Dated 18TH DECEMBER, 2019

Liverpool John Moores University, a Higher Education Corporation established under the Education Reform Act 1986 whose principal address is Egerton Court, 2 Rodney Street, Liverpool, L1 2UZ ('LJMU'); and

REVA UNIVERSITY is a STATE PRIVATE University in South India recognized under REVA UNIVERSITY ACT 2012, that provides multi-disciplinary education in pre-university, undergraduate, postgraduate, doctoral degree and continuous learning program;

Each a 'Party' and together the 'Parties'

LJMU and REVA UNIVERSITY wish to explore [a formal collaborative agreement] based on a foundation of trust for the mutual benefit and development of the two organisations.

1. LJMU and REVA UNIVERSITY will explore potential for jointly developing some or all of the following activities based on their respective academic and educational needs:
 - a. exchange of research materials, publications and information; of joint publications between LJMU and REVA University
 - b. development and operation of joint academic programmes;
 - c. appointment of joint teaching practitioners;
 - d. organisation of joint research programmes;
 - e. provision of undergraduate projects;
 - f. exchange of students;
 - g. exchange of academic staff;
 - h. the development of common curricula in areas of mutual interest.

2. Specifically, LJMU and REVA UNIVERSITY will work towards the development of programmes relating to the School of Applied Sciences, Law, Arts and Humanities, and Engineering.
3. The implementation of exchange based on this MOU shall be separately negotiated and determined by both Parties in a formal legal agreement.

[Either:

4. The Parties entered into a separate Confidentiality Agreement on 18TH DECEMBER, 2019, which shall continue to apply for the purposes of this MOU.

Or:

- 4.1 Each Party shall preserve the confidentiality of any information (whether in written, oral or electronic form) disclosed to it by the other Party where the other Party has identified such information as being confidential, or where it would be reasonable to expect that confidentiality should attach to such information.
- 4.2 Each Party shall respect and make no claim with regard to the names, brand, trademark, copyrighted material or any other intellectual property rights of the other Party during the period of the Collaboration.]

5. Nothing shall diminish the full autonomy of either Party, nor will any constraints or financial obligations be imposed by either Party upon the other Party in carrying out this MOU.
6. This MOU is subject to revision or renewal by mutual agreement between the Parties in writing. It is also understood that either Party may terminate this MOU at any time, although such action will only be taken after mutual consultation in order to avoid any possible inconvenience to either Party.
7. This MOU will be in force for **[three years]** in the first instance. Thereafter, renewal of this MOU will be subject to the agreement of both Parties in writing.
8. This MOU is a statement of the current intention of the Parties. There is no intention to create legal relations by means of this MOU. Clause 4 only of this MOU is intended to be legally binding with effect from the date of this MOU. All other clauses of this MOU are therefore not legally binding and neither Party has any rights or obligations or may bring proceedings in respect thereof.

9 This MOU is effective when the duly authorised representatives of both Parties have signed and dated this MOU.

Article II

Second party will facilitate the following:

1. Endeavour to realize the objectives of the Legal Services Authorities Act 1987, and translate the National Legal Services Authority (Legal Aid Clinics) Regulations. 2011 and the National Legal Services Authority (Legal Services Clinics in Universities/Law Colleges and other Institutions) Scheme, 2013 into reality through the Student Legal aid Clinics established at the School of Legal studies, REVA University, Bengaluru, or the Legal Aid Clinics to be set up by school of Legal Studies, Reva University, Bengaluru in the villages. Guidelines narrated in the aforesaid Schemes shall be part and parcel of this MOU. The Regulation and Scheme forming part of this MOU are in the Annexure hereto.
2. Appoint a faculty member who shall be responsible to co-ordinate the activities of Students REVA Legal Aid Clinic (RLAC), under it, in accordance with the Regulations and Schemes mentioned in (1) above.
3. Co-ordinate the activity of establishing and operating these Clinics in villages near by REVA University and later extend it to other villages gradually. The said villages would be adopted by School of Legal Studies REVA University (SOLS) for providing Legal Aid and Legal Literacy programmes, on a regular and continuous basis, to the villagers therein.
4. Bring out appropriate public legal education literature in English and Kannada.
5. Bring out audio-visual legal literacy material.

