Title : Self Defence Program

Date : 15th March, 2019

Time : 2:00 pm to 4:45 pm

Venue : Seminar Hall, Sir M V Block, 1st Floor

Organised By : Student Welfare Club, School Of Civil Engineering

Description Of Event :

The School Of Civil Engineering had organized Self Defence program for the students of B.Tech. This event was organized under the leadership of Prof. M. Sreenivasulu Reddy President and Asst. Prof. Bhavana Vice President, Student Welfare Club, School Of Civil Engineering.

The program took place in the Seminar Hall, Sir M V Block, 1st floor from 2:00 pm to 4:45 pm. The program was graced by the presence of our guests Shihan Dr.Lakshmi, Martial Artist, Renshi Krishna, Shihan Ashwini, and Dr.Y. Ramalinga Reddy, Chairman, Students Welfare Club, and also the Director, School Of Civil Engineering

The students were taught various self defence techniques so as to defend themselves in any sort of emergency and difficult situation. Students also cooperated and enjoyed well making the event successful.

Objectives :

- Many want to learn skills to fight back against criminals and increase available options against harm and associated fears of assault.
- Defining your self defence goals and training objectives will help you select the personal protection training options for your situation, travels, lifestyle or common potential threats you may face.

Venue : 3rd floor PG Cadd Lab

WHAT IS A PROJECT:

A project is a well-defined sequence of events with an identifiable beginning and ending. A project is different from a process in that there is always a point when the project is complete and the goal has been met.

The Need for Project Management:

Project Management is the planning, organising and managing of tasks and resources to accomplish a defined objective, usually with the constraint of time and cost.

Project Management helps you to answer:

1. How long the project will take
2. The impact on the overall project if a task is delayed
3. Which tasks are critical
4. Are sufficient resources allocated to the project to complete on time
5. The resource costs of the project
6. Is the project on schedule

Critical Path Method (CPM)

This refers to a mathematical model that takes into account the relationships between tasks, their duration and any constraints regarding the availability of resources to identify which tasks are critical. A task is critical when its delay could effect the end date of the project.

Program Evaluation Review Technique (PERT)

A PERT chart, sometimes called a network chart, refers to the graphic representation of how the tasks are linked to one another. This chart is useful when it is more important to focus on the relationships between tasks rather than the time schedule.

Gantt Chart

Henry L Gantt developed a graphic charting system to depict activities across time scale. The Gantt chart can be used in Microsoft Project to build a project as well as track and report it.

THE 3RD DIMENSION

As students of architecture, we have and will forever will be creating forms. Be it students or professionals, we are needed to explain design in a manner that it conveys a clear message. The more comprehensible it is, easier it is to translate. Unlike 2D designs which need clear instructions, 3D designs are comparatively easier to deduce without any language barriers. This workshop will help you explore the 3rd dimension and the intricate spaces that they can create.

COMIC STRIP

As students of architecture, we find creative ways to be expressive. Some do it through paintings, some through poetry and some through comic strips. Comic strips have been used in newspapers for decades to provide a creative way to acknowledge current events, voice opinions, and entertain readers while keeping them up to date with the news. Therefore, we are organizing a comic strip workshop for the parampara series where I will be teaching you how to construct a comic strip and what are the key elements required to do so. In this project-centered course, we will aim at creating an original minicomic designed around a short story of your choice.

Webinar Title: "Research Avenues in Civil Engineering – A Way Forward."

Date: 29th July 2020

Time: 12:00 PM to 1:30 PM

Mode: Through MS teams

Organized By: School of Civil Engineering in association with Sir M V Club.

Organised by Sir M V Club & Team members: Dr. P Shivananda, Prof. Amaranatha G A (convener), Prof. Sreenatha M, Prof. Vinayaka.B, and Prof. Raveesh J.

Description of Event:

Webinar on "Research Avenues in Civil Engineering – A Way Forward"

The Webinar was begun at 12.00 PM and welcome the Resource Person Dr. Jagadish Vengala for the webinar session by Mr.Amaranatha G A, Asst. Professor and introduced by Ms. Nandini D N, Asst. Professor.

Dr. Jagadish Vengala is currently as Head, EDC Innovation & Incubation Centre, Associate Professor, Department of Civil Engineering, PVP Siddhartha Institute of Technology, Vijayawada, Andhra Pradesh.

