.</p> <p>Design thinking is a human-cantered process for driving innovation. Instead of following the traditional product development cycle, we shorten the process and get all roles on board before we even start development. We achieve this by promoting cross-functional collaboration, adopting a user-centric view, and by testing assumptions early and often.</p> <p>Cross-departmental collaboration and leveraging individual creativity is a must-have for any successful product idea. While in a traditional top-down product development scenario experts would work on a product or service at different stages of its life cycle (e.g., concept, design, production), design thinking sessions require representatives from all essential fields to collaborate on the design early on.</p> <p>Speaker: Mr. Philippe Casens, Designer, International Faculty and Researcher, Disopra Design Paris, France</p>
Organized By	University Industry Interaction Centre & Institutions Innovation Council, REVA University in association with School of Architecture.
UIIC / IIC Coordinator Name	Mr. Adithya Poojary
Date	4 th May 2021 & 11 th may 2021.

Targeted Audience (School Name)	School of Architecture
No. of Students Participated	60
No. of Faculty Participated	30
No. of External Students Participated	-
No. of External Faculty Participated	-
Total Participants	90
Outcome of the Event	<p>Driving innovation in a shifting marketplace can be a daunting task. In addition to dealing with changing customer expectations, we have to align across specialized silos of co-workers and ensure that quality standards and operational excellence are met. Innovating, at the same time, is not optional; it is a necessity to maintain growth and market share in the face of disruption.</p> <p>Innovating or thinking outside the current standards often means leaving standardized, top-down product delivery practices behind, investing in cross-functional collaboration, and fostering individual creativity. By tapping into the broader knowledge of organizations by aligning people with different perspectives behind a customer-centric goal, researching user needs, and testing for success metrics, design thinking can accelerate innovation, and reduce costs and risks without compromising on quality or efficiency.</p>

E- Banner:

The banner is divided into two main sections. The left section features a portrait of Philippe Casens, a middle-aged man with short grey hair, wearing a dark button-down shirt, looking slightly to the right. The right section has a solid red background with white and yellow text and logos.

**Webinar on 72% of entrepreneurs are directly or indirectly affected by mental
health issues!**

About Event	<p>University Industry Interaction Center & Institutions Innovation Council, REVA University organized Webinar on 72% of entrepreneurs are directly or indirectly affected by mental health issues! on 29th May 2021</p> <p>72% of entrepreneurs are directly or indirectly affected by mental health issues. An interactive session was conducted by Ms. HARLEEN KAUR, research scholar and Psychiatrist. The interactive session aimed to ease out students in this challenging situation. It helped in handling ordeals in student's Entrepreneurial journey and keep the spirit alive throughout.</p>
Organized By	University Industry Interaction Centre & Institutions Innovation Council, REVA University in association with Cisco Thinqubator
UIIC / IIC Coordinator Name	Mrs. Vanitha R
Date	29 th May 2021
Targeted Audience (School Name)	All schools of REVA University
No. of Students Participated	12
No. of Faculty Participated	5
No. of External Students Participated	15
No. of External Faculty Participated	
Total Participants	32

Outcome of the Event	Session was useful; and students got more knowledge on how to handle mental stress and it is more interactive session and students shown interest by asking so many question how it effects and handle the situation, speaker gave few examples on the mental health issue on entrepreneurial journey and also it's a challenging task handling business without stress, so has to be more stable and constant decision.

One Day Brainstorming workshop on Innovation & Creative Thinking

About Event	<p>University Industry Interaction Center, Institutions Innovation Council, REVA University organized One Day Brainstorming workshop on Innovation & Creative Thinking on 12th June 2021.</p> <p>Session 1: Context setting (1.5 hrs.) This session is to understand what is innovation and creativity within the context of a FabLab and how it relates to the action of generating ideas as well as solution to complex problems within a hardware constrained environment.</p> <p>Session 2: Stanford Wallet Exercise (2 hrs.) This session explores the concept of Design Thinking and allows the participants to understand the meaning of design beyond simple definitions and allowing the factor of empathy and function to combine in a seamless manner</p> <p>Session 3: Innovation Exercises (2 hrs.) This session is about exercising the innate creative muscles of the mind to understand your own personal Innovation Quotient and study methods to improve it over a longer term of both kinesthetic and mental gymnastics designed to improve the mind and make it more neuroplastic.</p> <p>Session 4: Case Study of a FabLab with Razor Sharp Vision (1.5 hrs.) This session is to explore some real-life case studies of innovation in use by startups and researchers and the motivations behind the innovator in creating value for all stakeholders beyond the classroom or the FabLab</p>

