### Importance of Tree Plantation:

- Trees are important for us to live in. Tree plantation alludes to planting trees at a spot. Tree plantation has many advantages for the earth and our well-being. We as a whole inhale oxygen to live, and trees are the main characteristic source of oxygen.
- Tree plantation guarantees that the supply of oxygen never ends.
- Tree plantation additionally urges vegetation to develop. Birds make their homes in the trees, subsequently adding to the beauty of nature.
- Birds additionally scatter seeds and pollen on the ground, resulting in the development of different plants. So, tree plantation expands the bio-diversity of a specific region.

Importance of Tree Plantation:

- Trees are important for us to live. Tree plantation alludes to planting trees at a spot. Tree plantation has many advantages on the earth and our wellbeing. We inhale oxygen to live, and trees are the main characteristic source of oxygen.
- Tree plantation guarantees that the supply of oxygen never ends.
- Tree plantation additionally urges vegetation to develop. Birds make their homes in the trees, subsequently adding to the beauty of nature.
- Birds additionally scatter seeds and pollen on the ground, resulting in the development of different plants. So, tree plantation expands the bio-diversity of a specific region.

## National Service Scheme (NSS)/ School of CSA

Venue: Gadenahalli

Date: 27<sup>th</sup> June

Year: 2022

Description of Event:

The NSS Unit, of REVA University in association with School of CSA had organized "Tree Plantation" in Gadenahalli Village, Bettadalsur Grampancyath.

Planted around 750 saplings namely Mahagani, Honge, Mavu, Jambu Nerale, Pannerale, Nagalinga puspa, Kadu Badami, Bevu on Monday 27<sup>th</sup> June 2022 from 10.00 AM to 15.30 PM. 110 students and 20 staff members from School of CSA, REVA University, participated in this event.

The staff members participated in the drive enthusiastically and helped each other in planting the saplings. All the saplings were planted in the Gadenahalli Lake.

Chief Guest Shri . Vijay Singh , Chief Security officer , ITC limited and Gadenahalli Gram Pancyath members.

Highlights of programme:

- Tree plantation is significant because it is linked to our basic need for good food to eat and clean air to breathe. Aside from these necessities, they preserve biodiversity, conserve water, preserve soil, and control climate, among other things.
- Tree plantation is important because it provides fresh fruits, vegetables, nuts, and other foods for the survival of life on Earth. They are the producers and the source of food energy for all living things to survive, as they are at the bottom of the food chain. Aside from this basic need, tree plantation is important for humans to meet their medicinal needs, fodder for domestic animals, household tools, fuel, and so on.
- Trees provide clean air for living beings to breathe and generate energy. The importance of plantations for a healthy life free of suffocation and pollution cannot be overstated, particularly in urban areas.
- The importance of tree plantation in preserving biodiversity and balancing the ecosystem cannot be overstated. Trees provide a natural habitat for many different species. A diverse and healthy ecosystem revitalises the land and life on Earth.
- Trees are also known for their ability to hold soil and prevent erosion.
- The topsoil of the earth is washed away by water during rain and floods. The roots of the trees play an important role in preventing erosion of the topsoil.
- Because trees absorb carbon dioxide from the atmosphere, tree plantation is the most effective organic method for reversing global warming and preventing climate change. In recent years, particularly since the 2015 Paris Agreement on Climate Change, the importance of tree plantation has grown significantly in many countries.

## School National Service Scheme (NSS)/ School of Architecture

Venue: REVA University –School of Architecture

Date: 28<sup>th</sup> June 2022

The School of architecture has distributed the tree saplings to students in the concept of “one plant for one student” REVA VANAMAHOTHSAVA on 28.06.2022. Photos of the plantation has been uploaded in app.

Note: Total number of saplings distributed = 71

To build a greener city, REVA University is taking initiative to plant 15,000 saplings in and around Bengaluru through the tree plantation drive ‘REVA Vanamahotsava’, a REVA initiative for a cleaner and a greener nation.

Through the campaign ‘One Student, One Tree’ under REVA Vanamahotsava, the University aims to instill a sense of responsibility in students towards Mother Nature. Going forward, every new student taking admission at REVA from the academic year 2022-23 will plant a sapling.

With 15,000 students studying at the University, REVA aims to plant 15,000 saplings by the year 2022. As part of the mission, in the first phase, students residing at REVA Hostels, and faculty members of REVA, will be roped in to plant around 3,000 saplings. The plantation drive will be carried out in association with the BBMP, and saplings will be planted in pockets of forest areas, where there is lack of greenery.

Eventually, REVA will assign each student a sapling and a mentor will be allocated to carry out this initiative successfully. The University aims to plant 15,000 saplings with the help of mentors by August 2022.

Year: 2022

Description of Event:

The NSS Unit, of REVA University in association with School of EEE had organized "Tree Plantation" in Gadenahalli Village, Bettadalasur Grampancyath.

Planted around 400 saplings namely Mahagani, Honge, Mavu, Jambu Nerale, Pannerale, Nagalinga puspa, Kadu Badami, Bevu on 27<sup>th</sup> July 2022 from 10.00 AM to 15.30 PM. 110 students and 20 staff members from School of EEE, REVA University, participated in this event.

The staff members participated in the drive enthusiastically and helped each other in planting the saplings. All the saplings were planted in the Yediur.

Highlights of programme:

- Tree plantation is significant because it is linked to our basic need for good food to eat and clean air to breathe. Aside from these necessities, they preserve biodiversity, conserve water, preserve soil, and control climate, among other things.
- Tree plantation is important because it provides fresh fruits, vegetables, nuts, and other foods for the survival of life on Earth. They are the producers and the source of food energy for all living things to survive, as they are at the bottom of the food chain. Aside from this basic need, tree plantation is important for humans to meet their medicinal needs, fodder for domestic animals, household tools, fuel, and so on.
- Trees provide clean air for living beings to breathe and generate energy. The importance of plantations for a healthy life free of suffocation and pollution cannot be overstated, particularly in urban areas.
- The importance of tree plantation in preserving biodiversity and balancing the ecosystem cannot be overstated. Trees provide a natural habitat for many different species. A diverse and healthy ecosystem revitalises the land and life on Earth.
- Trees are also known for their ability to hold soil and prevent erosion.
- The topsoil of the earth is washed away by water during rain and floods. The roots of the trees play an important role in preventing erosion of the topsoil.
- Because trees absorb carbon dioxide from the atmosphere, tree plantation is the most effective organic method for reversing global warming and preventing climate change. In recent years, particularly since the 2015 Paris Agreement on Climate Change, the importance of tree plantation has grown significantly in many countries.

## Reva varsity launches 'One student, one tree' drive

STAFF REPORTER  
BENGALURU

To mark the 75th Independence Day, REVA University has launched 'One Student, One Tree' campaign. It will hold a year-long Independence Day-themed celebrations.

REVA University will plant 15,000 saplings in various parts of India by August 2022, starting from Bengaluru through the tree plantation drive 'REVA Va-

namahotsava', an initiative for a greener nation. Each school will celebrate the spirit of a free country through an event every month until the Independence Day in 2022, stated a press release.

In the first phase, students residing at REVA hostels and faculty members of REVA will be roped in to plant around 3,000 saplings. The plantation drive will be carried out in association with the BBMP.

**School/Department:** NSS/NCC Unit, REVA University

**Venue:** Basket Ball Ground, REVA University

**Date:** 25<sup>th</sup> November

**Year:** 2021

**Description of Event:**

The NSS & NCC Unit, REVA University, Bengaluru had organized " Selection of "National Service Scheme and Civil Defense Volunteers" on 25.11.2021 at 9.00 AM to 3.00 PM at RU Basket Ball Court.