Article III

1. The MOU between the two institutions shall be supplemented by detailed work plans to be developed jointly which describe more specially the activities to be carried out under this collaborative program and as per the National Legal Services Authority (Legal Services Clinics in Universities, Law Colleges and other Institutions) Scheme, 2013
2. If need arises, the Karnataka State Legal Services Authority and REVA University may constitute a Joint Committee to work out the practical problems of collaboration. It shall be the duty of the Joint Committee between the two Institutions in general and to ensure proper and effective implementation of this MOU.
3. Such details as agreed upon will be effective by exchange of letters between the Karnataka

Report on MMS Holdings Workshop on Clinical Data Science

Department of Biotechnology, School of Applied Sciences

Venue: MMS Holdings, Rajajinagar

Date: 25-09-2019

One day workshop at MMS Holdings

A one day symposium was held at MMS Holdings, Rajajinagar based upon clinical research and medical writing occurred on 24th of September 2019. MMS is a Clinical Research Organisation (CRO) which provides its clients medical writing, document writing for clinical trial reports. It was a very approachable ambience at MMS, students doubts regarding medical writing was clarified. Students learned about the company and the documents they handle were also explained in detail. Company tour was planned to understand the different steps through how a document is processed to be finally sent to the approval of FDA and other likely organisations. Medical writing as a career for biotechnologist was explained, it terms of career growth it is endless as medical field and pharmaceutical industries are not affected by economical distress within a country or around the world.

Medical writing is an important aspect of clinical research as it aids transparency to three different types of clients; the medical doctors, the pharmacologists and the general public. The transparency of the drug is revealed and explained in scientific way. The medical doctors are disclosed the major information on one end and on the other end the general public are minimally disclosed only as much that can be understood. A medical writing report can be anywhere between 10 to 20 pages or even more than that. Sometimes the reports can be very huge. Medical writing requires a great deal of skill and experience to master it as it contains scientific, medical terms and statistical data as well, to write a report of such requires training and that is when MMS University provides a 60 hours course upon medical writing online with considerable instalment payment option as well. The course is conducted by highly experienced professionals in the industry.

Lastly, MMS even provides a Three weeks of internship program amounting to about 2500 INR, where the basics of medical writing and clinical research can be explored and shadowing a medical writer at the MMS company could also be provided. The company was very flexible quoting that it is absolutely required to be clear about the choice as a medical writer, either a yes or a no. Quality analyst was bought in as per the request of students to clear our queries and also students had a very interactive session with a medical writer professional with six years of experience at MMS to clear our queries. Students were also given extremely good career guidance as already mentioned about the flexibility of the symposium and gave career guidance taking not only medical writing or clinical research as a target but other fields as well.

It was an extremely informative, useful and enlightening session with the professionals at MMS including Ms Nandini, head of the company, Tejaswini, medical writer.

School: SCHOOL OF ELECTRONICS AND COMMUNICATION ENGINEERING

Venue: School of ECE

Date: 29th September to 2nd October

Year: 2018

School of Electronics and Communication Engineering, REVA University aims for creating and nurturing emerging industry oriented new technology skills among student fraternity. In association to this School had organized four day Industry oriented skill development and certification programs from **29th September to 2nd October**. These programs were scheduled for **2nd year students** of school of Electronics and Communication Engineering. To inculcate the skill set which is required for the electronic industry the school of ECE conducted the certification course and skill development course for 3rd semester students. Students were given a choice to choose courses of their interest. The students were allowed choose one out of four courses namely Internet of Things (IoT) using MSP430, Mobile Application Development, Power of Embedded Systems, Programming using NodeMCU. Out of the four courses,

- I. IoT using MSP430 and mobile application development fall under certification.
- II. Under skill development, power of embedded systems and programming using NodeMCU are considered.

SKILL DEVELOPMENT CENTER

School: School of Electronics and Communication Engineering

Venue: School of ECE

Date: 08/03/2019 to 11/03/2019

Year: 2019

School of Electronics and Communication Engineering, REVA University aims for creating and nurturing emerging industry oriented new technology skills among student fraternity. In association to this School had organized four day industry oriented skill development and certification programs from 08/03/2019 to 11/03/2019. These programs were scheduled for **Second year students** of school of Electronics and Communication Engineering. To inculcate the skill set which is required for the electronic industry the school of ECE conducted the Skill Development and Certification course for 4th semester students. Students were given a choice to choose courses of their interest. The students were allowed choose one out of four courses namely Design and Development of Quad-copter, Design and Development of Application Oriented Robots, Programming using Raspberry Pi, Machine Learning Using Python Programming.

