Dear Dr. Shrikanth Tangade,

Congratulations!!!!

We are glad to inform you that your PhD Thesis *"TRUST MANAGEMENT SCHEMES FOR SECURED COMMUNICATIONS IN VEHICULAR AD HOC NETWORKS (VANETS)"* has been selected for **BITES Best PhD thesis Award** for the year 2019, jointly with Dr. Tanweer of Manipal Institute of Technology in the category of Electronics & Communications Area.

The award carries a cash prize of Rs. 12,500/- (i.e., 50% of Rs. 25,000) and a certificate.

We are planning to organise an Awards function *(either physically/virtually considering the pandemic situation)* during next month, we will let you know the details shortly.

Best Regards

Top Postgraduate Data Science Programmes In India – AIM Ranking 2021

By Kashyap Raibagi

The MBA in Business Analytics offered by the REVA Academy for Excellence scores the highest in the RoI sub-index with 0.96. While the course costs more than five lakhs, the median salary package for graduates placed through the program get a median salary of around 30 lakhs.

INSOFE's Post Graduate Program in Computational Data Science ranks 2nd in the RoI subindex with a score of 0.94. The course fees are 4.45 lakh when the median salary from its placements is around 12 lakhs. The course, however, has a slightly lower placement ratio, with only 80% of the eligible students from the previous batch getting placed.
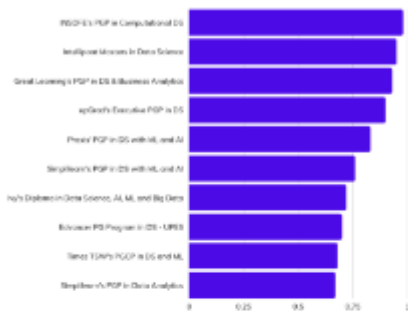

WileyNXT, in association with IIM Lucknow or IIM Roorkee, runs four programs, all of which make it to the top 10 in the RoI sub-index. In the third position is their Executive Program in AI for Business with a score of 0.91. While the course costs somewhere around 1.5 lakhs, the alumni of their course have a package between 7 lakhs to 50 lakhs. The institute only provides assistance when it comes to placements and 100% of their students have jobs after completing the course. Similarly, in the fourth position is their Executive Program in Strategic HR (0.86), previously known as Executive Program in Talent Analytics and Human Resource Management. It earns graduates a salary ranging between 13 to 107 lakhs.

With a 0.83 score in the RoI, the Executive Post Graduate Programme in Data Science offered by upGrad stands at the 5th position within the sub-index. While the course costs three lakhs, leading to an average placement offer of only 7.2 lakhs per annum, some students have seen pretty high placement offers.

The upGrad course is followed by the other two WileyNXT courses with almost identical scores of 0.79. One of them is conducted in affiliation with IIT Roorkee Lucknow. This Post Graduate Certification Program in AI for BFSI leads to its graduates earning between 10 lakh and 42 lakh after paying a fee of around 1.25 lakhs. The other is an Executive Program in Data-Driven Product Management. The salary of these alumni ranges somewhere between 16 to 30 lakh for a fee of 1.9 lakhs.

Finally, the Edvancer's Advance Certification Programme in AI & ML in association with IIT Kanpur and the MSc Data Science offered by the Pune campus of Christ University score 0.76 and 0.69, respectively.

Programme Success

A program's success can help prospective or interested students to know whether it has worked for students before. The number of batches conducted, and the number of students who graduated as a part of it can indicate the program's success. In this section, we will analyse how successful the programs have been since their inception.

INSOFE's PGP in Computational Data Science ranks the highest in Program Success with a score of 0.98. The program has successfully conducted almost 100 batches for which more than 3800 students have enrolled, of which 3500 have completed the program. The program has also successfully made several collaborations with different institutions and companies that can benefit from it. Students who opt for this program have the option to transfer credits for 11 Master's programs with top-ranked universities and gain lateral entry into 2nd sem directly.

In the second position comes Intellipaat's course Masters in Data Science (0.95). The certification program has completed more than 435 batches. Around 17,400 students have enrolled on this program, 70% of whom have graduated.

The PGP in Data Science & Business Analytics offered by Great Learning also scores very well (0.93) in the Program Success to rank third within the sub-index. With almost 150 batches now conducted, the program has been completed by more than 7000 students. These students constitute around a third of the total enrolled, which shows a lower completion rate.

With a score of 0.90, upGrad stands 4th in the subindex for its Executive Post Graduate Programme in Data Science. The online course has completed 24 batches graduating more than 7500 students. It has collaborated with The Math Company that benefit its students.

At fifth, we have the Praxis Business School for its Post Graduate Program in Data Science with ML and AI with a score of 0.83. The course has completed 24 batches, for which more than 800 students have enrolled. The course also has a high completion rate of 83%.

Simplilearn's Postgraduate Program in Data Science and Ivy Professional School's Diploma in Data Science, AI, ML and Big Data come in at the sixth and seventh positions, respectively, within the sub-index with a score of 0.76 and 0.72.

This is followed by the PG Program in Data Science offered by Edvancer (0.70), Post Graduate Certificate Program in Data Science and Machine Learning offered by Times TSW (0.68), and Post Graduate Program in Data Analytics by Simplilearn (0.67).