**Col Nataraj Kuppasad, Director (Admin)**, address the volunteers and motivate the students to join NSS and Civil Defense

**About National Service Scheme (NSS)**

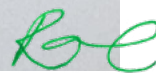

The National Service Scheme (NSS) is a Central Sector Scheme of Government of India, Ministry of Youth Affairs & Sports. It provides opportunity to the student youth of 11th & 12th Class of schools at +2 Board level and student youth of Technical Institution, Graduate & Post Graduate at colleges and University level of India to take part in various government led community service activities & programmes. The sole aim of the NSS is to provide hands on experience to young students in delivering community service. Since inception of the NSS in the year 1969, the number of students strength increased from 40,000 to over 3.8 million up to the end of March 2018 students in various universities, colleges and Institutions of higher learning have volunteered to take part in various community service programmes.

**About Civil Defence**

Civil defender civil protection is an effort to protect the citizens of a state (generally non-combatants) from natural disasters. It uses the principles of emergency operations: prevention, mitigation, preparation, response, or emergency evacuation and recovery. Programs of this sort were initially discussed at least as early as the 1920s and were implemented in some countries during the 1930s as the threat of war and aerial bombardment grew. It became widespread after the threat of nuclear weapons was realized.

National Service Scheme/NCC Unit, REVA University conducted a selection process for the Academic Year 2021-22. The selection process was based on the written exam and Personal interview for NSS selection.

written exam, physical fitness and interview for civil defense. The selection was conducted on 25<sup>th</sup> November 2021. More than 600 Students participated in this selection.

To gain physical fitness and it is vital to prioritize the activity that gives us the most significant health benefit with increasingly busy lives. Working out at a gym might appear less than desirable after a day of sitting at a desk in the office. Therefore, it is not surprising that an increasing number of people are beginning to ditch the gym and have started hitting the trails to enhance their health. Moreover, the great news is that just half an hour of walking or hiking can make a fantastic impact on your health.

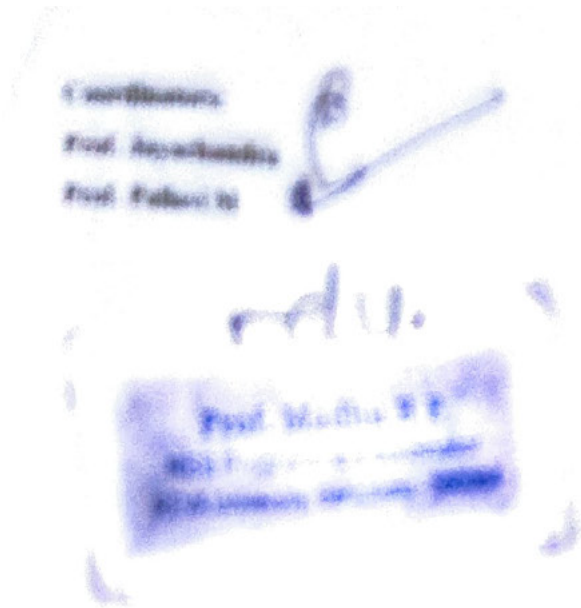

#### Highlights of Adventure Camp

- Adventure Camp is a place where campers spend time in the outdoors, challenge themselves, and make new friends.
- Adventure Camp strives to create a supportive, growth-oriented community where campers encounter challenging new experiences and enjoy time in the outdoors.

## Report on “World Bicycle Day”

**School/Department:** National Service Scheme (NSS)/NCC/Department of Physical Education and Sports

**Venue:** REVA University Main Gate to Akkayamma Betta Via Bagalur

**Date:** 11<sup>th</sup> June

**Year:** 2022

### Description of Event:

We are happy to inform you that, the Department of Physical Education and Sports, NCC, and NSS are jointly organizing "World Bicycle Day" on 11th June 2022 with the theme of **Eco-Ride-Bicycle is a Symbol of Sustainable Transportation Fostering the Message of Sustainable Consumption and Production. Time:** 6.15 A. M. to 9.00 A. M.

cycling for its myriad benefits to health and the environment, including increasing physical activity, reducing non-communicable diseases such as cancer and diabetes, and decreasing air and noise pollution. Like governments worldwide, it also recognizes cycling as a facilitator of achievement of many Sustainable Development Goals, including those on education, energy, employment, cities and inequalities. The underlying premise is that in order to unleash the potential of cycling, roads must be safe. In line with World Bicycle Day.