Around **400 students** took active participation in the event. These and Skill Development and certification programs are trained by industry experts as per the current need of the industry.

Report on

4th Semester Skill Development Program

We take pleasure to inform that the School of ECE conducted a 4-days Skill Development Program for up-skilling the students of ECE IV semester in the areas of **Machine Learning using Python Programming, Augmented Reality and Virtual Reality and Power of Embedded Systems** from 24th January 2020 to 27th January 2020. The program was conducted by industrial experts from M/s. Emergers Technologies Limited, Bangalore, M/s. Indian Tech-keys Limited, Bangalore and M/s. Happy Mongo Limited, Bangalore. The program was inaugurated on 24th January 2020 in Kalpana Chawla Seminar Hall, C V Raman Block, in the honorable presence of Dr. S.Y. Kulkarni, Vice-Chancellor, Dr. R. C. Biradar, Director, School of ECE.

School of ECE aims for creating and nurturing emerging industry oriented new technology skills among student fraternity. Students were given a choice to choose courses of their interest. The students were allowed to choose one out of three courses. Around **414 students** of ECE IV Semester took active participation in the skill development training. These courses are trained by industry experts as per the current need of the industry. On the Fourth day of the event, students were assessed followed by the feedback session. The students are awarded grades based on their assessment.

On behalf of the Skill Development Center, School of ECE, REVA University we propose our heartfelt thanks to our Honorable Chancellor **Dr. P. Shyama Raju Sir** for providing all facility and support. We also thank Vice Chancellor **Dr. S. Y. Kulkarni Sir**, Registrar **Dr. M. Dhanamjaya Sir**, Dean Training and Placement **Dr. Ramesh Sir** for their continuous guidance and support.

We also extend our thanks to **Dr. R.C. Biradar Sir**, Director, School of ECE, **Dr. Nayana D K madam**, Second Year Coordinator and **Dr. Kiran Kumari Patil Madam**, Director, University-Industry Interaction Center for their constant support and encouragement.

We also extend our thanks to all faculties, staffs of ECE and UIIC who have helped in making this event successful.

Smart Systems and Applications Skill Development Center

School of Electronics and Communication Engineering

Report On

2nd Semester Skill Development Program: AY 2019-20

18,19,25,26 April 2020 & 02,03,09,10 May 2020

We take pleasure to inform that the School of ECE had organized 8-days **Online Skill Development Program through MS Teams** for up-skilling the students of ECE II semester in the areas of **Smart Embedded System Design Using Arduino and Android App Development AND Desktop Software Development for IoT Applications using SQL and Cloud DB**. The program is conducted by industrial experts from M/S. **Indian Techkeys, Bangalore**.

School of ECE aims for creating and nurturing emerging industry oriented new technology skills among student fraternity. Students were given a choice to choose courses of their interest. The students were allowed choose one out of two courses. Around **360 students** of ECE II Semester took active participation in the online skill development training. These courses are trained by industry experts as per the current need of the industry. Students were assessed based on the App Development assignment.

On behalf of the Skill Development Center, School of ECE, REVA University we propose our heartfelt thanks to our Honorable Chancellor **Dr. P. Shyama Raju Sir** for providing all facility and support. We also thank Vice Chancellor **Dr. S.R, Shankpal Sir**, and Registrar **Dr. M. Dhanamjaya Sir** for their continuous guidance and support.

We also extend our thanks to **Dr. R.C. Biradar Sir**, Director, School of ECE , **Dr. Bharathi S.H. Madam** Professor School of ECE and SDC-Head, **Dr. Rohini Deshpande**, First Year Coordinator and **Dr. Kiran Kumari Patil Madam**, Director, University-Industry Interaction Center for their constant support and encouragement.

We also extend our thanks to all faculties, staffs of ECE and UIIC who have helped in making this event successful.

Why Embedded?

The diagram shows an **Embedded Computer** block containing **Software** and **Hardware**. It is connected to **User Interface** (top), **Input Variables** (left), **Output Variables** (right), and **Link to Other Systems** (bottom).

- All the assembled units work together based on the program embedded into the controller.
- Can be Microprocessor or Microcontroller based.
- Heart of the product - Integrated Circuit(IC) in both μ p and μ c.