With a Brief Introduction of Speaker, the Webinar was started at 12:05 PM, Through MS Teams on "**Research Avenues in Civil Engineering – A Way Forward**" which was delivered by Dr. Jagadish Vengala. It was a very informative session and during session Dr. Jagadish Vengala has shared his experience about project works at Goa, North-eastern part where he involved and he clarified about qualitative and quantitative research and also he highlighted certain points related to How to do application oriented research, research publication and its review through his presentation. He has given ideas to do quality research and quality research paper publication with available and alternative resources, so it was very helpful for all the participants and all the professors and Research scholars.

In total more than 160 participants were participated from various institution and universities, across Karnataka and India. Students as well as faculty were lively and competed wholeheartedly and E-Certificates are provided for the participants who were attended the session.

We would like to thank and acknowledge our honourable Chancellor Sir, and Director Dr. Ramalinga Reddy, Asst. Director Rajashekar S L, Sir M V Club President, Dr.P Shivananda, and also all the faculty of School of Civil Engineering, REVA University, for their continuous support and guidance.

SCHOOL OF CIVIL ENGINEERING

Programme Title: "Immersion Programme for First Year B. Tech. in Civil Engineering 2020"

Date: 20th July 2020 to 30st July 2020(10-Days)

Timing: 10:00 a.m. -11:30 a.m.

Mode: MS Teams(Online)

Organized By: School of Civil Engineering

Description of Event: The immersion programme offered by the School of Civil Engineering for students who have enrolled at REVA for the year 2020. The course was designed to serve the basics that are needed for a Civil Engineering Graduate. The takeaways of the Elementary course will help in having a confident base for future from technical as well as interpersonal skills required. There are 12 students Enrolled for the Immersion Programme, Faculties from the school of Civil Engineering have engaged the sessions according to their specialization and shared their knowledge with students also motivated them by explaining the carrier opportunities in the field of civil engineering and alumni students also shared their fruit full journey at REVA University. Students are whole heartedly attended the programme for complete 10days and e-certificates are provided for students.

We would like to thank and acknowledge our Honorable Chancellor Sir, and Director Dr. Y. Ramalinga Reddy, Asst. Director Rajashekhar S L, and also all the Speakers who shared their knowledge from School of Civil Engineering, REVA University, for their continuous support and guidance.

Faculty Coordinator: Mr. Jayachandra & Mr. Ajaybhaskar Reddy

REPORT ON POSTER COMPETITION OF COVID-19 DO'S AND DON'T

The School of Civil Engineering REVA University organized a Poster Competition of COVID-19 DO'S AND DON'T for the civil students on 18th July, 2020 at 11 am to 12 pm through MS Team. Organized under Parisara Club.

Event has been encouraged the students to present their ideas of COVID-19 Do's and Don't. We have received the 81 responses from students and 10 best posters has been selected for presentation in MS Team

The judges have been taken the review of poster presentation and students were effectively presented their posters and selected two best posters. The competition has given the guidelines of COVID-19 DO'S AND DON'T to protect life during the pandemic.

We would like to thank our beloved director **Dr. Y. Ramalinga Reddy sir** for supporting us to organize the competition.

We would like to thank our Judges, **Dr. Harinath S**, Professor, School of Civil Engineering, and **Dr. Mohan Kumar T M**, Professor, School of Civil Engineering, We also thank our Assistant Director **Mr. Rajashekhar** for his support to organize the competition

Title: "Webinar on How to write an effective research paper"

Date: 20th July 2020

Time: 3.00 PM to 4:15 PM

Mode: Through MS teams

Organized By: R&D Team School of Civil Engineering

Organised R&D Team members: Prof Chunchu Bala Rama Krishna (convener), Prof Srikanth Reddy, Prof Vinayaka, Prof Naresh Reddy and Prof Pallavi M

Description of Event:

Webinar on How to write an effective research paper

The Programme was commenced at 3.00PM with the Resource Person Dr. P Jagadeesh Professor, VIT university, vellor, Tamil nadu. Welcomed by Prof. Pallavi M, Asst Prof School of Civil Engineering. Welcomed Dr.Y.Ramalinga Reddy, Director, School of Civil Engineering, Professors, Associate professors, and Assistant professors and all the participants who were joined the webinar session.