### Importance of Bicycle day

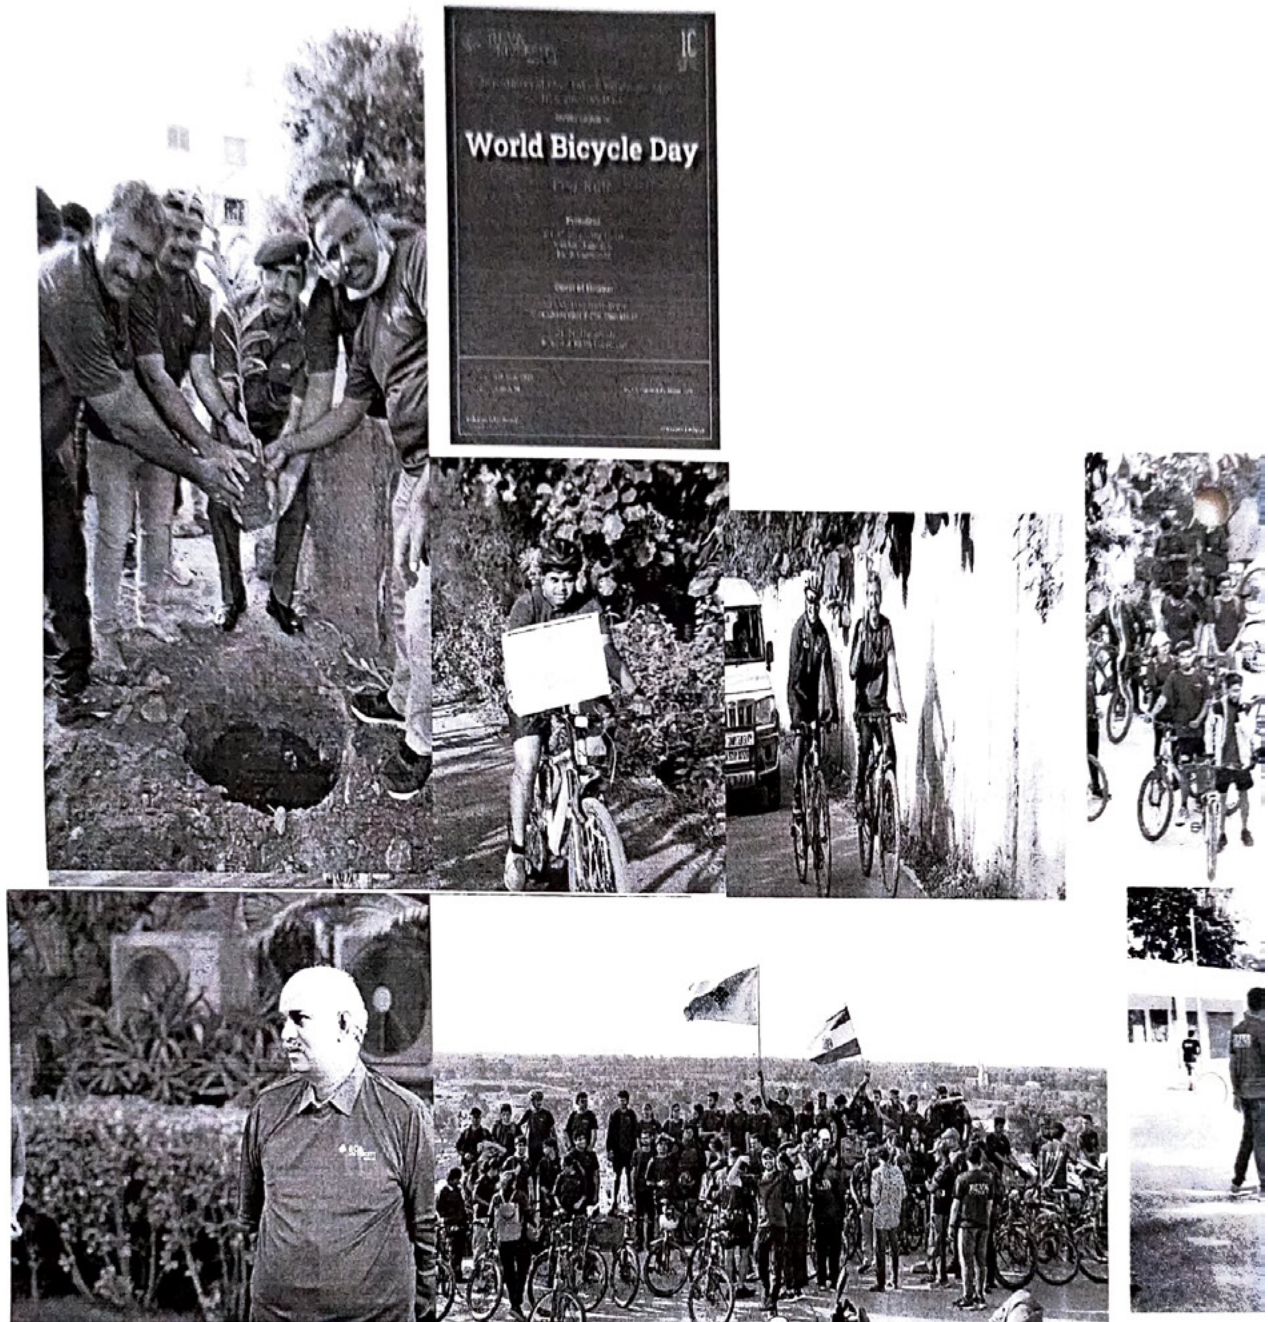

Cycling is a kind of aerobic activity in which the heart, blood vessels, and lungs all get a workout. It will increase the overall fitness level by experiencing increased body temperature via cycling.

- It increases muscle strength and flexibility.
- It decreases stress levels.
- Increases cardiovascular fitness.
- It improves the mobility of joints.
- It improves posture and coordination.
- It strengthened bones.
- It helps in decreasing body fat levels.
- It helps in the prevention or management of diseases.

- Obesity and weight control.

Therefore, World Bicycle Day encourages that cycling is a great exercise, environment friendly, and enhances the fitness level and well-being

**Report on BLOOD DONATION CAMP**

**On 22<sup>nd</sup> MARCH 2022**

**School: NSS Unit of School of Mechanical Engineering, School of Civil  
Engineering, and School of Computer Application**

**Venue: Sir M V Block and C V Raman Block**

**Date: 22/03/2022**

Blood is the most significant gift of life that a person can give to others. Donated blood is always life-saving for people who have lost a significant amount of blood due to various reasons like serious injuries, surgical procedures, medical conditions, etc. Therefore, the all-time availability of blood in blood banks has become a prime concern for society.

**The need for blood**

As blood can be stored for shorter period of duration, there is a constant need of blood donation to have an adequate and safe supply of all blood groups in time of need. Each donor contributes significantly to meet the challenge of accessibility and affordability to patients by making it available whenever and wherever wanted.

Not only it helps saving lives, but also plays a vital role in improving health of a donor.

Blood should be accepted only from voluntary, non-remunerated, low risk, safe and healthy donors. Replacement of donors should be phased out.

Due to the unprecedented Covid 19 situation, there is a huge demand of Blood in many Hospitals including Narayana Hrudayalaya.

In view of all the above reasons, A Blood donation camp was organized by **school of Mechanical School of civil engineering and School of Computer Application** on 22/03/2022. The Blood donation camp was organized **in association with Narayana Hrudalya.**

The students and faculties Participated voluntarily in this cause and regarding this effective awareness campaign was created among student's community well in advance, as a result **more than 703 units of Blood was collected.**

Along with the Blood donation camp, free **medical checkup** was conducted to all faculties on the next day i.e. 19/03/21. It included Sugar test, BP test, BMI, Hemoglobin test, and ECG test. More than 125 staff members made use of the facility.

The arrangement for all the above activities was done systematically and the volunteers served their best to conduct the program with social distance and Covid 19 norms. The huge turnout was due to the effective communication carried on by our volunteer student groups in all classes and digital awareness campaign in social media.

We would like to thank our beloved Chancellor, Dr. P. Shyama Raju for providing all facilities and support to conduct this program. Also, we thank VC sir and Registrar sir for their continuous support.

We also thank all the directors for their constant support and always motivating us to organize such events in School of ME.

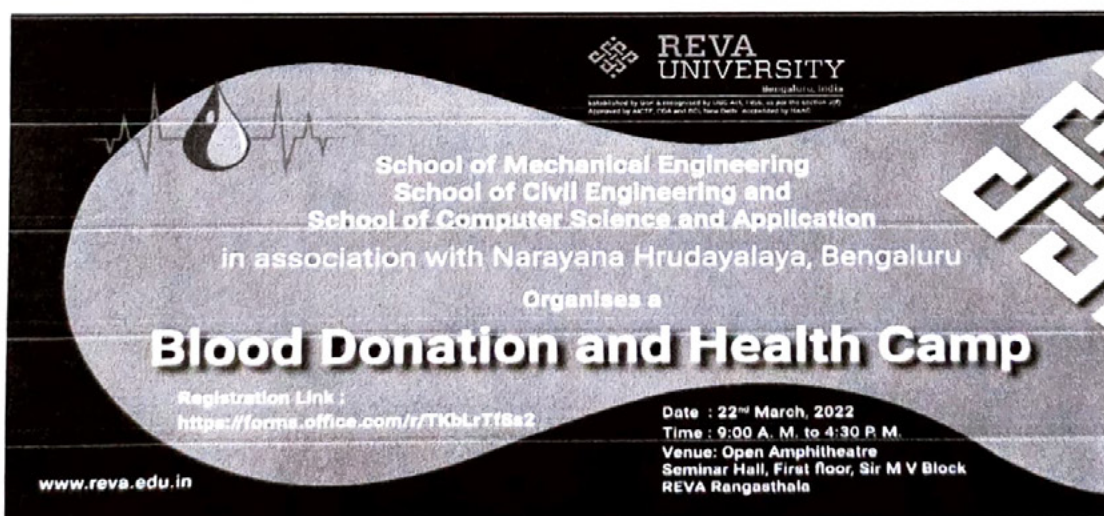

We also thank all the faculty members of our school and Students for their active participation

#### Note:

The data base of all 950 donors is prepared and segregated according to their blood group. It includes name, mobile number and Blood group of the donors (Excel sheet is attached along with this report). The data is stored for the future use of needy People. The data base includes the following blood group

**Venue: First Floor Seminar Hall, Sir M V Block**

**Date: 23/03/2022**

This is to bring your kind notice that, the School of Mechanical Engineering, School of Civil Engineering, and School of Computer Science and Application in association with Narayana Hrudayalaya, Bengaluru is organizing **“Cardio Health Checkup for Faculty and Staff”** on 23<sup>rd</sup> March 2022 at Seminar Hall, First floor, Sir M V Block from 10.00 am to 4.00 pm

It included Sugar test, BP test, BMI, Hemoglobin test, Eco and ECG test. More than 209 staff members made use of the facility.