Day 2

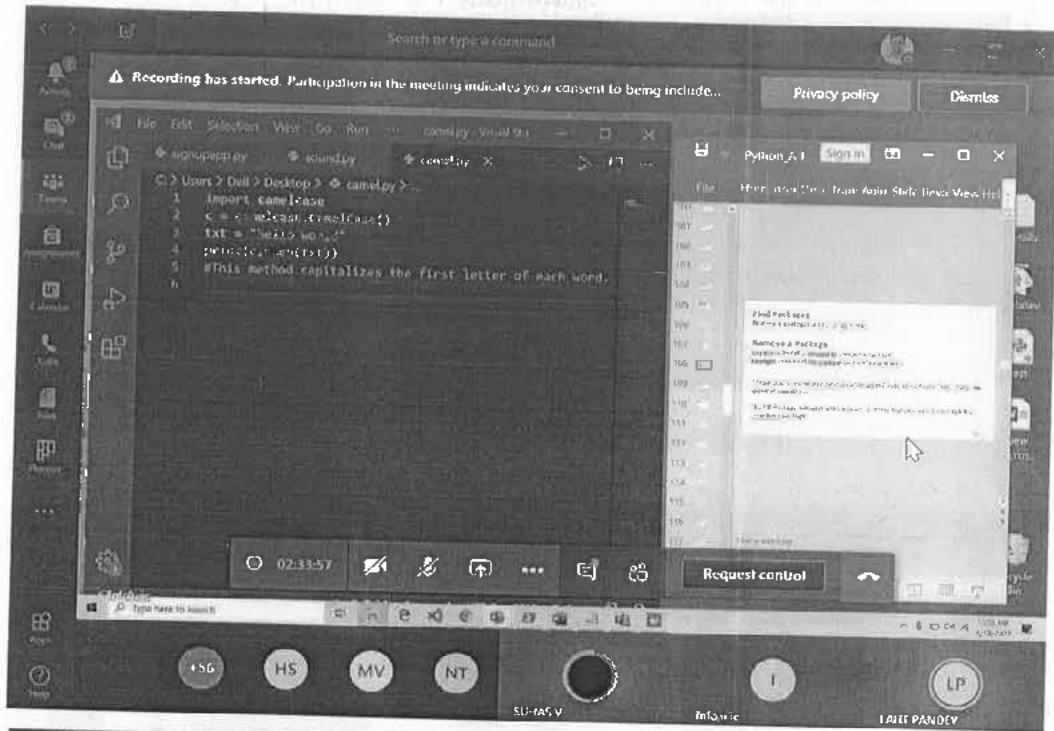

- Exposure to Layout Design, Media Elements like Camera, Microphone, Sounds and Media Player of Android OS.
- Integration of Media Elements to Existing App.
- Music Panel Design using Media Elements.
- Image Capture and Elements recognition in the captured image.