Invited Talk On Product Design Cycle

About Event	<p>University Industry Interaction Center & Institutions Innovation Council, REVA University in association with electrical communication Engineering organized Invited Talk On Product Design Cycle on 12th June 2021.</p> <p>He graduated in Electronics & Communication engineering and post-graduation on Industrial Electronics from KREC/NITK Surathakal. His research area includes IoT and wearable cameras with high-speed streaming video. He has delivered several special lectures in the area of IoT and also published papers. He is a joint recipient of IEEE International award in VLSI'99 for the FPGA based design that was done for ISRO. He recently co-authored a textbook on IoT published by McGraw Hill. He has contributed for design and development of about 32 products from concept to production involving in all parts of design cycle including customer installation and support.</p>

No. of Students Participated	-

No. of Faculty Participated	45
No. of External Students Participated	-
No. of External Faculty Participated	25
Total Participants	70
Outcome of the Event	This talk started with importance of electronics product design for the young budding engineers and explain the complete methodology by giving simple examples. The speaker introduced various stages involved in designing an electronics product by walking through the steps in each stage. The speaker with his vast hands-on experience and exposure to various product development technologies has shared the journey of product development cycle from the concept to the customer. During the talk, key concepts like product requirement specification, hardware functional specification, software functional specification, design validation test, design for testability, product development cycle, project management customer deployment were covered. The speaker explained the topic very well and answered the questions at the end.

Webinar on Product Development Life Cycle

About Event	<p>The School of Computing and Information Technology, REVA University organized a webinar on “Product Development Life Cycle” for the faculty and students of B.Tech in CSE and CIT on 03-07-2021 at 11.00 am. To 12.00 noon. The webinar was delivered by Mrs. Manjushree Sahana, Software Quality Tester, Dell EMC2</p> <p>The webinar focused on bringing awareness among the participants about the development of a product and its market strategy to retain itself as an integral part of its target ecosystem. Through this webinar, we would briefly explore the world of product development, its different phases and the focus areas that make or break a product. The major focus areas we would discuss would be product quality, product life cycle and product sustainability. The approach discussed would not only be relevant to a product but to various domains of our life.</p>

DIFFERENT LEVELS OF SOFTWARE TESTING

The diagram illustrates the progression of software testing levels. The vertical axis represents 'Completeness' and the horizontal axis represents 'Time'. The testing levels are shown as boxes arranged in a staircase pattern, indicating that as time progresses, the completeness of testing increases. The levels are: UNIT TESTING (orange box), INTEGRATION TESTING (dark grey box), SYSTEM TESTING (dark grey box), and ACCEPTANCE TESTING (dark grey box). A blue box labeled 'SOFTWARE TESTING LEVELS' is positioned to the left of the staircase. Green arrows point upwards between the boxes, showing the sequence. The text 'SoftwareTestingFundamentals.com' is at the bottom of the diagram.

International webinar Technology Commercialization: Taking your Research to Real World

About Event	The Department of Biotechnology, School of Applied Sciences organized an International webinar on Technology Commercialization: Taking your Research to Real World on 12.07.2021 . The session was scheduled through Microsoft Teams as live webinar session. Resource person was Ms. Veena Dinesh, Director of Business Incubation, Office of Innovation and Economic Development, University of Maine, Orono, USA. The session was open to all the students and faculty members. The speaker gave an excellent insight of translating ideas from the institution to the outside world. Commercialization pathways were discussed in detail.

Organized IEDC Program on

“Risk Assessment of Product & Innovation Development”

About the event

University Industry Interaction Centre in association with **Institution Innovation Council** organized IEDC Program on “**Risk Assessment of Product & Innovation Development**” on 24th September 2021 from 2:30PM to 3:30PM for 3rd semester students of B.com Industry Integrated & Honors.

A brief Introduction about REVA NEST was given to students, followed by profile reading and introduction of the Speaker Mr. Pramod Kalyani.

Later the session was handed over to the speaker on Risk Assessment of product & Innovation Development.

The event was conducted in two sessions; details are as mentioned below:

IEDC Programme 24.09.2021	
Afternoon 2.30PM to 3.30PM	
Topic: Risk Assessment of product & Innovation Development.	
Resources Person: Mr. Pramod Kalyani- CEO, Kalsoft Solutions Private Limited.	

About IEDC:

The Innovation and Entrepreneurship Development Center (IEDC) are platforms set up mainly in Engineering colleges with an aim to provide students an opportunity to innovate and experiment.

	<p>IEDCs works as the first launch pad for a student's entrepreneurial journey and provide them with access to cutting edge technology, world class infrastructure, high quality mentorship, early risk capital and external connects.</p> <p>IEDCs act as common platforms in academic institutions to nurture innovation and entrepreneurship culture among student Fraternity.</p>
Organized By	University Industry Interaction Centre in association with Institution Innovation Council, REVA University
School Coordinators	Prof. Kantharaju & Prof. Naresh Babu k S
UIIC Coordinator	Ms. Vanitha R
Date	24-9-2021
Targeted Audience	3 rd Semester students from school of Commerce B.com Industry Integrated & Honors
No. of Participants	312
No of faculty	6
Total Participants	318
Session Link	https://bit.ly/3uhLjMG
Session Outcome	Entrepreneurship that proves to be successful in taking on the risks of creating a startup is rewarded with profits, fame, and continued growth opportunities. Entrepreneurship that fails results in losses and less prevalence in the markets for those involved.