A number of health issues are common around the globe. Disease is one of the most common. According to GlobalIssues.org, approximately 36 million people die each year from non-communicable (i.e., not contagious) diseases, including cardiovascular disease, cancer, diabetes and chronic lung disease.[29]

Among communicable diseases, both viral and bacterial, AIDS/HIV, tuberculosis, and malaria are the most common, causing millions of deaths every year.[29]

Another health issue that causes death or contributes to other health problems is malnutrition, especially among children. One of the groups malnutrition affects most is young children. Approximately 7.5 million children under the age of 5 die from malnutrition, usually brought on by not having the money to find or make food

## Report on

# “SAVE SOIL AWARENESS PROGRAM- 2022”

**School/Department:** National Service Scheme (NSS)

**Venue:** Kalpana Chawala Seminar Hall.

**Date:** 13th April, 2022

**Year:** 2022

### Description of Event:

We are happy to inform you that, with reference to the above subject, NSS unit REVA University is organizing “SAVE SOIL AWARENESS PROGRAM-2022” for staff and girl students.

**Motive:** “REVA for soil-Commitment to Save Soil Movement because we feel it is our responsibility as human beings to leave behind a beautiful,vibrant,fertile planet that can sustain the lives of future generations and all life around us.”

Program started at 11:00 A.M all NSS Volunteers were involved in the program, it started with candle lighting by our honorable Chancellor, Dr.P. Shayma Raju Sir and vidya mam save soil speaker, then we had an inspirational speech to challenge the future in a positive way by chancellor sir.

### Guestes-Save Soil Volunteers:

Save Soil Volunteer and Speaker:- Vidya T.

Save Soil Volunteers:- MandakiniSridhar, Krishnaveni,Shreyas.

Then Save soil volunteers and speak Vidya Mam initiatedthe save soil awareness program.

### Brief information:

We have already lost over 50% of the world's agriculturalsoil-the source of 95% of our food, and we may lose all ofit in the next 45-60 years.

But we can reverse this situation if we act now.

Save Soil is a global movement launched by Sadhguru. The movement seek to show governments of all nationsthat their citizens want a policy to revitalize soil and ecology.

Then Save soil volunteers Shreyas and Krishnaveni involved all the NSS volunteers in some activities like singing save soil Theam song and made every one dancewith their signature steps.

Then as a part of the awareness program to support Save Soil the process was to make registration in the link provided by them – Join as an earth buddy.

**Report on BLOOD DONATION CAMP**

**On 22<sup>nd</sup> MARCH 2022**

**School: School of Mechanical Engineering, School of Civil Engineering, and  
School of Computer Application**

**Venue: Sir M V Block and C V Raman Block**

**Date: 22/03/2022**

Blood is the most significant gift of life that a person can give to others. Donated blood is always life-saving for people who have lost a significant amount of blood due to various reasons like serious injuries, surgical procedures, medical conditions, etc. Therefore, the all-time availability of blood in blood banks has become a prime concern for society.

**The need for blood**

As blood can be stored for shorter period of duration, there is a constant need of blood donation to have an adequate and safe supply of all blood groups in time of need. Each donor contributes significantly to meet the challenge of accessibility and affordability to patients by making it available whenever and wherever wanted.

Not only it helps saving lives, but also plays a vital role in improving health of a donor.

Blood should be accepted only from voluntary, non-remunerated, low risk, safe and healthy donors. Replacement of donors should be phased out.

Due to the unprecedented Covid 19 situation, there is a huge demand of Blood in many Hospitals including Narayana Hrudayalaya.

In view of all the above reasons, A Blood donation camp was organized by **school of Mechanical School of civil engineering and School of Computer Application** on 22/03/2022. The Blood donation camp was organized in association with Narayana Hrudayalaya.

The students and faculties Participated voluntarily in this cause and regarding this effective awareness campaign was created amongst student's community well in advance, as a result more than 703 units of Blood was collected.

Along with the Blood donation camp, free **medical checkup** was conducted to all faculties on the next day i.e. 19/03/21. It included Sugar test, BP test, BMI, Hemoglobin test, and ECG test. More than 125 staff members made use of the facility.

The arrangement for all the above activities was done systematically and the volunteers served their best to conduct the program with social distance and Covid 19 norms. The huge turnout was due to the effective communication carried on by our volunteer student groups in all classes and digital awareness campaign in social media.

We would like to thank our beloved Chancellor, Dr. P. Shyama Raju for providing all facilities and support to conduct this program. Also, we thank VC sir and Registrar sir for their continuous support.

We also thank all the directors for their constant support and always motivating us to organize such events in School of ME.

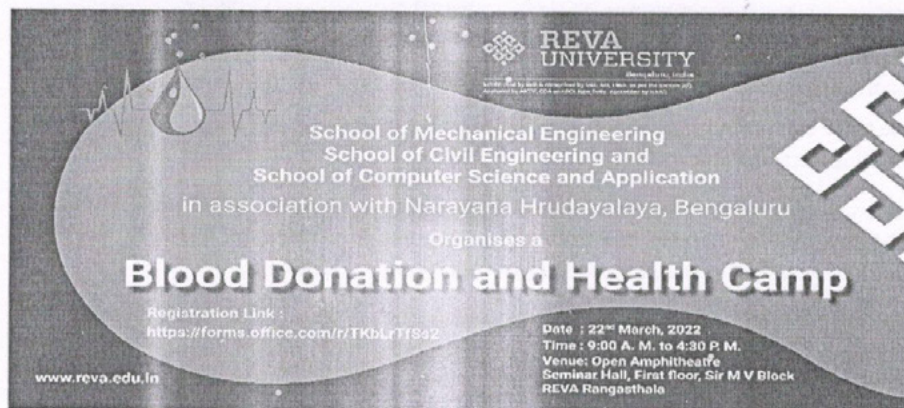

We also thank all the faculty members of our school and Students for their active participation

**Note:**

The data base of all 950 donors is prepared and segregated according to their blood group. It includes name, mobile number and Blood group of the donors (Excel sheet is attached along with this report). The data is stored for the future use of needy People. The data base includes the following blood group

This is to bring your kind notice that, the School of Mechanical Engineering, School of Civil Engineering, and School of Computer Science and Application in association with Narayana Hrudayalaya, Bengaluru is organizing “**Cardio Health Checkup for Faculty and Staff**” on 23<sup>rd</sup> March 2022 at Seminar Hall, First floor, Sir M V Block from 10.00 am to 4.00 pm

It included Sugar test, BP test, BMI, Hemoglobin test, Eco and ECG test. More than 209 staff members made use of the facility.