With a Brief Introduction of Speaker, the Webinar was started at 3.00PM ,Through MS Teams on "**How to write an effective research paper** " which was delivered by Dr. P Jagadeesh , Prof School of Civil Engineering, VIT university. It was an Very helpful research writing presentation, and explained very clearly on citations and indexed journals and gave inputs and ideas before submitting the papers into the various foreign Journals and open access paid and unpaid journals. And also explained about how to write abstract, introduction, literature and all the steps which we have to follow while writing effective research paper. His ideas was very helpful for all the participants and all the professors and Research scholars.

In general more than 150 Participants from across various institution and universities, Research Scholars Participated in Webinar

School of Civil Engineering
Report on
5 Days Virtual Skill Development Programme
On
Analysis & Design of Tall Buildings using ETABS & SAFE
5th to 9th August, 2020

The school of civil engineering has organized five days Virtual Skill Development Programme on "**Analysis & Design of Tall Buildings using ETABS & SAFE -5th to 9th August, 2020**". The main objective of the Virtual Skill Development Programme was focused to provide platform to young researchers and engineers, academicians and PG students, to familiarize the concepts of seismic considerations and foundation systems for Tall Buildings. The Programme provides the usages of ETABS software package for analysis and design of Tall Buildings, as well as frame analysis & design. The Programme also covers foundation design of Tall Buildings Using SAFE software package. Virtual Skill Development Programme was conducted on Microsoft Teams platform; about 120 delegates were attended.

The Virtual Skill Development Programme started with inaugural session which was chaired by **Dr. Y Ramalinga Reddy**, Associate Dean (CE&ME) and Director, School of Civil Engineering, REVA University.

The first day begins with first session addressed by **Dr. Sunil Kumar Tengli**, Professor, School of Civil Engineering, REVA University, on topic "**Introduction to Tall Buildings**" and second session addressed by **Mr. Naresh Reddy G N**, Assistant Professor, REVA University, on topic "**Introduction to software package ETABS**".

The second day begins with first session addressed by **Mrs. Bhavana**, Assistant Professor School of Civil Engineering, REVA University, on topic "**Concepts & considerations in analysis & design of Tall Buildings**" and second session addressed by **Mr. Naresh Reddy G N**, Assistant Professor, REVA University, on topic "**Modelling of Tall Buildings using ETABS**".

The third day begins with first session addressed by **Mr. Jayachandra**, Assistant Professor, School of Civil Engineering, REVA University, on topic "**Seismic analysis of Tall Buildings**" and second session addressed by **Mr. Naresh Reddy G N**, Assistant Professor, REVA University, on topic "**Analysis & design of Tall Buildings using ETABS**".

Guest Speaker : **Mr.Suresh Heblikar**, Founder of Eco-Watch

Activity : World Water Day - Proposed activity of Jal Shakthi Abhiyan under EBSB

Place of Activity : REVA Campus, Bengaluru

Audience : School of Civil Engineering Students, REVA University, Bengaluru

We are glad to inform that School of Civil Engineering, REVA had organized a talk on 'Awareness About Natural Water Bodies' as per the campaign under Ministry of Jal Shakti to highlight the objectives of World Water Day on 22nd March, 2021 at REVA university, Bengaluru

World water day- Awareness about natural water bodies was organized to popularize the theme of the year 2021, 'Valuing Water' which specially recognizes the crucial role of healthy eco systems in maintaining water supplies around the world. The world water day celebration aims at attention on importance of fresh water, sustainable management of water resources and related environmental aspects. The REVA university with its unique passion for Social awareness had invited Shri. Suresh Heblikar a noted Environmental activist, film maker & Founder of Eco-Watch to deliver the talk about Awareness about natural water bodies during World Water Day celebrations which was one of the club activities under Smt. Rukmini Shyama Raju club for Social Service.