HOW TO START A START-UP

by Anna Vital

live in the future, ahead of your time

what is missing in the world?

write it down and bounce ideas around

make a prototype

show the prototype to 100 people

launch - let everyone know you have made something

look for funding and build version one at the same time

register your C-corp, split equity

find a co-founder

iterate on the prototype until it makes sense

follow up with users. Are they coming back?

launch again (after iterating) launch until users say (Airbnb launched 3 times)

keep growing for another 4 years, and at that rate you will reach 25 million users

SUCCESS

"Workshop on Entrepreneurship & Innovation as career opportunity "

About Event	<p>University Industry Interaction Center & Institutions Innovation Council, REVA University organized "Workshop on Entrepreneurship & Innovation as career opportunity " on 16th Nov 2021.</p> <p>This workshop explores and improves the experiences and potential of entrepreneurs, thus helping to make solid business plans. The workshop organizes a "Second Entrepreneurship Course" intended for businesspeople, young successors, and other persons aiming to launch business or do something similar.</p>
Organized By	University Industry Interaction Centre & Institutions Innovation Council, REVA University
UIIC / IIC Coordinator Name	Mrs. Vanitha R
Date	16 th Nov 2021
Targeted Audience (School Name)	CSA & Mechanical 5 th Semester students
No. of Students Participated	226
No. of Faculty Participated	4
Session Link	https://teams.microsoft.com/l/meetup-join/19%3ameeting_MWUxODBmZWUtZGI2OS00M2UyLWFIMjEtNjlmZjA2MTFfODlw%40thread.v2/0?context=%7b%22Tid%22%3a%22474565c1-bca4-4295-a2f5-b0c7dbf2591c%22%2c%22Oid%22%3a%223e8203ba-c034-447d-b9e8-a73105e37d6a%22%7d

University Industry Interaction Centre & Institutions Innovation Council, REVA University in association with School of Computer Science and Application Organized

Pitching Event for Ideas Scouted & linkage with Innovation Ambassadors for mentorship support on Design Thinking

About Event	<p>University Industry Interaction Centre & Institutions Innovation Council, REVA University in association with School of Computer Science and Application Organized, Pitching Event for Ideas Scouted & linkage with Innovation Ambassadors for mentorship support on Design Thinking .</p> <p>Design Thinking is a healing touch process with the prime focus on empathy to analyse the problem and design the solution. It revolves around a deep interest in developing and understanding of the people for whom the products or services to be designed.</p> <p>In this regard an event is organised for the students of School of Computer Science and Applications to introduce the concept of Design Thinking for further exploration and implementation.</p> <p>The main objective behind this event was to explain the importance of Design Thinking among the future Software Engineers to analyse the problem with the human centric approach at the core concept to feel the problem for providing the effective and best solution.</p>
Organized By	University Industry Interaction Centre & Institutions Innovation Council, REVA University in association with School of Computer Science and Application
UIIC / IIC Coordinator Name	Dr. Anand Kumar Prof. Mohamed Abdul Kader Jailani N
Date	30th Nov 2021
Targeted Audience (School Name)	Students of MCA and M.Sc Program of School of Computer Science & Applications.
No. of Students Participated	140

No. of Faculty Participated	05

OXIMETER

Introduction and Motivation?

COVID-19 is a disease caused by the SARS-CoV-2 virus that primarily attacks a person's respiratory system. Some milder symptoms can include fever, aches, and chills, but it can also lead to more serious conditions such as pneumonia. A person who has pneumonia or even slight shortness of breath might not know when to go to a hospital, especially as they start to get even more overwhelmed. This is why I created this open source pulse oximeter, which can assist in getting people the help they need and get accurate information about their current condition.

Components Required

- 1 Arduino Nano R3
- 1 Maxim Integrated MAX30102 Plus and

SCHOOL OF MECHANICAL ENGINEERING

Project Title: **DESIGN AND FABRICATION OF SANITIZER SPRAY MACHINE**

ABSTRACT: Low cost Sanitizer spray machine

Student Name and SRN:

1)Likith N : R18ME820 2)Karthik : R18ME819
3)Madhan C : R18ME822 4)Maruthi Dikshith P :R18ME827

GuideName:Prof.Arun Kumar Reddy H

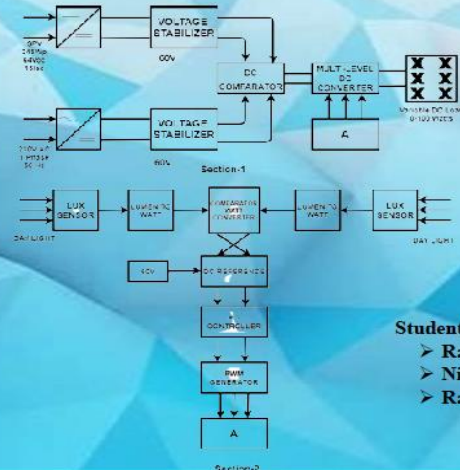

School of Electrical and Electronics Engineering

Project title: Automatic Light Sensing and Dimming Control using IOT and 3rd Degree Kernel Debugging using SVM