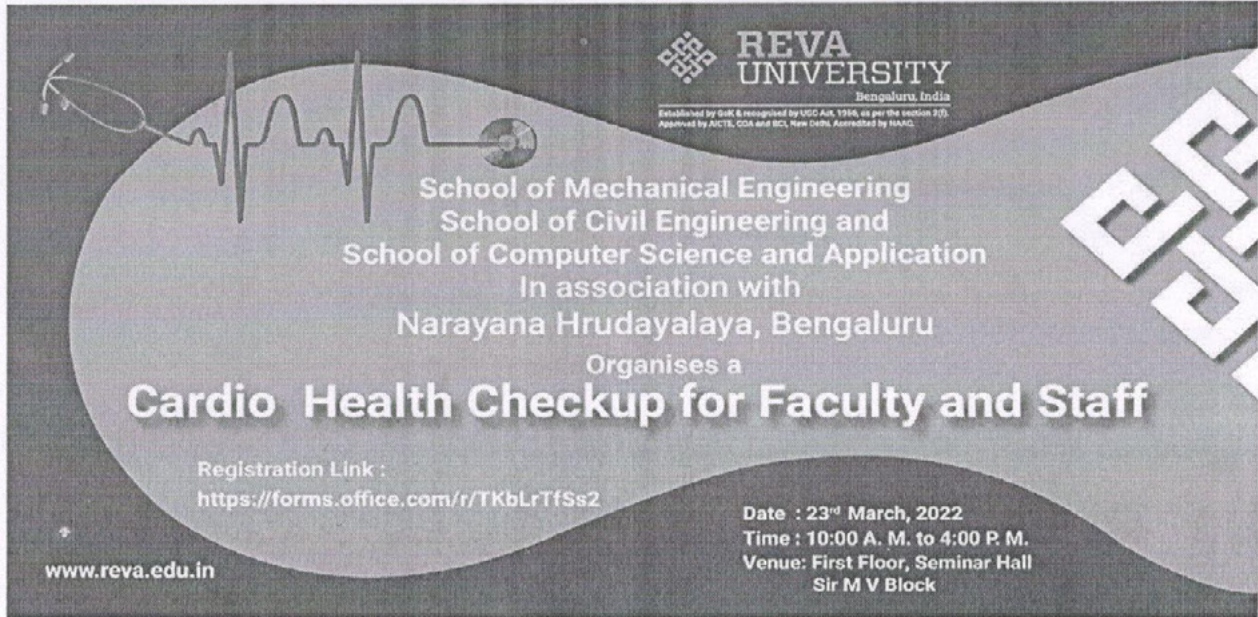

A number of health issues are common around the globe. Disease is one of the most common. According to GlobalIssues.org, approximately 36 million people die each year from non-communicable (i.e., not contagious) diseases, including cardiovascular disease, cancer, diabetes and chronic lung disease.[29]

Among communicable diseases, both viral and bacterial, AIDS/HIV, tuberculosis, and malaria are the most common, causing millions of deaths every year.[29]

Another health issue that causes death or contributes to other health problems is malnutrition, especially among children. One of the groups malnutrition affects most is young children. Approximately 7.5 million children under the age of 5 die from malnutrition, usually brought on by not having the money to find or make food

**National Cadet Corp and National Service Scheme**

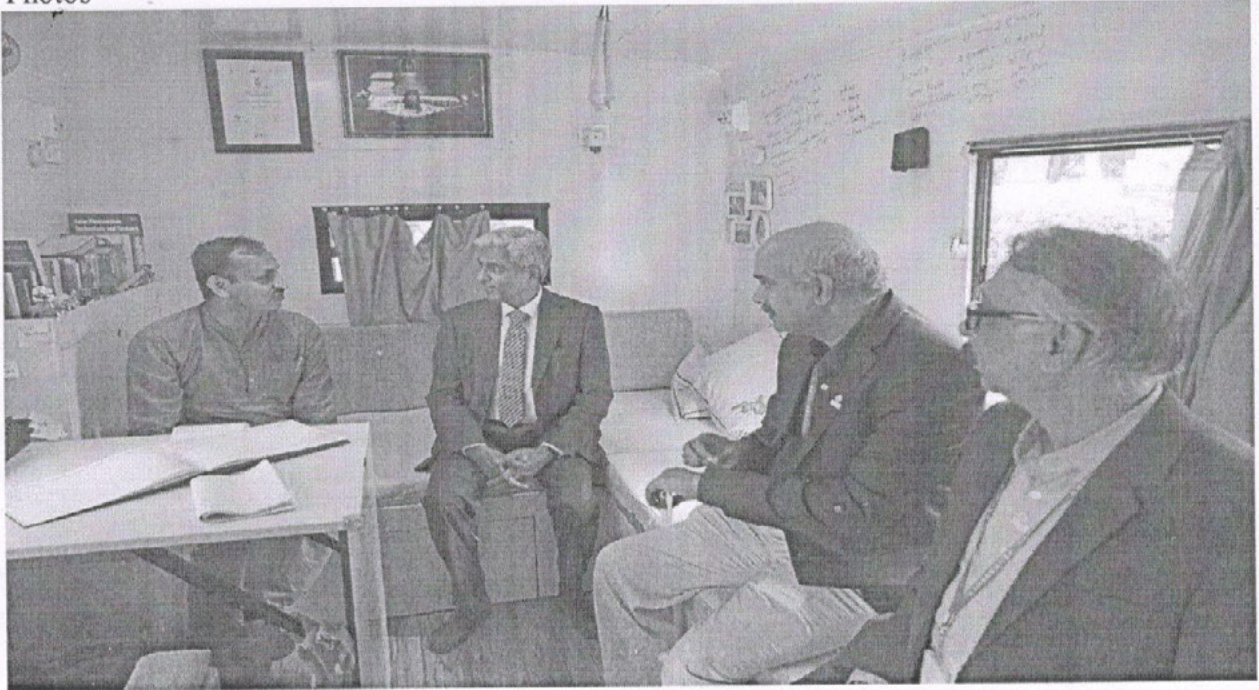

NCC in coordination with NSS organized Energy Swaraj Yatra on 24<sup>th</sup> March 2022. Missions and movements are possible only through collaborations and support from everyone. Let us join hands in the Energy Literacy Mission to create a sustainable world.

Everyone is a user of energy and hence a contributor to climate changes, hence each one of us must be part of the climate corrective actions. Becoming energy literate and sensitive towards its generation and use is the first step in climate correction.

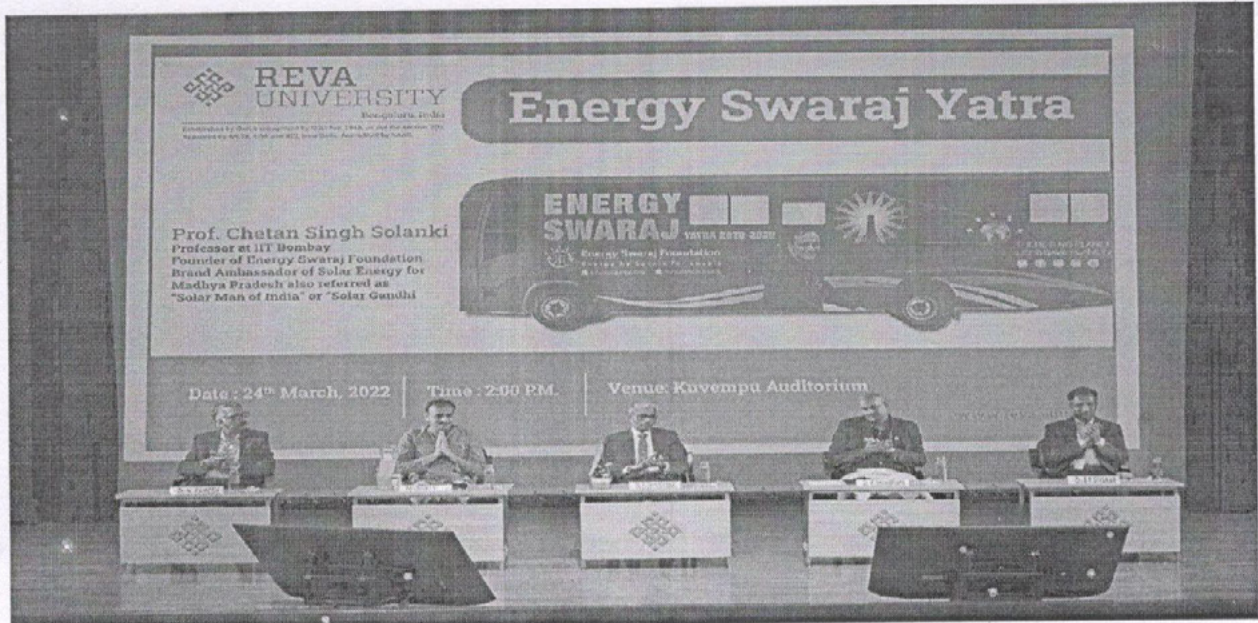

Energy Swaraj Foundation, a not-for-profit organization has launched the Energy Literacy Mission to make people Energy Literate. It has designed an Energy Literacy Training which aims to educate the masses. The mission aims to train 20 million people in 2022 and 1 billion people by 2030.