The noted speaker Shri. Suresh Heblikar spoke on the importance of water for survival of ecosystem & mankind in turn. He narrated the relation of natural water bodes, Environment & soil. He was referring to the western ghats adjacent to his native place Dharwad which is having excellent eco system with natural streams. In his talk he emphasized the importance of natural water bodies in eco system. He mentioned importance of natural water bodies and the unusual rain patterns happening in India quoting some unusual events of extreme rainfall in Bengaluru itself. In the talk, Suresh Heblikar emphasized the importance of human quality of life by conservation of water resources, nature & environment. He remembered the earlier days in Bangalore which has been reduced to Concrete Jungle and mentioned the earlier thousands of lakes in Bengaluru being reduced to hundreds of lakes creating unsuitable environment for humans. He mentioned that he is keeping his promise to protect conservation of natural water bodies and environment by having Eco-Watch and fighting various issues harmful to water bodies & nature.

The World Water Day at REVA university commenced with a Mime on Water conservation by students of the university. Dr. Y. Ramalinga Reddy, Director of School of Civil Engineering welcomed the guests on the Dias. Vice Chancellor Dr. M. Dhanamjaya appreciated the activities of school of civil engineering and he felt happy to be part of the celebrations along with the noted environmentalist Mr. Suresh Heblikar. Chancellor Dr. P. Shyama Raju in his presidential speech explained the efforts taken by the university in upkeep of environment in the campus and conducting various activities like Jagruthi & organizing activities of world water day from the past 10 years. He proudly explained the greenery of REVA university, Rain Water Harvesting structures in the form of numerous pits across the campus, Solid waste management within REVA campus to

School of Civil Engineering

Report on Webinar

“Water Resources Assessment and Modelling”

Title of the event: “Water Resources Assessment and Modelling”

Venue	: MS Teams, Reva University
Date	: Thursday, 15 th April 2021
Coordinator	: Mrs. Minakshi Mishra

Event Details:

The School of Civil Engineering, REVA University-Bangalore has organized a webinar on topic of **Water Resources Assessment and Modelling** on 15th April 2021 at 11.30am to 12.30pm. This event had a motive to impart knowledge on the out of curriculum context domains of civil engineering.

Resource Speakers:

1. Dr. Prasad Inamdar

Hydrologist at NSW Department of Industry, Victoria University, Parramatta, Australia.

2. Dr. R Srinivas

Assistant Professor, Department of Civil Engineering, BITS-Pilani, Pilani Campus(India).

The main take away of this webinar were key fundamentals aspects of Water Resources Assessment and its Modelling. There was overwhelming response for the webinar evident through 100 plus participants.

Students and faculty coordinators on behalf of School of Civil Engineering, Thank Honourable Chancellor Dr. P. Shyama Raju sir and Vice Chancellor Dr. M. Dhanamjaya sir.

We also extend our acknowledgement to our Director Dr. Y. Ramalinga Reddy sir, School of Civil Engineering and also our Asst. Director Dr. Rajasekhara S L.

We also thank all the faculties of School of Civil Engineering, REVA University for their continuous support in organizing the events.

SCHOOL OF CIVIL ENGINEERING

Programme Title: "Introduction to Interior Designing"

Date: 07th May 2021

Timing: 04:00 p.m. - 05:00 p.m.

Mode: MS Teams(Online)