Abstract

As India adopting renewable technology in the power production sector. It becomes important for us to manage power efficiently. We have natural lighting in a form of sun, utilising the natural light of sun we can easily decrease the consumption of power from 18 % to 10 to 12% that makes saving of 111Twh energy annually. So, system calculate lux intensity at room by natural light and calculate the required intensity of light and gives proportional output signal for power control unit

DESIGN OF DELIVERY DRONE

REVA
UNIVERSITY
Bengaluru, India

Description:

At present, delivery system should be fast and efficient in various fields like medical, foods, package deliveries etc. Traditional method for delivery is slow and inefficient in last mile delivery. So, introducing drones in last mile delivery makes faster and more efficient. The designed Quadcopter has a low weight and low-cost autonomous flight capable of delivering parcel. The promising result of this method enables future research on using quadcopter for delivering parcel.

Covid Test – Sample Isolation chamber machine

Introduction and Motivation?

In olden days or recently, any specimen is collected at high risk. The cost is very high and also Hospitals / research labs utilize very high energy consumption. And also, test is being performed only on equipment manufacturer's instructions.

For example, current SARS-CoV-2 infections / CDC recommends collecting & testing an upper

Respiratory specimen.

Application: It's portable to carry the blood sample rather than carrying box.

Meaning of Entrepreneurship

- ▶ The word entrepreneurship originates from the French word *entreprendre*, which means **"to undertake"**.
- ▶ Entrepreneurship is the key to **innovation, productivity and effective competition**.
- ▶ When a person realizes his **ability or capacity** and makes its practical use and **establishes new business unit** this activity is known as **entrepreneurship**.

Concept of Entrepreneurship :

Entrepreneurship is an innovative function. It is a leadership rather than an ownership. The process of innovation may be in the form of

- *Introduction of a New Product*
- *Use of a New Method of production*
- *Opening of a New Market*
- *The conquest of New Source of supplying Raw Materials*

Joseph A. Schumpeter.

The differences between a BOSS and a Leader

BOSS

- Enforces employees
- Depends on authority
- Empire: fear
- Placing blame for the mistakes
- Values how it's done
- Own people
- Threat, control, commands
- Says "No"

Leader

- Catches employees
- Depends on goodwill
- Invests in employees
- Says "Yes"
- Focuses on the individuals
- Gives how it's done
- Develops people
- Guides, coach, encourages
- Says "Let's go"

Industrial internet of things

Our Mission??

Message to new engineers

- Not to confuse customer by using **Big buzz words**
- Work on Ground reality and help customer to **improve production** in few months not in yrs.
- Educate customers to avoid **over engineering** and **unnecessary investment** in the name of IOT fashion
- Help customer to figure out their actual requirement and the **scope** of IOT solution
- Honesty and **Transparency** throughout our project discussions with customers.
- Work with customer like a **support person** and not always like a sales person.

WHY INNOVATION?

63% of companies are currently experiencing disruption, and 44% are highly susceptible to it.
Source: MIT Sloan Management Review, 2020

By 2022, innovation will be ranked #1 among the most important skills to be demanded by employers.
Source: World Economic Forum, 2020

India is poised to create US\$500 billion in new economic value by 2030 via innovation-driven by open digital ecosystems (ODEs).
Source: The Economic Times, 2020

Creative companies are more likely to report a commanding market leadership position with a higher market share than their competitors.
Source: Forbes, 2020

66% of Indian corporations believe design and innovation are crucial to their organisation.

SCOPE OF DT:

Who designed first manufacturable mouse for Apple?

IDEO

In 1980, Steve Jobs asked IDEO to develop a mouse for a radical new computer, the Lisa.

IDEO is a Global Design and consulting Company with offices in the U.S., England, Germany, Japan, and China. It was founded in Palo Alto, California, in 1991.

The roots of IDEO date back to 1978, when David Kelley established his design firm, David Kelley Design (DKD).

In 1991, David Kelley, Palo Alto, Bill Moggridge, and Mike Nuttall merged their companies and called it IDEO.

APPLICATIONS OF DT

An innovative, human-centered approach to problem solving — which can be applied to improve

1. Academics
2. Product Development
3. Service Development
4. Idea Generation
5. Entrepreneurial or personal pursuits.
6. Qualitative Research

Design Thinking has been used to solve complex problems across a broad array of industries including start-ups, business, healthcare, technology, government, the arts, and more.