## A campaign to raise usage of solar energy

The premier educational institution REVA University organised and participated in the “Energy Swaraj Yatra” at its campus in Bengaluru. Dr. M Dhanamjaya, Vice-Chancellor, REVA University, opened his welcome address by quoting Mahatma Gandhi- “Earth has enough for everybody’s needs, not for anybody’s greed.” Further, he added, “Although India won its independence in 1947, Indians are yet to get freedom from poverty, unemployment, and so on. We Indians must take inspiration from able leaders like Prof. Chetan S Solanki, who have dedicated their lives to noble causes.” Energy Swaraj, or energy

from locals to locals, is an effective climate change solution. Dr. Solanki has initiated the “Energy Swaraj Yatra” mission in the year 2020 to raise awareness regard-

ing the adoption of solar energy. He is a professor from IIT Bombay who has pledged not to go home until the year 2030. During 2020-2030 he has pledged to live and travel in the solar bus. Dr. P Shyama Raju, Chancellor, REVA University, encouraged everyone, including students and staff, to support “Energy Swaraj Yatra” for attending the course on “Energy Literacy Training”. He added that REVA University will contribute to Prof. Solanki’s mission through Vanamahotsava, a novel initiative of REVA University to plant 15,000 saplings in the state. On the occasion, Dr. N. Ramesh, Registrar, and Dr. B P Divakar, Dean, Research and Innovation Council, Dr. Karthik Rajendra, Deputy Director, and other dignitaries were present.

**Description of Event:**

REVA University celebrated the 8<sup>th</sup> year of International Day of Yoga with great fervour. The event held at REVA Rangasthala, Vivekananda Block commenced at 8.00 AM and continued until 9.00 AM.

The inauguration ceremony was presided by Dr. N Ramesh Registrar, REVA University. The celebration was marked by the gracious presence of Shri. Ashoka V, Founder & Director, Pranava Yoga Prathistana (R), Bengaluru, Dr R C Biradar, Pro-Vice-Chancellor, REVA University along with the Dr. Beena G. Controller of Examination, REVA University, Dr. Ashwinkumar U Motagi, Professor and Deputy Director, School of Computer Science and Engineering, REVA University.

Dr. N Ramesh, Registrar lighted the ceremonial lamp to inaugurate the programme along with other dignitaries present on the dais. Students, faculty members and non-teaching staff attended the celebration and became a part of International Day of Yoga.

Dr. N Ramesh, Registrar of REVA University addressed the gathering by explaining the significance and advantages of yoga. He stated, “Regular practising of yoga helps to improve the body flexibility as well as mental health. Yoga is an effective form of exercise than swimming. Both ensure overall body movements and flexibility, yet, yoga consists of both body movements and pranayama. Hence, yoga not only improves your health but also your immune system.”.

The yoga session began with the demonstration of yogasanas .

The Guest of Honour, Mr. Ashoka V, Founder & Director Pranava Yoga Prathistana (R), Bengaluru, conducted a lengthy yoga session by demonstrating various yoga poses and exercises.

**Event organized by:** School of CSA, REVA University.

**Date/Place:** 16/09/2021 / Bangalore

The School of CSA team members visited **ORPHANAGE HOME** to support and distribute Rice, Cloths and books. We were lucky to get an opportunity to visit an Orphanage on September 16, 2021. There were around 16 children with 4 care-takers and a woman in charge. In this 3 Faculty members visited to “JMJ SNEHA SADAN”.

After reaching the destination at 9:00 am we were happy to meet the children and members of the organization. Most of the children were working in farm when we entered. Few children were having breakfast. The age group of the children were ranging from 12 years to 16 years.

Everyone were so active and happy there. Elder children were informing us about the rules and regulation that everyone in the shelter is supposed to follow.

After interacting with children, we distributed the Rice, Clothes and books. From 10:00 am to 11:00 am. We had a nice time with the members present in the organization. It was a great experience to interact with the members and children.

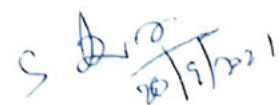

I would like to also thank all the members who have supported directly and indirectly for the visit.

### Event: School Outreach Program

Dated: 08.10.2021

Place: **Kattigenahalli and Sonnappanahalli, Bengaluru**

This event was organised for two Government Schools that has been adopted under Abhivrudhi by REVA University, Bengaluru. Out of 10 schools, the organizers have chosen following schools, namely, Kattigenahalli Government School and Sonnappanahalli Government School. Due to paucity of time, we could cover only abovesaid schools.

Intention of this event was to create Mental Health Awareness among children, during our week-long observation of World Mental Health Day, 2021. School Children have happily and enthusiastically participated in all our activities. Our students, who were trained by the Department to carry out these activities, were also prepared to convey the message of Mental Health Awareness very effectively.

#### **Following activities were conducted in these two schools:**

- **Practicing Mindfulness:**

- ✓ **Square Breath**

A square breath is a breath that is even on all sides, and it can be useful as a mindfulness exercise for both you and your child. Here's what to do:

1. Breathe in, to the count of four.
2. Hold your breath for four seconds.
3. Breathe out to the count of four.
4. Wait for four seconds before taking in your next breath.

- ✓ **Balancing on One Foot**

This exercise is for children 3 and up, and all you need for it is your body! Here's what to do:

1. Tell students to focus their gaze slightly below eye level.
2. Tell them to stand on one leg and keep their gaze fixed on that focal point.
3. Challenge them to see how long she can stand on one leg like this.
4. Tell them to try the other leg.

5. Challenge them to stay focused while you engage them in conversation. ask them to sing a song, or tell them to close their eyes.
6. Finger breathing:

Children will trace the gaps between their fingers while inhaling and exhaling.

✓ Circle of Compliments

Students will be made to sit in a circle and a bottle will be spun around. The student on whom the end of the bottle lands on will compliment (what they like the most about the person, unique quality, etc) to the person facing the top of the bottle.

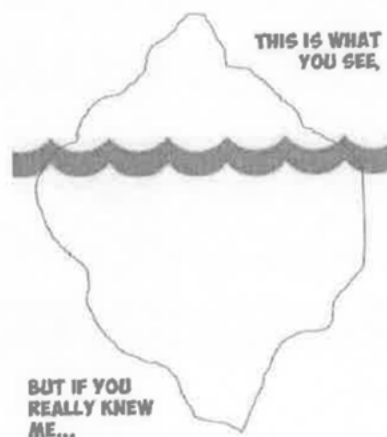

✓ Gratitude Practice

Each student will practice gratitude by talking about 3 things they are grateful for today.

Problem solving post it(6-7)/animal crossing(8-10th grade)

Students will be requested to share their emotional problems, body image issues etc. anonymously on a Post-It. The other people in the room, will attempt to solve their issues while the volunteers steer the discussion.

✓ Introspection Iceberg

Two person activity. Students will be divided in pairs and each of them have to fill out the “this is what you see” section for their partner and then exchange the papers. Then the students will fill out the “but if you really knew me” section for themselves/

✓ Journaling

Students will be taught how to journal.