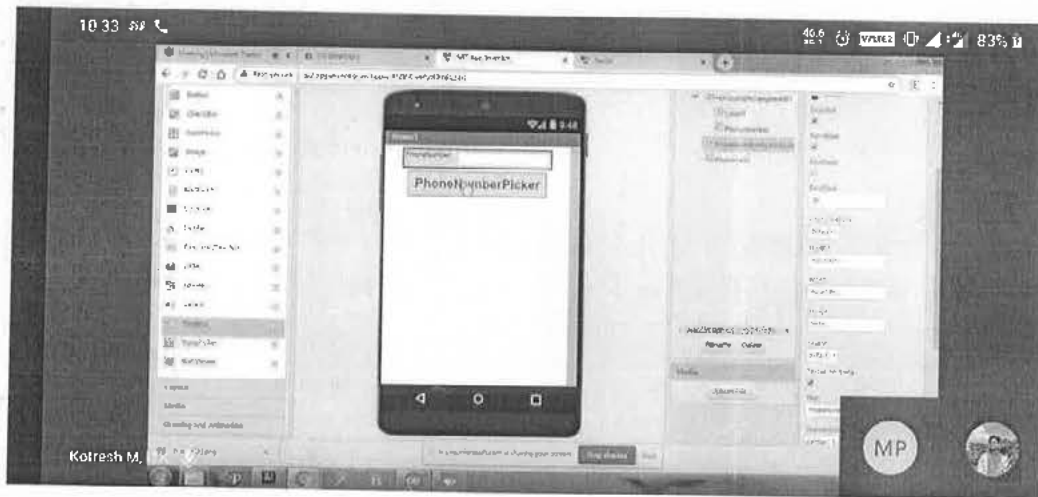

Difference b/w mp and μ c

Microprocessors	Micro Controller
Microprocessors is part of Computer system.	Micro Controller is a kind of Embedded system.
It is just a processor. Memory and I/O components have to be connected externally.	Micro controller has internal processor along with internal memory and I/O components.
Active memory and I/O bus to be connected externally, the circuit becomes large.	Memory and I/O are present internally, the circuit is small.
Chassis required in compact systems and hence bulky.	Can be used in compact systems and hence it is an efficient technique.
Cost of the active systems increases.	Cost of the active system is low.
Due to external components, the active power consumption is high. Hence it is not suitable to use with devices requiring an external power like laptop.	Being internal components like low, total power consumption is low and can be used with devices requiring no external power like battery.
Most of the microprocessors have power saving modes.	Most of the micro controllers have power saving modes. The only mode with power saving mode. This helps to reduce power consumption even further.
More memory and I/O components are well external, each instruction will need external operations, hence to be relatively slower.	More operations are done in internal, hence speed is fast.
Microprocessors have low number of registers, hence some operations are relatively slower.	Micro controller has more number of registers, hence the program can be made to write.
Microprocessors are based on von Neumann model/architecture where program and data are stored in same memory module.	It has more memory are based on Harvard architecture where program memory and data memory are separate.
Stability used in personal computers.	Used mainly by making machine, MP3 player.

Report on

First Semester Skill Development Program: 2020-21

We take pleasure to inform that the School of ECE has conducted a 4-day Skill Development Program for up-skilling the students of ECE First semester in the areas of **Arduino Board Design, Front End Development and Fundamentals of LINUX OS** from **12th March 2021 to 16th March 2021**. The program was conducted by industrial experts from **M/s. Indian Tech-keys, Bangalore, M/s. AiTron ICT Ventures Bangalore, M/s. EthicalByte, Bangalore**. The program was inaugurated on **12th March 2021** in Kalpana Chawla Seminar Hall, C V Raman Block, in the honorable presence of **Dr. R. C. Biradar, Director, School of ECE, Dr. K M Sudharshan Sir, Assistant Director, School of ECE and Dr. Manjunath R. Kounte Sir, Head ECM, School of ECE**.

School of ECE aims for creating and nurturing emerging industry oriented new technology skills among student fraternity. Students were given a choice to choose courses of their interest. The students were allowed to choose one out of three courses. Around **300 students** of ECE First Semester took active participation in the skill development training. These courses are trained by industry experts as per the current need of the industry. On the Fourth day of the event, students were assessed followed by the feedback session. The students are awarded grades based on their assessment.

On behalf of the Skill Development Center, School of ECE, REVA University we propose our heartfelt thanks to our Honorable Chancellor **Dr. P. Shyama Raju Sir** for providing all facility and support. We also thank Vice Chancellor **Dr. M. Dhanamjaya Sir**, Registrar **Dr. Ramesh Sir** for their continuous guidance and support.

We also extend our thanks to **Dr. R.C. Biradar Sir**, Director, School of ECE, **Dr. K M Sudharshan Sir**, Assistant Director and **Dr. Manjunath R Kounte Sir**, Head, ECM, School of ECE and **Dr. Kiran Kumari Patil Madam**, Director, University-Industry Interaction Center for their constant support and encouragement.

We also extend our thanks to all faculties, staffs of ECE and UIIC who have helped in making this event successful.

Report on

Third Semester Skill Development Program: 2021-22

We take pleasure to inform that the School of ECE has conducted a 4-day Skill Development Program for up-skilling the students of ECE Third semester in the areas of **Robotic Process and Automation, Ethical Hacking and Cyber Security and Advanced IOT Systems using Raspberry PI** from 1st, 4th, 5th and 7th of October, 2021. The program was conducted by industrial experts from **M/s. Indian Tech-keys, Bangalore, M/s. Tequed Labs, Bangalore.**

School of ECE aims for creating and nurturing emerging industry oriented new technology skills among student fraternity. Students were given a choice to choose courses of their interest. The students were allowed to choose one out of three courses. Around **300 students** of ECE First Semester took active participation in the skill development training. These courses are trained by industry experts as per the current need of the industry. On the Fourth day of the event, students were assessed followed by the feedback session. The students are awarded grades based on their assessment.