Organized By: School of Civil Engineering

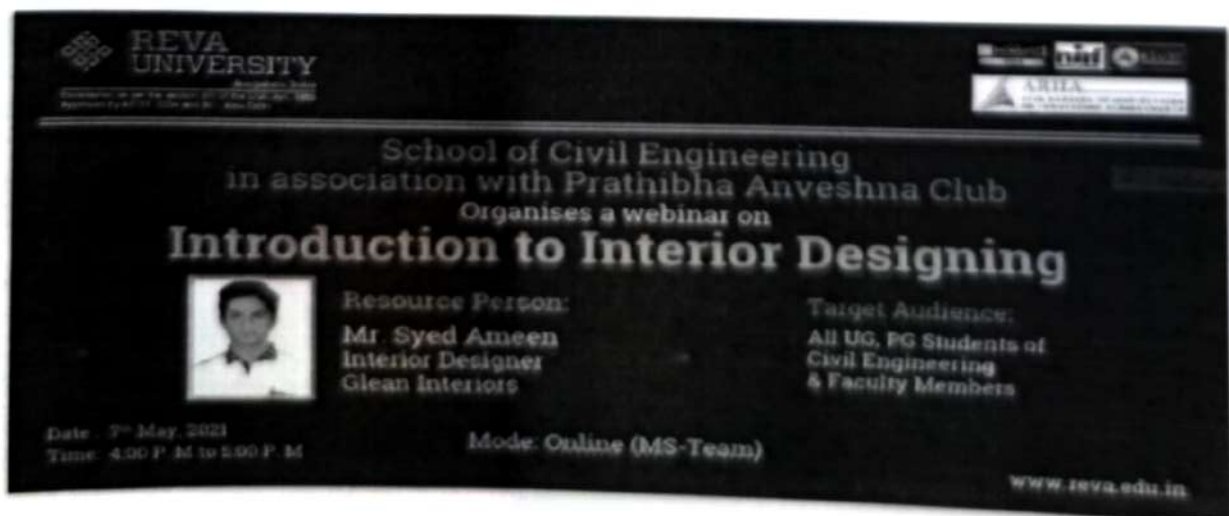

Description of Event: Webinar on "Introduction to Interior Designing" was conducted for B Tech students, to help the students to know about the interior designing. The program started with the welcome address by Mrs. Shylaja N followed by the speaker's presentation.

Speaker Mr. SYED AMEEN Interior Designer, Glean Interiors. Introduced the students to how start the interior designing, the process of interior designing and challenges in interior design industry. Around 50 students participated in the Introduction to Interior Designing.

The program ended with vote of thanks by Prof. Bhavana.B. Students whole heartedly attended the programme.

We would like to thank and acknowledge our Director Dr. Y. Ramalinga Reddy, Asst. Director Rajashekhar S L, and the Team head Dr. Harinath S from School of Civil Engineering, REVA University, for their continuous support and guidance.

Report on webinar “Application of Geology in Civil Engineering”

Title of the event: Application of Geology in Civil Engineering

Venue : MS Teams, Reva University

Date : Wednesday, 26th May 2021

Coordinator : Mr. Suresh.B, Mr. Sreenatha.M, & Mr.Amarnatha.GA

Event Details:

The School of Civil Engineering, REVA University-Bangalore has organized a webinar on topic of Application of Geology in Civil Engineering on 26th May 2021 at 2.30pm to 3.30pm. This event had a motive to impart knowledge on the out of curriculum context domains of civil engineering.

Resource Speaker:

Dr. Shivanna S

Professor

Department of Civil Engineering

Sir MVIT, Bangalore

The main take away of this webinar were key fundamentals aspects of geology in Civil Engineering like rock types, mineral types, faults, folds, tunnelling, dam site selection, geological structure of Indian region.

There was overwhelming response for the webinar evident through 120 plus registrations and 100 plus participants.

Students and faculty coordinators on behalf of School of Civil Engg., thank the Honourable Chancellor Dr. P. Shyama Raju sir, Vice Chancellor Registrar Dr. M. Dhanamjaya sir. We also extend our special thanks to Dr. Y.Ramalinga Reddy sir, Director- School of Civil Engg, for motivating and constantly supporting us in conducting this kind of events.

Report on Webinar “Anatomy of Microbially Induced Corrosion of Concrete Line Sewers”

Title of the event: “Anatomy of microbially induced corrosion of concrete line sewers”

Venue : MS Teams, Reva University

Date : Saturday, 29th May 2021.

Coordinator : Dr. T M Mohan Kumar, Mr. Naresh Reddy & Mr. Nanjunda K N

Event Details:

The School of Civil Engineering, REVA University-Bangalore has organized a webinar on topic of **Anatomy of microbially induced corrosion of concrete line sewers** on 29th May 2021 at 5.30pm to 6.30pm. This event had a motive to impart knowledge on the out of curriculum context domains of civil engineering.

Resource Speaker:

Dr Krishnan Kumar.

Ex-Scientist

Central Electrochemical Research Institute, Karaikudi,

The main take away of this webinar were key fundamentals aspects of corrosion in concrete sewers and water tanks.

There was overwhelming response for the webinar evident through 190 plus registrations and 110 plus participants.

Students and faculty coordinators on behalf of School of Civil Engineering, We Thank Honourable Chancellor Dr. P. Shyama Raju sir and Vice Chancellor Dr. M. Dhananjaya sir.

We also extend our acknowledgement to our Director Dr. Y.Ramalinga Reddy sir, School of Civil Engineering and also our Asst. Director Dr. Rajashekhar S L.