- How are you feeling today?
- What are you looking forward to today, this week?
- What is a goal you would like to achieve this week? What actionable steps do you need to do to achieve this goal?
- What is a highlight from your weekend?
- How do you feel/what do you think about ... current event, subject
- Brain dump

To-dart list:

Children will throw a piece of chalk onto a prepared chart with 10 questions on it. Whichever number it lands on they need to answer the question or do what the actions say. Volunteers will then tell them if they are right in dealing with the emotions the right way and suggest better ways to handle it.

**Outreach Programme to Shettigere village**

The outreach programme was organized for Shettigere Villagers on 9<sup>th</sup> October 2021. Intention of this event was to create Mental Health Awareness among villagers, during our week-long observation of World Mental Health Day, 2021. Our students, who were trained by the Department of Psychology to carry out mental health specific Skit and Mime activities. They were also prepared to convey the message of Mental Health Awareness very effectively.

This programme was initiated by taking local village panchayat members into confidence. Members, namely Mr. Chethan and Ms. Saubhagyamma were present in the event right from the beginning till the end. Along with them, other village representatives were present. Students of Psychology, went around the village along with faculty members- Dr. Hemantha Kumara V, Dr. Anand, Prof. Raghavendra Prasad Shetty, to invite villagers and thus gathered hundreds of women, children and men. A brief narrative about World Mental Health Day, a mime and a skit were conducted as part of this event.

**World Mental Health Day - Visit to Kattigenahalli and Sonnappanahalli Schools,  
Bengaluru - Date – 8/10/2021**

The outreach programme was organized for two Government Schools that has been adopted under Abhivrudhi by REVA University, Bengaluru. Out of 10 schools, the organizers have chosen following schools, namely, Kattigenahalli Government School and Sonnappanahalli Government School. Due to paucity of time, we could cover only above said schools.

Intention of this event was to create Mental Health Awareness among children, during our week-long observation of World Mental Health Day, 2021. School Children have happily and enthusiastically participated in all our activities. Our students, who were trained by the Department to carry out these activities, were also prepared to convey the message of Mental Health Awareness very effectively.

Activities such as how to practice mindfulness, circle of compliments, gratitude practice, introspection iceberg, journaling, creating to-do list were used to educate children regarding the significance of mental health.

**Event: Bootcamp**

**Date: 6 May 2022**

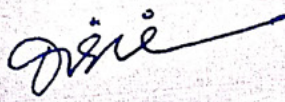

The School of Arts & Humanities organized a **Bootcamp** in association with Bangalore Political Action Committee on “**Public Policy Immersion**” on **6<sup>th</sup> May, 2022** at BPAC Office Bengaluru. The workshop was organized to impart practical knowledge on the importance of Public Policy and create an awareness about political volunteering, and the importance of choosing politics as a career among the students. The resource person for the event was **Ms. Harshitha Venkatesh, B. Engaged Program Lead, BPAC, Sri Sampath Ramanujam, Gram Panchayat Member, Seegehali-Mahdevpura**. The bootcamp was organised for the students of BA, PEJ. Around 22 students have attended this workshop. The resource person emphasized on the importance of public policy for the society, government and stakeholders. She had also explained the importance of stakeholders in administration and political process. Public policy is an emerging trend which offers vast career opportunities for young generation inside the country as well as outside. Sri Sampath Ramanujam had shared his practical experience of election process. He had explained in detail how one can set an example by being a clean corrupt-free leader remaining inside the corrupted environment. His session was very detailed with various practical and current examples on political developments in India. The session was highly informative and interactive. Students had gained insights on various aspects of public policy and politics and political volunteering. The students approached the resource person with specific queries, which were clarified effectively.

**Feedback By Visit In-charge:**

Ms. Anupama has started the session with introduction and followed by healthy food habits. With the help of a chart (prepared by REVA students), the healthy food and its importance was explained by REVA student volunteers in an interesting way to the kids.

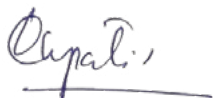

In continuation to the topic, conducted a quiz and all the students involved in the activity with lot of enthusiasm.

After that the student volunteers made 2 groups. One group of students were taken to the bus (equipped with computer) and Ms. Anupama has explained about colour wheel and primary colours using a presentation. Followed by the explanation, REVA students started teaching the basics of computer (how to on, shut down), and how to draw simple images (House, x'mas tree) using MS-Paint. The second group of students were involved in the poster making and fruit cake activity. The same topic was covered for group 2 students as well.

The students of Vishwa Vidyapeeth assisted the students to draw simple images using the different shapes and few students were involved in cutting fruits.

It was a great experience, all our students enjoyed the activity and participated with enthusiasm.

I am grateful for the opportunity given and to help the students of different level and background under the collaboration with REVA University.

### Report on Court Visit

School of Legal Studies, REVA University, arranged one day extension learning to students. It was scheduled on 18.11.2021 and the venue was finalized as Chief Metropolitan Magistrate, Bangalore. After the formal approval from the honorable court, 5th SEM BBA (Section A and B) were briefed about the timings, dos and don'ts in the court.

On the day, of court visit, we left the campus by 8:45 AM and reached the court by sharp 10:15 AM. Total 35 students joined, wherein 27 students opted the bus facility and remaining 8 commuted to the court by their own means of transportation. Registrar, CMM graciously addressed the students about the court procedures at 10.30 am. Later students went to respective courtrooms allotted to them for observation.

The visit was successful due to the efforts and guidance of vertical head Dr. Kumara who coordinated Mr. Uday (Administrative Co-Ordinator in CMM court). Students were guided in court and different court halls were allotted wherein they observed the day's court proceedings. They observed different IPC and Negotiation Instruments Act cases and understood the procedures connected to such cases. The court visit was indeed very effective as students could exhibit learning outcomes which was evident after interaction with the students post the visit.

### Red Cross Society - First Aid Camp Report

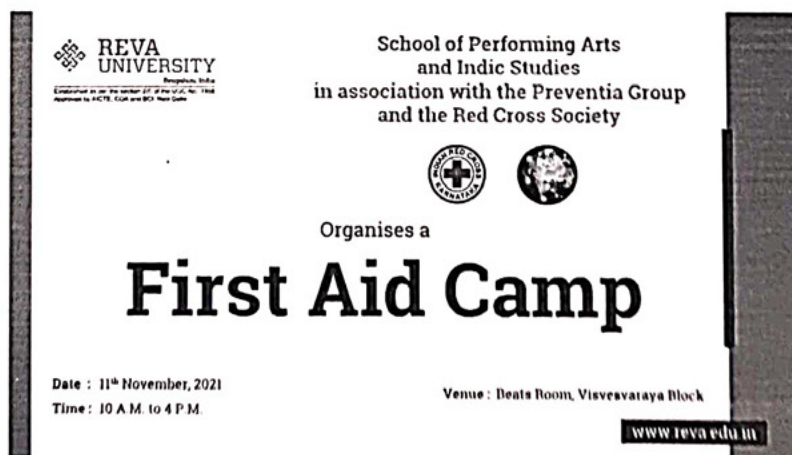

11.11.2021

Red cross society in association with Preventia Group and School of Performing Arts and Indic Studies, REVA University organised a First Aid camp for the students of REVA University on 11<sup>th</sup> November, 2021. The event was envisioned and organised to provide the students of SoPA and IS and REVA with first aid response training.

Red Cross India is a humanitarian society that has about 7 lakh volunteers serving the people in need. Mr.Dileep Raj State Youth Coordinator in the inaugural address ignited the passion for working as volunteers across India. The inaugural address was followed by training provided by Mr Prathap and other integral team members.

The practical session provided the students training on basic life support, golden hour and first response treatment. The session was not only demonstrative but also interactive.