On behalf of the Skill Development Center, School of ECE, REVA University we propose our heartfelt thanks to our Honorable Chancellor **Dr. P. Shyama Raju Sir** for providing all facility and support. We also thank Vice Chancellor **Dr. M. Dhanamjaya Sir**, Registrar **Dr. Ramesh Sir** for their continuous guidance and support.

We also extend our thanks to **Dr. R.C. Biradar Sir**, Director, School of ECE, **Dr. K M Sudharshan Sir**, and **HOD Dr. Manjunath R Kounte Sir**, Head, ECM, School of ECE and **Dr. Kiran Kumari Patil Madam**, Director, University-Industry Interaction Center for their constant support and encouragement.

We also extend our thanks to all faculties, staffs of ECE and UIC who have helped in making this event successful.

School of Electronics and Communication Engineering
Report on
4th Semester Skill Development Program

We take pleasure to inform that the School of ECE conducted a 4-days Skill Development Program for up-skilling the students of ECE IV semester in the areas of **Machine Learning using Python Programming, Augmented Reality and Virtual Reality and Power of Embedded Systems** from 24th January 2020 to 27th January 2020. The program was conducted by industrial experts from M/s. Emergers Technologies Limited, Bangalore, M/s. Indian Tech-keys Limited, Bangalore and M/s. Happy Mongo Limited, Bangalore. The program was inaugurated on 24th January 2020 in Kalpana Chawla Seminar Hall, C V Raman Block, in the honorable presence of Dr. S.Y. Kulkarni, Vice-Chancellor, Dr. R. C. Biradar, Director, School of ECE.

School of ECE aims for creating and nurturing emerging industry oriented new technology skills among student fraternity. Students were given a choice to choose courses of their interest. The students were allowed to choose one out of three courses. Around **414 students** of ECE IV Semester took active participation in the skill development training. These courses are trained by industry experts as per the current need of the industry. On the Fourth day of the event, students were assessed followed by the feedback session. The students are awarded grades based on their assessment.

On behalf of the Skill Development Center, School of ECE, REVA University we propose our heartfelt thanks to our Honorable Chancellor **Dr. P. Shyama Raju Sir** for providing all facility and support. We also thank Vice Chancellor **Dr. S. Y. Kulkarni Sir**, Registrar **Dr. M. Dhanamjaya Sir**, Dean Training and Placement **Dr. Ramesh Sir** for their continuous guidance and support.

We also extend our thanks to **Dr. R.C. Biradar Sir**, Director, School of ECE, **Dr. Nayana D K madam**, Second Year Coordinator and **Dr. Kiran Kumari Patil Madam**, Director, University-Industry Interaction Center for their constant support and encouragement.

We also extend our thanks to all faculties, staffs of ECE and UIIC who have helped in making this event successful.

Launch of UDAAN Program by REVA University Industry Interaction Centre

Venue: C V Raman Block

Date: 15/05/2019

Year: 2019

REVA University in collaboration with DTSS inaugurated UDAAN program. UDAAN is a unique platform for upskilling employees to help in carrier transition. The program is inaugurated by Honourable Chancellor Dr.P.Shyama raju , Vice Chancellor Dr.S.Y.Kulkarni, Registrar Dr.M. Dhanamjaya , DTSS manging director Mr. Shemshare Puri and team.

Dusters Total Solutions Services, an SIS Group Enterprise & REVA University Industry Interaction Centre have joined hands to launch a pioneering program for the people employed in the Facility Management services industry.

DTSS is a fore runner in the facility management industry in India. Its workforce comprises of population from urban poor and rural migrants, majority of who have not completed their school education. As an organisation which believes that learning can transform lives, UDAAN Program, was piloted in 2018 as an internal training platform for the up skilling of tenured supervisors so that they can be eligible for graduating into management roles that open up in the organisation.

REVA University & DTSS have been actively working in the employability space, and are now collaborating to run short term courses for the experienced supervisors of DTSS in a formal academic structure. For the first batch 16 supervisors from all parts of the country on active rolls of DTSS, and SMCL also an entity of the SIS Group, will go through a 2 month in campus learning program.

This partnership of REVA & DTSS will definitely pave way for many such academia industry partnerships, opening up the gates of prestigious campuses like REVA for the less privileged, an opportunity to experience campus which otherwise is just a dream!