We also thank all the faculties of School of Civil Engineering, REVA University for their continuous support in organizing the events.

BETWEEN THE LINES 2021

Manifold resilient built environment
A 2 Days Virtual International Conference

Dates: 12th and 13th March 2021

Resilience has become the new catch phrase in architecture or urban planning replacing the term sustainable as the most coveted and desirable attribute of the environment.

When applied to the realm of architecture or urban planning, resilience may imply design of adaptable structures and urban environments that can "learn" from their environments and sustain life, even in the face of disaster.

The conference aims to highlight this duality in the meaning and application of resilience to the field of urban planning and architecture. Experts from various transdisciplinary fields will be invited to share a common platform and propose the combined knowledge towards manifold resilient built environment.

Tracks proposed for the conference:

Architecture/ Planning for

1. Resilience against climate change
2. Resilience against Natural disasters
3. Resilience against Anthropogenic hazards
4. Post Pandemic Urban futures

Eminent Speakers

 Mitigation of land pollution through Landscape Design by

Ar. Victor Tenez Ybern

Professor at Catalan Polytechnic University (UPC), Barcelona

 Architecture / Planning for resilience against climate change by

Ar. Rajneesh Saren

Programme Director Sustainable Habitat Programme at Centre for Science and Environment, New Delhi

 Anthropogenic hazards

School of Electrical and Electronics Engineering Organises a STTP on Electrical Engineering Analysis in MATLAB / Simulink

Date : 14th August, 2021

Platform : MS Teams

About the STTP

This course is designed for anyone wishing to develop a basic comprehension of Electrical Engineering Analysis and programming. This is an exciting time in the academia and industry where Electrical Engineering Analysis along with programming is the vital tool that fortifies research and development. It is hands on experience-oriented short term training program with extensive applications of Control System, Image Processing, DSP Analysis through MATLAB also with specific programming exercises. Course will be beneficial to beginners as well as practitioners of different domain. Teaching methodology will be adopted in such a manner that all can cope up even those who do not possess any prior knowledge of Simulation methods and programming. Case studies of advanced application of MATLAB will be presented by highly motivated Industrial personnel and they will also demonstrate applications of computational methods through the recent research works. Every participant will be requested to Install MATLAB for hands-on practice during the sessions.

Topics Covered

Day	Topic	Trainer
1	Intro to MATLAB	Mr. Balajee
2	Basic Control Systems and Signals and Systems	Mr. Atharva Dinkar
3	Basics of Power Electronics	Mr. Brandon
4	Communication systems	Mr. Manish
5	Digital Signal Processing (DSP)	Mr. Achyuth
6	Basics of Machine Learning (ML)	Mr. Poovaya

Trainers

Mr. R S Balajee
Product Associate
Texas

Mr. Atharva Dinkar

About SDP:

School of Civil Engineering has organised Five-Day Student Development Programme on “MS Office Training” during 21st - 25th March 2022. A total of 10 sessions spread over five days covering the various MS Office tools were conducted by skilled and efficient trainers from the Industry.

Course Objectives:

- To provide hands on training and guide them gain expertise in MS Office.
- To train them in using MS word, MS excel and MS powerpoint.

Day-1

On the first day i.e., 21st March 2022, topics such as Introduction to MS Office , Text documents – creation, editing and saving, Layout selection, text styles, formatting text, tables and smart art were discussed and taught.

Day-2

On Second day- 22nd March 2022, In the first session the students were trained on MS Powerpoint. The topics covered include creating, printing slides, applying custom animations, graphical representation using graphs and charts. The second session was focused on MS Excel. The topics that were discussed include, importing data in workbooks, Navigating within workbooks, Formatting worksheets and workbooks and customising options.

Day-3

School of Civil Engineering

Report on Webinar "COVID-19 Crisis, Risks, Opportunities & It's learning"

Title of the event: "COVID-19 Crisis, Risks, Opportunities & It's learning"

Venue	: MS Teams, REVA University
Date	: Saturday, 03rd July 2021
Coordinator	: Dr.Rajashekhar S.Laddimath and Mr.Ajaybhaskhar Reddy
Supporting Organizers	: Mr. K. Chandraprakash ,Mrs. Minakshi, Mrs. Pushpa Lumina

Event Details:

Resource Speaker: Mr. Vinay Patil, Founder & CEO of Skillfix-Bengaluru.