Problem Solving and Design Thinking at its best. Govt. School Teachers Changed the whole Village into a School by painting the Walls into Blackboard to maintain Social distancing and Using Speakers to deliver the Teaching-Learning process in Dumka district, Jharkhand, India. Kudos to all the Teachers who have taken that Extra Mile to provide the best possible solution at this most pressing situation.

ASK - Engagement

Water wells installed by NGO's are not being used.

Through engaging in their environment,

The road to the water wells is long and the wells too far away.

SOLUTION

90 litre Hippo Roller enables user to collect 5 times more water than a single bucket + improved water access.

Dr. Niranjan Hiremath

University Industry Interaction Centre & REVA NEST in association with Institutions Innovation Council, REVA University organizes a

" Field/Exposure Visit to Pre-incubation units REVA For FAB LAB"

About Event

University Industry Interaction Center & REVA NEST in association with Institutions Innovation Council, REVA University organized **"Field/Exposure Visit to Pre-incubation units REVA For FAB LAB"** on 28th FEB 2022.

Agenda: Have the participants build a Fab Certificate within 3 hours while bringing awareness of all facilities available at the FAB LAB

Batch size: 20-25 participants per batch Following is the agenda for the day:

First Batch - 9:30am - 12:30pm,

Second Batch - 1:30pm - 4:30pm.

Details:

1. Welcome and introduction to the Fablab - 15 mins
2. Basic overview (presentation) of facilities available - 15 mins
3. Hands-on activities for the Fab Certificate - 60 mins
4. Demonstrations and designs for machines and tools - 60 mins
5. Introduction to startups and Innovators from WP - 15 mins
6. Snacks and networking - 15mins

Each element of the certificate will be made by each participant attending the orientation and will leave with their own unique and custom designed certificate of participation.

Each area of the lab will be stationed by FAB LAB facilitators who will guide the participants on the specific aspect of their certificate and help them achieve the outcome.

Examples:

- Logo could be laser engraved
- Text can be written by the plotter
- Signatures could be 3D printed
- Date could be made with Electronics

	Further programs Machine demo Photo sessions Simple Merchandising <ul style="list-style-type: none"> • Lab Launch and introduction • Orientation Program for 20 selected candidates • Networking session with 3 guests from WP Fab Lab Network Guest Details: <ul style="list-style-type: none"> ➤ Madhumitha, Intern (Mechanical Design), Final Year Mechanical Engineering, student From VIT, Vellore. ➤ Henry Debrey, 71 Years old Engineer from Colorado US, currently ay Work Bench Projects, Working on NPV Ventilators <ul style="list-style-type: none"> • Final video recording and photo session of all participants

awareness about cyber security, signaling & Transmission in
data communication.**

About Event	<p>University Industry Interaction Centre & Institutions Innovation Council, REVA University in association with School of Computer Science and Application Organized, Field Visit to BFS, Signaling & Training Division , Bangalore on 04th March 2022. BSF Team (Guarding India's boundaries round the clock) welcomed the students & faculty coordinators with much fervor and enthusiasm and explained the schedule of programme. BSF, CEDCO trainers briefed the activities of BSF training at Bangalore division. BSF Trainers engaged our students and imparted the importance of secure transfer of messages across the defense network, aspects of signaling, signal generation, Conversion of Analog to Digital signal, Transferring and Receiving of signals, Signal Jammers, Signal Repeaters, antennas..etc. with hands on training. BSF team recalled the long association between BSF (Signaling & Training, Bangalore) and REVA UNIVERSITY. At the end, Students benefitted and expressed their gratitude.</p> <p>The main objective behind the conduction of field trip was to create awareness about cybersecurity, signaling & Transmission in data communication. The visit was comprised of Three (3) faculty members and Thirty one (30) students.</p>

National Science Day 2022

School of Applied Sciences

Date: 9th & 10th March 2022

Venue: Kuvempu auditorium and Science block

National Science Day is a regular event which is practiced every year at REVA University to ignite the young minds towards science and research for the development of technology.

This year we celebrate the National Science Day was observed on 9th and 10th of March 2022, with the theme “Integrated approach in science and technology for a sustainable future”, declared by the Prime Minister of India Mr. Narendra Modhiji. It is a two days event inaugurated by our honorable Chancellor Dr. P. Shymaraju, The Vice Chancellor Dr. M. Dhanamjaya, The Registrar, Dr. N. Ramesh and the guest of Honour and key note speaker Dr. Shankaranarayana Rao BS, Registrar, NIMHANS, Bengaluru, witnessed the inauguration. To give the glimpse of life history of Sir. C. V. Raman a documentary was played during the inaugural event. Followed by various activities like Quiz, Collage, Model making, Spell Bee, Painting, Debate, Documentary, Idea competition and Science charades were organized parallely around a central theme.