The first aid camp offered a unique opportunity for the students to learn hands-on training in first-aid response.

**World Water Day**

**22<sup>nd</sup> March, 2022**

Students of SoPA&IS organised a program on the occasion of world water day at the Gaziboat 12.20pm. The MPA student Mr. Rahul was the anchor and he started the event by discussing year's theme as 'Groundwater, making the invisible visible'. He said that groundwater is a crucial resource that provides almost half of all drinkable water across the world. Exploring, protecting, and sustainably using groundwater will be the central motive of World Water Day this year.

He stated that every year this day is celebrated to mark the importance of water. This year the day will be observed on Tuesday.

The dance showcased that water is one such element that is quintessential for each and every living being. As the saying goes 'water is the driving force of all nature' it really is the fuel for all living animals and plants. He highlighted the importance of water. A core focus of this dance was to support the achievement of sustainable Development Goal 6: Water and sanitation for all by 2030. Finally the students took an oath. The program ended with a vote of thanks by the Emcee Rahul. Totally 26 students attended this event.

## REPORT

**Title:** Cultural Outreach Program - KALAKRITI

**Date:** 6<sup>th</sup> October 2021 – 12<sup>th</sup> October 2021

**Venue:** Ranebennur

**Organized by:** Pratibha Anveshana Club, School of Civil Engineering.

### Description of Event:

Students conduct various cultural competitions such as Dance, Music, Speech and Drawing in 10 different Pre-University colleges of Ranebennur. The event was sponsored by PKK Initiatives.

Pratibha Anveshana Club, School of Civil Engineering organized Cultural Outreach program for the students of below mentioned Colleges.

1. MK PU college
2. Devika PU College
3. Expert PU College
4. Unnati PU College
5. Rajarajeshwari College
6. Rotary College
7. RTES College
8. BAJSS Women's College
9. Gupta College
10. SJM College

The event started by conduction of auditions in these colleges for Dance, Music, Speech and Drawing. Our club members encouraged the students to participate by giving performances of their own and by teaching them a choreography. The students were motivated to participate after listening to the speeches delivered by Prof. Ajaybhaskar Reddy and Prof. Raghunandan Koppad who guided the club members throughout the event.

Auditions were conducted from 7<sup>th</sup> October 2021 to 10<sup>th</sup> October 2021 and 2 participants were selected for each category in all the colleges based on different criteria for judgement.

A Final round for all the selected students, the event “KALAKRITI” was conducted in Ballari Kalyana Mantapa of Ranebennur on 11<sup>th</sup> October 2021.

**Extension activity – Workshop for Students of Nrupathunga University**

**Department/ School:** Department of Biotechnology, SoAS, RU.

**Venue:** Genetics lab, Science Block

**Date:** 9<sup>th</sup> and 10<sup>th</sup> June 2022

**Event Organizers:**

Dr. Manjula K. R, Professor, Department of Biotechnology, SoAS, RU.

Dr. Ramya M, Associate Professor, Department of Biotechnology, SoAS, RU.

Dr. Nethravathy V, Assistant Professor, Department of Biotechnology, SoAS, RU.

Dr. Damodar Reddy V, Associate Professor, Department of Biotechnology, SoAS, RU.

The Department of Biotechnology, under the banner of Genetics Club – Genex, had organized a 2-day workshop for the M. Sc Zoology students of Nrupathunga University. The hands-on training was given to the students on molecular genetics techniques. Day 1 started with the introductory session by Dr. Manjula followed by the demonstration of the Immunological experiments by Dr. Ramya. Experiments performed were Ouchterlony double diffusion, Radial immune diffusion and PCR. Day 2 was continued by Dr. Nethravathy, demonstrated transformation experiments. Students had thorough knowledge on the conduction of these experiments and instruments in the CoE were explained by Dr. Damodar Reddy. The feedback from the students were positive and they requested for the similar kind of sessions in the future.

Faculty coordinator: Er. Nagaraja S, Ar.S. Kokhil, Ar Shreya Mishra,  
Ar.Divya Hemanthraj, Dr. Anupama R M, Ar.Rajesh Malik

Course: **Community outreach program Abhivruddhi**

Place of Activity conducted: **GOVERNMENT HIGH SCHOOL JALIGE**

**Students: 7<sup>th</sup> Semester B.Arch.**

**No of Students: 35**

**No of Faculty: 5**

Date: 10.11.2021

About the Event: STAGE-1, Students from 7th semester undergone hands on site for initial demolition of Jalige school building under the supervision of faculty coordinators .

Outcome of the Event: Guidance and training were given by Er.Nagaraj.S, Ar.Kokhil and Ar.Shreya, Ar.Divya & Dr.Anupama RM, Ar.Rajesh Malik for the demolition stage and design process of the upcoming classroom for the school at Jalige.

Constant mentorship has been given to the students in the design proposed and construction methods and techniques. And stages at which the entire project needs to be proceeded with.

The stakeholders have identified the problem and have pitched in the ideas to use Arch foundation, Rat trap bonds and Filler slabs.

The key idea here was to involve the students to have a hands-on experience to understand the work at field. And the students were able to understand the right techniques to dismantle the walls and how to proceed with the next stage of construction.

I would like to thank our Director in charge Prof. Vidya Srikanth for her immense support.

I would like to extend our thanks to Dr. Kiran Kumari on behalf of UIIC department for their immense support.

I sincerely thank Management, REVA University for this initiative that helps bring our students closer to society.

We are glad to inform you that School of Architecture, REVA University in collaboration with Campus 2 Community organized a community outreach program from 30<sup>th</sup> April to 1st May 2022 at Bethamangala govt school,Kolar. Campus 2 Community in coordination with Art Matters and Students of different colleges organize 'SCHOOL BELL', a mass service activity across the remote rural villages bordering Karnataka and indulge in rejuvenating 75 government schools marking the 75th Independence day celebration under the theme Azadi Ka Amruth Mohotsav in freedom fighters birth places.

25 students from 1<sup>st</sup>,4<sup>th</sup> & 6<sup>th</sup> sem B.Arch students participated in this community outreach program.

The activities included artwork on the walls; providing awareness about environment, health, cleanliness and management, library and lab equipment's, drinking water facility, sports kit, first aid kits etc. Around 5000 youth volunteers was part of this activity and around 7500 students were benefitted. With mass campaign as volunteers we made this event a grand success with completing the painting on the school wall which was assigned to us. The student serve as a great resource by getting involved in different kind of activities.

REPORT ON WALL DESIGN COMPETITION, VISUAL ART CLUB 2022

Date: 28TH March -30th March

Time: 9PM of 28th March – 9AM of 30TH March

Faculty coordinator: Asst .Prof Dr.Anupama RM

Student coordinator: Bhoomika Prasad,Mohan Sai Kommi

Theme:Nali-Kali

Event: WALL DESIGN COMPETITION for JALIGE School

Student: II Semesters

No of students: 4

Nali-Kali is a learning which is adopted in a situation where multi grade, multilevel, existing and self-pace of learning is regarded. Pupils participate actively throughout learning process; lessens the burden of the teacher; classroom interaction is maximum; no examination trauma/anxiety. Childs natural instincts such as curiosity, dynamism, exploration find a place for canalization.

Schools are strongest institutions in the child's life. Schools play a crucial and a formative role in the spheres of cognitive, language, emotional, social and moral development of the children.

classroom aesthetics may have an impact on our ability to relax or concentrate .thus, it is very important to incorporate suitable graphics and colors to the wall .

Competition was held by the visual arts club and outreach cell on 28-3-2022 for the first-year students to create a suitable wall design for the kids of primary school which is adopted by RUSOA in Jalige.