About Event:

The school of civil Engineering, REVA University had organized webinar on "COVID-19 Crisis, Risks, Opportunities & It's learning" for the faculty members, B.Tech./M.Tech. Students, Alumni and PUC-2 students on Saturday, 03rd July 2021 from 11.00 am to 12.30 pm. Around 65 participants participated in this event.

The webinar on "COVID-19 Crisis, Risks, Opportunities & It's learning" focused on giving the insight about the current risk and opportunities associated with the Pandemic and brought about the essence of learnings through the stories and incidences articulated by Mr. Vinay Patil Founder & CEO of Skillfix-Bengaluru. As a high-profile inspirational speaker & a leadership coach he left lifelong impact on the targeted audience. The event witnessed awestruck performace by his Powerful & Enlightening Speeches structured in the form of storytelling which is delivered in the most electrifying yet poised manner.

School of Civil Engineering

Report on Webinar “Introduction to Off Shore Structure and Career Opportunities”

Title of the event: “ Introduction to Off Shore Structure and Career Opportunities”

Venue	: MS Teams, REVA University
Date	: Saturday, 3 rd July 2021
Coordinator	: Mrs. Sindhoora.C / Mr. Avinash S Deshpande
Supporting Organizers	: Mr. Ajaybhaskar Reddy, Mrs. Minakshi, Mr. K. Chandraprakash and Mrs. Pushpa Lumina

Event Details:

The School of Civil Engineering, REVA University-Bangalore has organized a webinar on topic of **Introduction to Off Shore Structure and Career Opportunities** on 3rd July 2021 at 5.30pm to 6.30pm. This event had a motive to impart knowledge on the out of curriculum context domains of civil engineering.

Resource Speaker:

Mr. keshava siddappa
Senior PMC Off shore structural Engineer
KBR, Abu Dhabi, UAE

The main take away of this webinar were key fundamentals aspects of Introduction to Off Shore Structure and Career Opportunities. There was overwhelming response for the webinar evident through 100 plus participants.

Students and faculty coordinators on behalf of School of Civil Engineering, Thank Honourable Chancellor Dr. P. Shyama Rajusir and Vice Chancellor Dr. M. Dhanamjaya sir.

We also extend our acknowledgement to our Director Dr. Y. Ramalinga Reddy sir, School of Civil Engineering and also our Vertical head Mr. Ajaybhaskar Reddy.

20 YEARS OF
ACADEMIC
EXCELLENCE

REVA
UNIVERSITY

Bengaluru, India

**School of Architecture in
Collaboration with UIIC
offering 6 Days Skill Development
course for 8th Semester students**

Topic: FUNDAMENTALS OF
ENTREPRENEURSHIP

Venue: School of Architecture

Eligibility: 8th-year Students
of Architecture

Dates: 8th Sem, A sec: 17, 18,
and 19th March 2022
8th Sem, B sec: 24, 25,
and 26th March 2022

Tutor: Ar. Sindhu Jagannath

Yeshwantha, Bengaluru - 560 064

School of Architecture in Collaboration with UIIC

Offers 4 Days Skill Development Course
for Upcoming 3rd Semester Students

3Cs - Create, Compose & Compete

Eligibility : Upcoming 3rd Semester Students

Date : 19th, 20th, 21st
and 22nd August, 2021

Time : 9:30 A. M. to 4:30 P. M.

Venue : MS Team

Tutors :

Director
School of Architecture
REVA University
Fukmini Knowledge Park, Kattigenahalli
Yelahanka, Bengaluru - 560 064

School of Architecture

in collaboration with **UIIC** offering
4 Days Skill Development course
for upcoming **5th Semester students.**

Design Builder – An integrated set in-depth, high productivity tools to assist with sustainable building design and assessment.

**9th, 10th, 11th
and 12th August 2021
(9:00 AM to 4:00 PM)**

Venue : MS Team
Eligibility : Upcoming 5th Semester students (Compulsory)
no registration required
Tutors : Prof. Sneha Murthy,
Prof. Anup Kumar Prasad

Benefits:

- Fast, accurate modelling throughout the whole design process gives confidence in designs from concept to completion.
- Confidently generate certificate and maximise QA audit using the fastest and easiest software available.