About **200 student participants** from various institutions like Indian Academy of Sciences, Acharya institutions, KLE group of institution, MES, Jain University, Kristu Jayanti College, BMSCW, Presidency University, etc including REVA University participated in various competitions and won the prizes. The valedictory started by the address by the Guest of Honour Dr. A.B Halgeri, Director, Poornaprajna Institute of Scientific research, Bangalore. Vice Chancellor, Dr. M. Dhanamjaya and registrar Dr. N. Ramesh, graced the occasion. The event was concluded by the prize distribution to winners.

REVA University Organized an “Ideathon 3.0”

About the event

REVA University organized an Ideathon 3.0 Competition on 16th March 2022. Students to develop a culture to encourage people to think out of the box. Ideathon 3.0 provides a platform for All colleges and University students of pan India to unleash their creativity and collaboration skills, two vital skills for future learning and career development, through coming up with ideas and building the product collaboratively. Providing opportunities to bridge the gap between student and the external world to make students capable to face the corporate competitive environment. Students can show their talents while utilizing their skills, enhancing their knowledge and working capabilities and hence they can redefine their limits.

About the Ideathon 3.0:

All the great inventions were once a mere Idea. An idea that changed the world forever. Students challenge themselves to create something new and to take ownership of what they create. These are important but often neglected experiences. The purpose was to D'code Your Thoughts and trade it.

Objectives:

- To contribute to the creation of a culture of accessibility.
- To motivate students to think about accessibility issues and to include accessibility in their creation of social and technological innovations now and in the future.
- To develop cost-effective, practical and innovative concepts, programs, initiatives or designs that address everyday accessibility issues

Outcomes:

- To inspire students to use their creativity to develop innovative, cost-effective and practical solutions to accessibility-related issues making communities more accessible for persons with disabilities.

	<p>Theme of Ideathon</p> <ul style="list-style-type: none"> • Smart City, Transportation & People. • Protect the Mother Earth. • Rural Education & Livelihood Improvement. • Technology in Agriculture. • Health, Hygiene & Food Security System. • Innovation in Space, Defence, Robotics & Cloud Computing. <p>The event conducted through online, colleges and universities from all over India participated on this Event and Event Inauguration done by our REVA Dignitaries Chancellor, Vice Chancellor, Registrar, Dean and Directors.</p>

Students Ideas Details to prepare Business Plan and Wayforward Plan			
SL No	Student Name	School	Idea
1	Ritesh Rao V	ECE	I want to develop an automobile system which automatically controls the speed of the vehicles based on the speed limit sign using rf and microcontroller.
2	Mohammad Ismail	ECE	I have an idea of creating web/ app for REVA like REVA social media where u can post the things inside REVA and so many people don't know what is going on in the REVA and it's only for REVA students and students in the sense passed out students can Share their experiences to the future students.
3	Yashawanth K S	ECE	Will definitely start thinking about a new and innovative idea which will be helpful for the society
4	Pradeep Kumar TN	ECE	Implementing a study abroad platform for international students by linking colleges and universities from entire world without interfere of third party.
5	Gagan Deep G B	EEE	Yes, on advertisement To make some adds creative and interesting
6	Dhananjay B Patel	Mechanical	Yes, have an idea on hydrogen resource. But can't get an idea how to start from
7	E akhil	Mechanical	Idea is about to develop a app regarding automobile spare parts for both two wheeler and four wheeler, where we can support customers by connecting to various automobile spares shops agents so that it will be helpful for customers to choose spare parts by checking in app it saves time and they doesn't need to go shop to shop to enquiry about spare parts
8	Harshitha G S	CSA	Want to build platform to integrate Indian textile and natural fabrics

9	SANTHOSH K	CSA	For now no idea about becoming an entrepreneur. But I always have an thought about it..may be in future. It may happen.
10	Santhosh Reddy N	CSA	My innovative idea about "Dairy Brain" - towards Digitalization, which consists of Advance Data Analysis - Day to day milk collection, society administration, dairy farming, etc. By using all this Creating Identity for Farmers, creating opportunities, smooth farming.
11	Rupesh Reddy A	CSA	Sensor tap mobiles
12	Vibha J	C&IT-ISE	Yes, I feel that to become an entrepreneur, proper communication and leadership skills is one of the important skill
13	LIKITHA AK	CSE	I WANT TO SAVE A PERSON'S LIFE BY IMPLEMENTING SOMETHING LIKE AN APPLICATION SO THAT WE CAN SAVE ONE PERSON LIFE.
14	K N V Gagan	C&IT-ISE	To setup an organics company of anything.... Maybe Vegetables, Fruits and everyday products and eatables. And be in favour to the farmers.
15	Abhishek Mandal	C&IT	Yes... I want to build my own company in software and with help of my other friends I want to go in hardware too...
16	B.Saipriyadarsini	C&IT	An app to deliver forgotten items back to the customer
17	Bhargavi sv	Civil	Yes we are gonna start coffee cafe its name miss India coffee the company name is Miss India Coffee ☕ cafe Got inspired by miss India movie Which is acted by Keerthi Suresh We are gonna start in India we are gonna spread dis all over the world India UK USA That's the. Only plan I have Thank you 😊
18	Kb bharath	CSE	To make a device to store data and can use when ever want
19	Lokesh kumar	CSE	Yes about cabs
20	Vivekanand	CSE	Yes I want become entrepreneur.....from birth I want to build designing industry with all types of graphic design with multiple stores over India and with e commerce..... Aim is to recognise me in the world as maharishi Vivekananda.....
21	Sahanakarishetti	CSE	Sir there is a thought called 'Suspended food'. But .I just don't know how to bring it into the existence ...
22	Saravana Kumar D.C	CSE	Live BMTC bus tracking software
23	K Gayathri	CSE	Yes about life technology
24	Priya t	CSE	Yes, like a experiencing myself for 3 to 4 yrs. in companies, so that we can come across some ideas and by including few members who r interested and starting a company like a small office first and then making it big.

25	Darshan Rao MH	CSE	I want to become entrepreneur by constructing my own Hotel, and that is my dream. I have few idea but still lacking of idea so would u help to or suggest me some idea?
26	Hitaish K G	AI and DS	Cold storage chains. India has a lack of cold storages everywhere, may be a city or rural place. Due to this shortage there is a sever effect on the supply chain of products. There are multiple products that need cold storage facility and are currently facing problem. It may be from vegetables to medicine majority of the product's supply chain will be benefitted with cold storage chain.
27	Aryan Sinha	Mechanical	Yes, I always wondered why display manufacturers discard the small strips of display while manufacturing, so I wanted to pitch an idea to the manufacturers to use the display strips as high quality display strips that can be used anywhere.
28	Sai Tarun HK	Mechanical	wanting to start a company where we can build EV vehicles in the future because evs are the next generations of vehicles
29	Eshan Deepak	Mechanical	I have a an innovative idea to come up with a hybrid engine where the the electric part of the engine is the main component and the mechanical engine is the secondary part
30	C M VINOD KUMAR	Mechanical	Yes I have many ideas in improving our nation and our society but as of now I am working on how to stop and reduce the pollution from vehicles that is part of 46.2% of the world's pollution. I have created a project concept in which it can stop the pollution and also help people in getting income by simple mean as they are the key role in the project.
31	Syed Arfan Sahil	Mechanical	<p>As our REVA University uses electricity consumption, It would be really nice for implementation of Solar Energy Power Plants. (If there's already any Solar plant in REVA University I did not have any idea, so please pardon me!)</p> <p>I specifically don't have an idea at the moment, but i would really like to start something innovative on renewable energy sources like the best one is Solar Energy.</p> <p>As our country receives the most amount of sunlight when compared other nations.</p>

32	Tejas S	Mechanical	<p>Affordable and easily accessible HCI (Human computer interface) I'm currently working on EMG (Electromyography), for now I've assembled a simple basic emg circuit On a bread board... I plan on making a multi-channel wearable emg sensor... And why is this useful? It has mostly been used in the medical sector to assess health of muscles and the nerve cells... But in our case.. This wearable portable emb band that can detect the position of each individual fingers.. So it can be used to to make robotic prosthetics move acc to the will of the wearer.... And can also be used for VR Gaming... Which I believe will be a larger market than prosthetics.... So the plan in the broader sense is to make non-invasive human computer interfaces accessible and affordable.. Especially in India...</p> <p>All this aside the prosthetics part of the business can have a charity aspect to it.. As in..people can donate and help us donate a prosthetic arm to an amputated person who is not able to afford one.. Even though we plan on making them extremely affordable as all bionic designs have been open sourced for years and 3d printing being cheaper than ever.</p> <p>HCI (we focus mainly on EEG and EMG)</p> <p>I have more ideas of how we can possibly get this to work... I hope y'all like my idea.</p> <p>THANKYOU.</p>
33	Kishan Ramesha	Mechanical	<p>Yes!</p> <p>I've an idea of automated vehicle issue detection and mechanical repair.</p>
34	Dhanush m	Civil	<p>*Subscription boxes</p> <p>*Virtual reality accessories</p> <p>*Nostalgic restaurants</p>
35	Sridhar p	Civil	I have a one idea regarding Vegetable cart vehicle
36	Varun Pillay	Civil	Idea is to give implement
37	Bushitraj M.S.	Civil	<p>I want to build a company which hosts websites based on AI</p> <p>IK there are many other company's which are already doing the same but I want to stand out</p> <p>Even though this is just a side hustle I want to give it a try</p>
38	Pavan Kumar K V	Civil	I have an idea but i can't share now because if somebody worked on it means my idea will be flop
39	Omkar	Civil	<p>I want to start my own construction company I steel want to come up with ideas and seek knowledge I want to try to come up with the ideas in which atheist in minion cast a good quality homes , roads or any basic needs of a person can be fulfilled.</p>

40	AFEED SHARIFF	Civil	<p>Well, Thank You Very Much For Providing An Opportunity To Showcase My Idea.</p> <p>There Are No Proper Start-ups In Construction Field. Construction Field Has A Lot Of Potential As India Is A Developing Country. I guess You Might Know About Urban Clap Company, They Provide Services All Over India With The Help Of Professionals In Their Respective Localities. Construction Field Is A Very Diversified Field, To Construct A Building You Need Workforce From Many Fields like Labours, Electricians, Plumbers, Engineers, Architects, Suppliers and many more people. It Be Amazing As Well As Profitable If We Tap Onto This Idea And Connect All The Above People Together From All Over India Through An Application Or Website To Provide Them With Jobs.</p>
----	---------------	-------	--

Idea Presentation on 26th March 2022 IDEathon for Girls				
SL NO	Team Lead's Name	Course (AIML/SE/ISE/CSIT)	Semester with Section	Idea / Methodology / Approach to solve the problem
1	Shraddha KB	CSIT	4 B	Reusing the plastic bottles to grow aquatic plants and selling them at a very reasonable price ,
2	Lahari VS	CSIT	6A	Smart ATM machine using Firebase for database
3	Dhathri vyshnavi	AIML	4 B	We wanted to invent a portable device which helps not only women's but everyone in there critical situations and coming to the device it is very easy to carry for anyone which helps them like sharing the location and problem to nearby rescue teams so they can be protected before losing something
4	AMMINENI VARSHITHA BHASKAR	AIML	4:00 AM	Application/website which will share the location in case of emergency to the numbers registered in the website or application
5	K.sai Deepthi	CSIT	1 B	We can give a self-motivation to women
6	Afraah Ayub	AIML	4:00 AM	Many students who are physically challenged have to arrange for a separate person to write their exams and sometimes If the person doesn't turn up they won't be able to write their exam. So an app can be developed which has voice input where the students can write their exam through their voice. Students just have to answer the question by talking and the application will write the

				answer through the voice input code just as we do in Google assistant.
7	Deepika B G	SE	4 'A'	Fingerprint signing technology
8	Bindhushree M	CSIT	6 'A'	Basically it's on how to solve cybercrime, online stalking, many social issues like acid attack ,rape ,harassment encourage them to come forward and to tell these incidents also teaching them self defense how to secure themselves through an app/web application
9	Shruthi siva	AIML	4 'A'	As we know usually when we go to banks we have to wait in long queues to get our job done.. So I would like to development an application which allows us to select a particular time slot (like booking an appointment). By this we can reduce the crowd and it is also beneficial for a particular individual. This will allow us to go at the particular chosen time slot to the bank and get our job done faster.
10	Mahima BK	AIML	4 'A'	An app which tells the weather forecast for next five days and contains information about crop production, crop protection and about fertilizers. Also contains information about market prices for each crop in regional languages.

Approved by AICTE, New Delhi

**INSTITUTION'S
INNOVATION
COUNCIL**

(Ministry of Education Initiative)

School of Architecture
In Association With
University Industry Interaction Centre organized a Skill
Development Programme on
"Fundamentals of Entrepreneurship "

About the event (Max. 500 Words)	The Skill Development Programme is a well-structured programme which is organised to impart knowledge to the students on Entrepreneurship, its fundamentals and enlighten them on the journey of an Entrepreneur. The main aim is to enlighten the students on what an entrepreneur may have to endure and later the gains/accolades/satisfaction that he earns. The main intention of the programme is to familiarize students with various concepts used in understanding processes involved in entrepreneurship and business formation and development. Provide context to those processes in the form of differences between small and large firms, and the economic environment. Introduce key debates around entrepreneurship and small businesses and provide evidence which informs those debates.
Organized By	School of Architecture & University Industry Interaction Centre, REVA University
UIIC / IIC Coordinator Name	Ms. Arshiya Ambreen
Start Date	17.03.2022
Targeted Audience (School Name)	8 th Semester Students of School of Architecture.
No. of Students Participated	39
No. of Faculty Participated	2

Total Participants	41
Outcome of the Session	<ol style="list-style-type: none"> 1. Understand theories of entrepreneurship and business development 2. Understand the key resources required to develop an existing business such as ideas and finance, launch a new venture, or initiate a business enterprise. 3. Be able to state, understand and evaluate the key factors needed to develop a successful business. 4. Understand the central role of opportunity recognition and marketing to business development. 5. Understand the creation of business sustainability

University Industry Interaction Centre organized a session on

“Intellectual Property Rights (IPRs) and IP Management for Start-up's ”

About the event (Max. 500 Words)	The Programme was organised for the students and faculty members who would like to have a start-up of their own. The whole session was designed and planned to cater to the queries and reduce the anxiety of the upcoming entrepreneurs. The Attendees were given a brief introduction of all the IPs, where a little more emphasis was given to the ways in which one could protect their IPs. The speaker of the session was Mr. Rathan, an experienced in the same field.
